

intervene in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 385.214 or 385.211) and the regulations under the NGA (18 CFR 157.10). A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit 14 copies of filings made with the Commission and must mail a copy to the applicant and to every other party in the proceeding. Only parties to the proceeding can ask for court review of Commission orders in the proceeding.

However, a person does not have to intervene in order to have comments considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition to this project. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission's rules require that persons filing comments in opposition to the project provide copies of their protests only to the party or parties directly involved in the protest.

The Commission may issue a preliminary determination on non-environmental issues prior to the completion of its review of the environmental aspects of the project. This preliminary determination typically considers such issues as the need for the project and its economic effect on existing customers of the applicant, on other pipelines in the area, and on landowners and communities. For example, the Commission considers the extent to which the applicant may need to exercise eminent domain to obtain rights-of-way for the proposed project and balances that against the non-environmental benefits to be provided by the project. Therefore, if a person has comments on community and landowner impacts from this proposal, it is important either to file comments or to intervene as early in the process as possible.

Persons who wish to comment only on the environmental review of this project should submit an original and two copies of their comments to the Secretary of the Commission. Environmental commenters will be placed on the Commission's environmental mailing list, will receive copies of the environmental documents, and will be notified of meetings associated with the Commission's

environmental review process. Environmental commenters will not be required to serve copies of filed documents on all other parties. However, the non-party commenters will not receive copies of all documents filed by other parties or issued by the Commission (except for the mailing of environmental documents issued by the Commission) and will not have the right to seek court review of the Commission's final order.

Comments, protests and interventions may be filed electronically via the Internet in lieu of paper. See 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site under the "e-Filing" link.

Eastern Shore Natural Gas Company; Notice of Proposed Changes in FERC Gas Tariff

February 19, 2004.

Take notice that on February 17, 2004, Eastern Shore Natural Gas Company (ESNG) tendered for filing as part of its FERC Gas Tariff, Second Revised Volume No. 1, the tariff sheets listed in Appendix A to the filing, with a proposed effective date of February 1, 2004.

ESNG states that the purpose of this instant filing is to track rate changes attributable to a storage service purchased from Columbia Gas Transmission Corporation (Columbia) under its Rate Schedules FSS and SST. ESNG asserts that the costs of the above referenced storage service comprise the rates and charges payable under ESNG's Rate Schedule CFSS. ESNG indicates this tracking filing is being made pursuant to section 3 of ESNG's Rate Schedule CFSS.

ESNG states that copies of the filing have been served upon its jurisdictional customers and interested State Commissions.

Any person desiring to be heard or to protest said filing should file a motion to intervene or a protest with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, in accordance with sections 385.214 or 385.211 of the Commission's

rules and regulations. All such motions or protests must be filed in accordance with section 154.210 of the Commission's regulations. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. Any person wishing to become a party must file a motion to intervene. This filing is available for review at the Commission in the Public Reference Room or may be viewed on the Commission's Web site at <http://www.ferc.gov> using the eLibrary. [Project No. 1971-082]

Idaho Power Company; Notice Rejecting Request for Rehearing

February 19, 2004.

1. On January 20, 2004, Idaho Power Company (Idaho Power) filed a request for rehearing of a December 19, 2003, letter by the Director, Office of Energy Projects (Director), responding to Idaho Power's objections with respect to proposed meetings between representatives of the Commission and Indian tribes with an interest in the relicensing of Idaho Power's Hells Canyon Hydroelectric Project.

2. Section 313(a) of the Federal Power Act, 18 U.S.C. 8251(a), provides that requests for rehearing may be filed only by persons aggrieved by an order issued by the Commission. Moreover, rule 713 of the Commission's rules of practice

and procedure, 18 CFR 385.713 (2004), provides that a rehearing request may be sought after a final decision or other final order in a proceeding. The Director's December 19, 2003, letter is not a final decision or order. It does not impose an obligation on any party or adjudicate anyone's substantive rights; rather, the letter simply responds to questions regarding proposed procedures. That being the case, Idaho Power is not aggrieved by the letter. Moreover, a challenge to the Commission's procedures will be ripe only after the Commission has acted on the merits of Idaho Power's application, not at this preliminary stage.

3. For the above reasons, rehearing of the December 19, 2004, letter does not lie, and Idaho's Power's request for rehearing is rejected.¹

4. This notice constitutes final agency action. Requests for rehearing by the Commission may be filed within 30 days of the date of issuance of this notice, pursuant to 18 CFR 385.713 (2003).

Secretary.
