SUPPLEMENTARY INFORMATION:

I. Abstract

The National Aeronautics and Space Administration (NASA) plans to renew an ongoing collection designed to collect information needed to evaluate bids and proposals submitted to NASA for the award of contracts with a value greater than \$500,000 for goods and services. Solicitations for bids and proposals, and requirements for contract deliverables, are prepared in accordance with the OFPP Policy Act as amended by Pub. L. 96-83, the NASA Space Act, 42 U.S.C. *et seq.* As the need arises for goods and services, NASA follows the procedures set forth in parts 14 and 15 of the FAR for the issuance of Invitation for Bids (IFBs) and Request for Proposals (RFPs) before a contract can be awarded. Similarly, in bids and proposals voluntarily submitted in response to IFBs and RFPs, contractors must furnish all information required by the FAR, the NFS, and Agency needs. This solicited information is used by NASA project and procurement managers to determine the responsiveness of bids and proposals and come to a decision on which contractor can provide the greatest benefit to the Agency and, ultimately, who will be awarded a contract.
