I. Background

The Corporation developed the
Financial Management Survey in
fulfillment of its pre-award policy
(CFO-029, effective 1/17/02) that
provides reasonable assurance that
federal grant funds will be expended in
ways that meet program objectives, the
award terms and conditions; and
applicable federal statutes, regulations
and guidelines. The Financial
Management Survey will standardize
the pre-award process and will ensure
uniform consideration of the capacity of
potential grantees of the Corporation to
manage federal funds.

The Financial Management Survey
will be used for the following purposes:

(1) As a pre-award assessment tool of
the capacity of a potential grantee to
manage federal funds in excess of
\$100,000; and

(2) As part of the basis for
determining the financial management
areas in which a potential grantee,
should it receive an award from the
Corporation, may warrant technical
assistance.

II. Current Action

The Corporation is seeking public
comment for approval of the Financial
Management Survey which will be used
by Corporation Grants Management
Specialists to assess the capacity of
potential grantees to manage Federal
funds. This assessment involves a
review of the potential grantee's
responses to general questions about its
organizational type, financial systems,
how it manages funds, and the internal
controls it has in place to segregate and
report on Federal funds it might receive.
The public affected will be grant
applicants that have not previously
received Federal funds through an
award from the Corporation, or current
grantees that are re-competing for
funding at the beginning of a new 3-year
grant cycle and have been identified as
not meeting the exemption critical of
the Corporation's pre-award review
policy.

Should the entity become a grantee of
the Corporation, the information
gathered will be maintained in the new
grantee's official file and become part of
the basis for determining specific areas
of its financial management and systems
that may benefit from technical
assistance from the Corporation, its staff
and Training and Technical Assistance
(T/TA) providers.
