DEPARTMENT OF AGRICULTURE**Forest Service****Colville National Forest, WA; Growden
Dam and Sherman Creek Restoration**

AGENCY: Forest Service, USDA.

ACTION: Notice of intent to prepare an environmental impact statement.

SUMMARY: The Forest Service, USDA, will prepare an environmental impact statement (EIS) on a proposal to remove Growden Dam and improve trout habitat on approximately 3 miles of Sherman Creek. Growden Dam was built in 1937 by the Civilian Conservation Corp as a recreational pond. It serves no irrigation, hydropower, or flood control purpose. The pond has filled in with sediment and poses a safety risk if it washes out. The Proposed Action will be in compliance with the 1988 Colville National Forest Land and Resource Management Plan (Forest Plan) as amended, which provides the overall guidance for management of this area. The Proposed Action is within the Sherman Creek drainage on the Three Rivers Ranger District. The project area would be located from 12 to 16 miles west of Kettle Falls, Ferry County, Washington along State Highway 20. Project implementation is scheduled for fiscal year 2005. The Colville National Forest invites written comments and suggestions on the scope of the analysis. The agency will give notice of the full environmental analysis and decision-making process so interested and affected people may be able to participate and contribute in the final decision.

DATES: Comments concerning the scope of the analysis must be received by March 26, 2004. The draft environmental impact statement is expected August, 2004 and the final environmental impact statement is expected November 2004.

ADDRESSES: Send written comments and suggestions concerning this proposal to Sherri Schwenke, District Ranger, Three Rivers District, 255 West 11th, Kettle Falls, WA 99141.
