**SUPPLEMENTARY INFORMATION:** The text of the report follows:

#### Report to the Committee on Financial Services of the United States House of Representatives and to the Committee on Banking, Housing, and Urban Affairs of the United States Senate Regarding Differences in Accounting and Capital Standards Among the Federal Banking Agencies

##### Introduction

The Office of the Comptroller of the Currency (OCC), the Board of Governors of the Federal Reserve System (FRB), the Federal Deposit Insurance Corporation (FDIC), and the Office of Thrift Supervision (OTS) (the federal banking agencies or the agencies) must jointly submit an annual report to the Committee on Financial Services of the U.S. House of Representatives and the Committee on Banking, Housing, and Urban Affairs of the U.S. Senate describing differences between the accounting and capital standards used by the agencies. The report must be published in the **Federal Register**.

This report, which covers differences existing as of December 31, 2003, is the second joint annual report on differences in accounting and capital standards to be submitted pursuant to section 37(c) of the Federal Deposit Insurance Act (12 U.S.C. 1831n(c)), as amended. Prior to the agencies' first joint annual report, section 37(c) required a separate report from each agency.

Since the agencies filed their first reports on accounting and capital differences in 1990, the agencies have acted in concert to harmonize their accounting and capital standards and eliminate as many differences as possible. Section 303 of the Riegle Community Development and Regulatory Improvement Act of 1994 (12 U.S.C. 4803) also directs the agencies to work jointly to make uniform all regulations and guidelines implementing common statutory or supervisory policies. The results of these efforts must be "consistent with the principles of safety and soundness, statutory law and policy, and the public interest." During the past decade, the agencies have revised their capital standards to address changes in credit and certain other risk exposures within the banking system and to align the amount of capital institutions are required to hold more closely with the
