**Self-Regulatory Organizations;  
National Securities Clearing  
Corporation; Notice of Filing of  
Proposed Rule Change to Amend the  
Procedure for Determining Intraday  
Mark-to-the-Market Payments**

March 2, 2004.

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”),<sup>1</sup> notice is hereby given that on May 20, 2003, the National Securities Clearing Corporation (“NSCC”) filed with the Securities and Exchange Commission (“Commission”) and on October 20, 2003, amended the proposed rule change described in items I, II, and III below, which items have been prepared primarily by NSCC. The Commission is publishing this notice to

solicit comments on the proposed rule change from interested parties.

**I. Self-Regulatory Organization’s  
Statement of the Terms of Substance of  
the Proposed Rule Change**

NSCC is proposing to amend Procedure XV to give NSCC more flexibility in determining the intraday mark-to-the-market amount it will collect from a member for unsettled positions.

**II. Self-Regulatory Organization’s  
Statement of the Purpose of, and  
Statutory Basis for, the Proposed Rule  
Change**

In its filing with the Commission, NSCC included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in item IV below. NSCC has prepared summaries, set forth in sections (A), (B), and (C) below, of the most significant aspects of these statements.<sup>2</sup>

*(A) Self-Regulatory Organization’s  
Statement of the Purpose of, and  
Statutory Basis for, the Proposed Rule  
Change*

NSCC Rule 15 (Financial Responsibility and Operational Capability) provides that NSCC may obtain such adequate assurances of a member’s financial responsibility and operational capability as NSCC may at any time or from time to time deem necessary or advisable in order to protect NSCC, Settling Members, Municipal Comparison Only Members, Fund Members, Insurance Carrier Members, creditors, or investors.

Currently, Procedure XV (Clearing Fund Formula and Other Matters) describes the criteria for determining which securities meet classifications for additional mark-to-the-market payments for high risk/volatile issues and provides specific formulas that may be used to determine additional deposit amounts. Generally, NSCC assesses on an intraday basis an additional mark-to-the-market charge to a member when the member maintains a position in a security where the intraday exposure to NSCC is in excess of 10% of the member’s excess net capital. In addition, with respect to illiquid unsettled positions, NSCC may request additional collateral if the member’s net unsettled position in any one security is greater than 25% of the security’s average daily volume.

<sup>2</sup> The Commission has modified the text of the summaries prepared by NSCC.

<sup>1</sup> 15 U.S.C. 78s(b)(1).

NSCC is replacing the formulas currently reflected in its procedures with a more generalized provision to give NSCC the flexibility to determine what amount, if any, should be collected based on conditions that exist at that time.<sup>3</sup> In addition, the reference to the authority which permits this charge is being corrected to reflect NSCC Rule 15, section 4.

NSCC believes that the proposed rule change is consistent with the requirements of section 17A of the Act<sup>4</sup> and the rules and regulations thereunder applicable to NSCC because it will assure the safeguarding of funds and securities for which it is responsible by permitting NSCC to more appropriately collect collateral to cover its exposure from its members' unsettled positions.

*(B) Self-Regulatory Organization's Statement on Burden on Competition*

NSCC does not believe that the proposed rule change will have an impact on or impose a burden on competition.

*(C) Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants or Others*

No written comments relating to the proposed rule change have been solicited or received. NSCC will notify the Commission of any written comments received by NSCC.

**III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action**

Within 35 days of the date of publication of this notice in the **Federal Register** or within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the self-regulatory organization consents, the Commission will:

(A) By order approve such proposed rule change or

(B) Institute proceedings to determine whether the proposed rule change should be disapproved.

**IV. Solicitation of Comments**

Interested persons are invited to submit written data, views, and

<sup>3</sup> Additional factors that NSCC may use in determining intraday mark-to-the-market requirements include but are not limited to (1) percent of total security float, (2) average daily security volume, (3) position size (quantity and value), (4) portfolio concentration, and (5) industry/sector concentration.

**[Release No. 34-49352; File No. SR-NSCC-2003-03]**

**Self-Regulatory Organizations; The National Securities Clearing Corporation; Order Granting Approval of a Proposed Rule Change Relating to Execution Time for CNS Buy-Ins**

March 2, 2004.

On March 24, 2003, the National Securities Clearing Corporation ("NSCC") filed with the Securities and Exchange Commission ("Commission") and on March 14, 2003, amended

proposed rule change File No. SR-NSCC-2003-03 pursuant to section 19(b)(1) of the Securities Exchange Act of 1934 ("Act").<sup>1</sup> Notice of the proposed rule change was published in the **Federal Register** on January 16, 2004.<sup>2</sup> No comment letters were received. For the reasons discussed below, the Commission is granting approval of the proposed rule change.

**I. Description**

The purpose of the proposed rule change is to modify NSCC Procedures VII.J, "CNS Accounting Operation, Recording of CNS Buy-Ins" and X.A.1, "Execution of Buy-Ins, CNS System, Equity Securities and Corporate Debt Securities" with regard to the execution time of CNS buy-ins. Except with respect to securities subject to a voluntary corporate reorganization, a member having a long CNS position at the end of any day may submit to NSCC a notice of intention to buy-in ("buy-in notice") specifying a quantity of securities (not exceeding such long CNS positions) the member intends to buy-in ("buy-in position"). The day the CNS buy-in notice is submitted is referred to as N, and N+1 and N+2 refer to the succeeding days. Each day commences in the evening and includes both an evening and daytime allocation. The CNS buy-in position is given high priority for allocation through N+2.

Pursuant to NSCC Procedure VII, if a CNS buy-in position is not satisfied at the end of the day cycle on N+2, the CNS buy-in may be executed. In effect, members have from the completion of the day cycle on N+2 to the close of the markets to execute the CNS buy-in. Operationally, as the day cycle generally completes at 3:10 p.m. eastern standard time ("e.s.t."), participants face a narrow timeframe within which they may execute CNS buy-ins. In the event that settlement and recycle times are extended or delayed, that window of time is further reduced.

At the request of participants and after consultation with the Securities Industry Association Buy-In Committee, NSCC is modifying Procedures VII and X to permit the execution of CNS buy-ins beginning at 3 p.m. e.s.t. or at such time as established by NSCC because of market events (e.g., days the marketplaces close early). NSCC will advise participants of any earlier execution time through an important notice five business days in advance. The change in time is not a requirement for executions of buy-ins but is to give
