

### Rescission of Review

The Department's regulations at 19 CFR 351.213(d)(1) provide that the Department will rescind an administrative review if a party that requested a review withdraws the request within 90 days of the date of publication of the notice of initiation of the requested review. Belgo Mineira withdrew its request for an administrative review on January 29, 2004, which is within the 90-day deadline. No other party requested a review of Belgo Mineira's sales. Therefore, the Department is rescinding this administrative review.

This notice also serves as a reminder to parties subject to administrative protective order ("APO") of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3). Timely written notification of the return or destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and the terms of an APO is a sanctionable violation.

This notice is issued and published in accordance with 19 CFR 351.213(d)(4).

Dated: February 3, 2004.

### DEPARTMENT OF COMMERCE

#### National Oceanic and Atmospheric Administration

[I.D. 011504A]

#### Taking and Importing of Marine Mammals

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Notice of affirmative finding renewal.

**SUMMARY:** The Assistant Administrator for Fisheries, NMFS, (Assistant Administrator) renewed the affirmative finding for the Government of Mexico under the Marine Mammal Protection Act (MMPA). This affirmative finding renewal will allow yellowfin tuna harvested in the eastern tropical Pacific Ocean (ETP) in compliance with the International Dolphin Conservation Program (IDCP) by Mexican-flag purse seine vessels or purse seine vessels operating under Mexican jurisdiction to

continue to be imported into the United States. The affirmative finding renewal was based on review of documentary evidence submitted by the Government of Mexico and obtained from the Inter-American Tropical Tuna Commission (IATTC) and the Department of State.

**DATES:** Effective April 1, 2003, through March 31, 2004.

**FOR FURTHER INFORMATION CONTACT:**

Regional Administrator, Southwest Region, NMFS, 501 West Ocean Boulevard, Suite 4200, Long Beach, California, 90802-4213; Phone 562-980-4000; Fax 562-980-4018.

**SUPPLEMENTARY INFORMATION:** The MMPA, 16 U.S.C. 1361 *et seq.*, as amended by the International Dolphin Conservation Program Act (IDCPA) (Public Law 105-42), allows the entry into the United States of yellowfin tuna harvested by purse seine vessels in the ETP under certain conditions. If requested by the harvesting nation, the Assistant Administrator will determine whether to make an affirmative finding based upon documentary evidence provided by the government of the harvesting nation, the IATTC, or the Department of State. A finding will remain valid for 1 year (April 1 through March 31) or for such other period as the Assistant Administrator may determine. An affirmative finding applies to yellowfin tuna and tuna products that were harvested in the ETP by purse seine vessels under the jurisdiction of the nation after March 3, 1999, the effective date of the IDCPA.

The affirmative finding process requires that the harvesting nation meet several conditions related to compliance with the IDCP. Every 5 years, the government of the harvesting nation must request an affirmative finding and submit the required documentary evidence directly to the Assistant Administrator. A nation may provide information regarding compliance with the IDCP directly to NMFS on an annual basis or may authorize the IATTC to release the information to NMFS in years when NMFS will review and consider whether to issue an affirmative finding determination without an application from the harvesting nation.

An affirmative finding will be terminated, in consultation with the Secretary of State, if the Assistant Administrator determines that the requirements of 50 CFR 216.24(f) are no longer being met or that a nation is consistently failing to take enforcement actions on violations, thereby diminishing the effectiveness of the IDCP. Every 5 years, the government of the harvesting nation must request an affirmative finding and submit the

required documentary evidence directly to the Assistant Administrator.

As a part of the annual review process set forth in 50 CFR 216.24(f), the Assistant Administrator considered documentary evidence submitted by the Government of Mexico or obtained from the IATTC and the Department of State and determined that Mexico has met the MMPA's requirements to receive an affirmative finding.

After consultation with the Department of State, NMFS renewed the Government of Mexico's affirmative finding allowing the continued importation into the United States of yellowfin tuna and products derived from yellowfin tuna harvested in the ETP after March 3, 1999, by Mexican-flag purse seine vessels or purse seine vessels operating under Mexican jurisdiction.

In 2004, the Assistant Administrator will determine whether the Government of Mexico is meeting the requirements under section 101 (a)(2)(B) and (C) of the MMPA. If necessary, documentary evidence may also be requested from the Government of Mexico to determine whether the affirmative finding criteria are being met. In order for the affirmative finding for the Government of Mexico to be renewed after NMFS's annual review in 2004, the Government of Mexico must submit a new application in early 2005 for an affirmative finding to be effective for the period April 1, 2005, through March 31, 2006, and the subsequent 4 years.

Dated: February 3, 2004.

### DEPARTMENT OF DEFENSE

#### Office of the Secretary

#### Submission for OMB Review; Comment Request

**ACTION:** Notice.

The Department of Defense has submitted to OMB for clearance, the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

**DATES:** Consideration will be given to all comments received by March 10, 2004.

*Title, Form, and OMB Number:* Civil Aircraft Landing Permit System; OMB Number 0701-0050.

*Type of Request:* Extension of a Currently Approved Collection.

*Number of Respondents:* 3,600.

*Responses Per Respondent:* 1.

*Annual Responses:* 3,600.

*Average Burden Per Response:* 30 minutes.

*Annual Burden Hours:* 1,800.

*Needs and Uses:* This information collection is necessary to ensure that the security and operational integrity of military airfields are maintained; to identify the aircraft operator and the aircraft to be operated; to avoid competition with the private sector by establishing the purpose for use of military airfields; and to ensure the U.S. Government is not held liable if the civil aircraft becomes involved in an accident or incident while using military airfields, facilities, and services.

*Affected Public:* Business or Other For Profit.

*Frequency:* On Occasion.

*Respondent's Obligation:* Required to Obtain or Retain Benefits.

*OMB Desk Officer:* Ms. Jacqueline Zeiher.

Written comments and recommendations on the proposed information collection should be sent to Ms. Zeiher at the Office of Management and Budget, Desk Officer for DoD, Room 10236, New Executive Office Building, Washington, DC 20503.

*DoD Clearance Officer:* Ms. Jacqueline Davis.

Written requests for copies of the information collection proposal should be sent to Ms. Davis, WHS/DIOR, 1215 Jefferson Davis Highway, Suite 1204, Arlington, VA 22202-4302.

Dated: February 2, 2004.

## DEPARTMENT OF DEFENSE

### Office of the Secretary

#### Defense Science Board

**AGENCY:** Department of Defense.

**ACTION:** Notice of advisory committee meeting.

**SUMMARY:** The Defense Science Board Task Force on High Performance Microchip Supply will meet in closed session on March 3, 2004, at Strategic Analysis Inc., 3601 Wilson Boulevard, Arlington, VA. The Task Force will assess the implications of the movement of manufacturing capability and design of high performance microchips and will address the Department of Defense's (DoD) ability to obtain

radiation hardened microchips, the ability to produce limited quantities of special purpose microchips in a timely and secure manner, and the ability to produce microchips in a timely manner to meet emerging needs.

The mission of the Defense Science Board is to advise the Secretary of Defense and the Under Secretary of Defense for Acquisition, Technology & Logistics on scientific and technical matters as they affect the perceived needs of the Department of Defense. Specifically, the Task Force will look at root causes associated with the migration of the manufacturing capability of high performance semiconductors; policies or technology investments that DoD, either alone or in conjunction with other U.S. government agencies, can pursue which will influence the migration of manufacturing to foreign shores; alternatives to the creation of trusted foundries based on U.S. territory; whether testing is a viable alternative and if so, the level of assurance testing will provide to guarantee that only intended functions are built into the microchip; alternative manufacturing techniques which may allow overseas fabrication of the microchips and subsequent interconnect in the U.S.; and future technologies which the U.S. may invest in to replace the current microchip technology.

In accordance with section 10(d) of the Federal Advisory Committee Act, Pub. L. 92-463, as amended (5 U.S.C. App. II), it has been determined that these Defense Science Board Task Force meetings concern matters listed in 5 U.S.C. 552b(c)(1) and that, accordingly, the meetings will be closed to the public.

Dated: February 3, 2004.

**L.M. Bynum,**

*Alternate OSD Federal Register Liaison Officer, Department of Defense.*

## DEPARTMENT OF DEFENSE

### Office of the Secretary

#### Defense Science Board

**AGENCY:** Department of Defense.

**ACTION:** Notice of advisory committee meeting.

**SUMMARY:** The Defense Science Board Task Force on Identification Technologies will meet in closed session on March 15-16, 2004; April 15-16, 2004; and May 5-6, 2004, at Strategic Analysis Inc., 3601 Wilson

Boulevard, Arlington, VA. The Task Force will assess current technologies and operational concepts to identify and track individuals and materiel.

The mission of the Defense Science Board is to advise the Secretary of Defense and the Under Secretary of Defense for Acquisition, Technology & Logistics on scientific and technical matters as they affect the perceived needs of the Department of Defense. In this assessment, the task force's investigation will encompass defense, intelligence, and commercial systems, including compartmented technology in development and promising technologies in the lab that are not yet deployed. Technologies will include passive/active, line of sight/non-line of sight, and cooperative/non-cooperative. Potential mechanisms include predictive behavior modeling based on threat characteristics (attack modality, ideological makeup, social, ethnic, religious and political tendencies, etc.), identification technologies such as biometrics (iris scans, facial features, voice prints, etc.), DNA matching, and advanced non-identification technologies such as EO, RF, hyperspectral, and fluid surface assembly (FSA) sensors.

In accordance with section 10(d) of the Federal Advisory Committee Act, Pub. L. No. 92-463, as amended (5 U.S.C. App. II), it has been determined that these Defense Science Board Task Force meetings concern matters listed in 5 U.S.C. 552b(c)(1) and that, accordingly, the meetings will be closed to the public.

Dated: February 3, 2004.
