

and low vacuum and electron energies; (2) high accuracy laser interferometry; and (3) a specially adapted stage to accommodate large samples for integrated circuit applications. Sandia National Laboratories and a university research center advise that (1) These capabilities are pertinent to the applicant's intended purpose and (2) it knows of no domestic instrument or apparatus of equivalent scientific value to the foreign instrument for the applicant's intended use.

We know of no other instrument or apparatus of equivalent scientific value to the foreign instrument which is being manufactured in the United States.
