Availability of Court Orders in Washington Toxics Coalition v. EPA Litigation

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces to the public the availability of Orders issued by a federal district court affecting certain aspects of the sale, distribution and use of pesticides and instructs certain entities about their responsibility to inform others of these Orders. In response to a citizen suit filed under the Endangered Species Act against EPA by the Washington Toxics Coalition and other public interest groups, the United States District Court for the Western District of Washington issued an Order granting interim injunctive relief on January 22, 2004. The Order (with some exceptions) enjoins, vacates and sets aside EPA's authorization of certain pesticides' uses within 20 yards for ground applications

and 100 yards for aerial applications, adjacent to salmon supporting waters in California, Oregon and Washington, effectively establishing buffer zones around those waters. The Court also ordered EPA to notify a variety of entities in the affected states of this injunction, and of previous Orders issued by the Court in this case, and to instruct registrants and the affected states to inform certain persons who sell, distribute and use pesticides of the Order. Unit II. of this Notice provides in detail the list of persons and entities to whom this notification and instruction apply. Further, the Court ordered EPA to develop and facilitate the availability of a point of sale notification in urban areas in the three states, for certain products containing any of 7 active ingredients. The Court's January 22 Order, which carries an effective date of February 5, 2004, and other related materials, including the Court's previous Orders, are available on EPA's web site (See Unit I.B.3. of the **SUPPLEMENTARY INFORMATION** for the web site address).

SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this Action Apply to Me?

This action is directed to certain pesticide registrants, states, certified applicators, and licensed pesticide dealers. This Notice may also be of particular interest to persons in California, Oregon and Washington who may wish to use a pesticide near salmon supporting waters. The Court has defined salmon supporting waters in its January 22, 2004 Order. This action may also be of particular interest to distributors, retail sales businesses, and pesticide applicators in California, Oregon and Washington and registrants of pesticides containing the active ingredients subject to the Court's injunction. Since other entities may also be interested, the Agency has not attempted to describe all the specific entities that may be affected by this action. If you have any questions regarding the applicability of this action to a particular entity, consult the person listed under **FOR FURTHER INFORMATION CONTACT**.
