nonprocurement programs and activities. A certification previously provided to that office remains currently valid until new or revised information applicable to that certification becomes available. In the event of new or revised applicable information, the MMS will require a subsequent certification before lease issuance can occur. Persons submitting such certifications should review the requirements of 43 CFR part 12, subpart D. A copy of the Debarment Certification Form is contained in the FNOS 190 Package.

Affirmative Action: The MMS requests that, prior to bidding, Equal Opportunity Affirmative Action Representation Form MMS 2032 (June 1985) and Equal Opportunity Compliance Report Certification Form MMS 2033 (June 1985) be on file in the MMS Gulf of Mexico region adjudication unit. This certification is required by 41 CFR part 60 and Executive Order No. 11246 of September 24, 1965, as amended by Executive Order No. 11375 of October 13, 1967. In any event, prior to the execution of any lease contract, both forms are required to be on file in the MMS Gulf of Mexico region adjudication unit.

Geophysical Data and Information Statement: Pursuant to 30 CFR 251.12, the MMS has a right to access geophysical data and information collected under a permit in the OCS. Every bidder submitting a bid on a block in Sale 190, or participating as a joint bidder in such a bid, must submit a Geophysical Data and Information Statement identifying any processed or reprocessed pre- and post-stack depth migrated geophysical data and information in its possession or control and used in the evaluation of that block. The existence, extent (*i.e.*, number of line miles for 2D or number of blocks for 3D) and type of such data and information must be clearly identified. The statement must include the name and phone number of a contact person, and an alternate, knowledgeable about the depth data sets (that were processed or reprocessed to correct for depth) used in evaluating the block. In the event such data and information includes data sets from different timeframes, you should identify only the most recent data set used for block evaluations.

The statement must also identify each block upon which a bidder participated in a bid but for which it does not possess or control such depth data and information.

Every bidder must submit a separate Geophysical Data and Information Statement in a sealed envelope. The envelope should be labeled ''Geophysical Data and Information Statement for Oil and Gas Lease Sale 190'' and the bidder's name and qualification number must be clearly identified on the outside of the envelope. This statement must be submitted to the MMS at the Gulf of Mexico Regional Office, Attention: Resource Evaluation (1201 Elmwood Park Boulevard, New Orleans, Louisiana 70123–2394) by 10 a.m. on Tuesday, March 16, 2004. The statement may be submitted in conjunction with the bids or separately. Do not include this statement in the same envelope containing a bid. These statements will not be opened until after the public bid reading at Lease Sale 190 and will be kept confidential. An example of preferred format for the geophysical data and information statement is included in the FNOS 190 Package.

Please refer to NTL No. 2003–G05 for more detail concerning submission of the geophysical data and information statement, making the data available to the MMS following the lease sale, preferred format, reimbursement for costs, and confidentiality.

Dated: February 5, 2004.

Notice Pursuant to the National Cooperative Research and Production Act of 1933—Open SystemC Initiative (''OSCI'')

Notice is hereby given that, on January 12, 2004, pursuant to section 6(a) of the National Cooperative Research and Production Act of 1933, 15 U.S.C. 4301 *et seq.* (''the Act''), Open SystemC Initiative (''OSCI'') has filed written notifications simultaneously with the Attorney General and the Federal Trade Commission disclosing changes in its membership status. The notifications were filed for the purpose of extending the Act's provisions limiting the recovery of antitrust plaintiffs to actual damages under specified circumstances. Specifically, Prosilog SA, Cergy-Prefecture, France; Panasonic, Secaucus, NJ; and Summit Design, Inc., Burlington, MA have been added as parties to this venture. Also, Future Design Automation, Tokyo, Japan has been dropped as a party to this venture.

No other changes have been made in either the membership or planned activity of the group research project. Membership in this group research project remains open, and OSCI intends to file additional written notification disclosing all changes in membership.

On October 9, 2001, OSCI filed its original notification pursuant to section 6(a) of the Act. The Department of Justice published a notice in the **Federal Register** pursuant to section 6(b) of the Act on January 3, 2002 (67 FR 350).

The last notification was filed with the Department on April 22, 2003. A notice was published in the **Federal Register** pursuant to section 6(b) of the Act on May 16, 2003 (68 FR 26649).

Dorothy B. Fountain,

Deputy Director of Operations, Antitrust Division.
