Thus, in order for the Commission to participate in negotiations, petitioners will have to provide the Commission with certain data concerning the dispute.

Needs and Uses: The Federal Communications Commission requests continued OMB clearance for an information collection requirement, implemented in a letter that was sent, following the FCC's Second E911 Coordination Initiative, to pertinent State officials who had been appointed to oversee their States' programs to implement emergency (E911) Phase II service. This is necessary for this voluntary reporting collection so that the Commission can correct serious inaccuracies and have up-to-date information to ensure the integrity of the Commission's database of Public Safety Answering Points (PSAPs) throughout the nation. The accurate compiling and maintaining of this database is an inherent part of the Commission's effort to achieve the expeditious implementation of E911 service across the nation and to ensure homeland security.

Federal Communications Commission.
