Statutory and Regulatory Requirements

All Section 319(h) grants will be awarded and administered consistent with the statutory requirements in Section 319(h) and 518(e) of the Clean Water Act and applicable regulations in 40 CFR Parts 31 and 35.

Conclusion

By once again lifting the 1/3 of 1% statutory cap in FY 2004, Congress continues to provide the Tribes and EPA with an excellent opportunity to further Tribal efforts to reduce nonpoint pollution and enhance water quality on Tribal lands. EPA looks forward to working closely with the Tribes to assist them in implementing effective nonpoint source programs in FY 2004 and creating a sound basis to assure that adequate funds will continue to be provided in the future.

In general, these surveys would not involve more than 500 respondents, would not require more than one hour per respondent, and would be completely voluntary. It is not contemplated that more than ten such surveys would be completed in any given year.

burden of the information collection on respondents, including through the use of automated collection techniques or other forms of information technology.

At the end of the comment period, the comments and recommendations received will be analyzed to determine the extent to which the collection should be modified prior to submission to OMB for review and approval. Comments submitted in response to this notice also will be summarized or included in the FDIC's requests to OMB for renewal of this collection. All comments will become a matter of public record.
