Notice of a Computer Matching Program Between the Department of Veterans Affairs and the Department of Defense for Reserve Pay Reconciliation

A. Participating Agencies:

Participants in this computer matching program are the Department of Veterans Affairs (VA) and the Defense Manpower Data Center (DMDC) of the Department of Defense (DoD). The VA is the source agency, *i.e.*, the activity disclosing the records for the purpose of the match. The DMDC is the specific recipient activity or matching agency, *i.e.*, the agency that actually performs the computer matching.

B. Purpose of the Match: The purpose of this agreement is to verify eligibility for DoD/USCG members of the Reserve forces who receive VA disability compensation or pension to also receive military pay and allowances when performing reserve duty.

C. Authority for Conducting the Match: The legal authority for conducting the matching program is 38 U.S.C. 5304(c) which provides that VA disability compensation or pension based upon his or her previous military service shall not be paid to a person for any period for which such person receives active service pay. 10 U.S.C. 12316 further provides that a reservist who is entitled to disability payments due to his or her earlier military service and who performs duty for which he or she is entitled to DoD/USCG compensation may elect to receive for that duty either the disability payments or, if he or she waives such payments, the DoD/USCG compensation for the duty performed.

D. Records to be Matched: The systems of records maintained by the respective agencies under the Privacy Act of 1974, as amended, 5 U.S.C. 552a, from which records will be disclosed for the purpose of this computer match are as follows:

1. The DMDC will use the system of records identified as S322.10 DMDC, entitled "Defense Manpower Data Center Data Base," last published December 26, 2002, at 67 FR 78781.

2. The VA will use the system of records identified as "VA

Compensation, Pension and Education and Rehabilitation Records—VA (58 VA 21/22)," first published at 41 **Federal Register** 9294 (Mar. 3, 1976), and last amended at 66 FR 47727 (September 13, 2001), with other amendments as cited therein.

E. Description of Computer Matching Program: Annually, VA will submit to DMDC a electronic file of all VA pension and disability compensation beneficiaries as of the end of September. Upon receipt of the electronic file, DMDC will match this file by SSN with a file of days drilled as submitted to DMDC by the military services and the USCG. Upon a SSN match, or a "hit," of both files, DMDC will provide VA the individual's name and other identifying data, to include the number of days drilled, by Fiscal Year, for each matched record.

The hits will be furnished to VA which will be responsible for verifying and determining that the data in the DMDC electronic file is consistent with the VA files and for resolving any discrepancies or inconsistencies on an individual basis. VA will initiate actions to obtain an election by the individual of which pay he or she wishes to receive and will be responsible for making final determinations as to positive identification, eligibility for, or amounts of pension or disability compensation benefits, adjustments thereto, or any recovery of overpayments, or such other action as authorized by law.

The annual electronic file provided by the VA will contain information on approximately 2.5 million pension and disability compensation recipients.

The DMDC computer database file contains information on approximately 832,000 DoD and 8,000 USCG reservists who received pay and allowances for performing authorized duty. VA will furnish DMDC the name and SSN of all VA pension and disability compensation recipients and DMDC will supply VA the name, SSN, date of birth, and the number of days drilled by fiscal year of each reservist who is identified as a result of the match.

F. Inclusive Dates of the Matching Program: This computer matching program is subject to public comment and review by Congress and the Office of Management and Budget. If the mandatory 30 day period for comment has expired and no comments are received and if no objections are raised by either Congress or the Office of Management and Budget within 40 days of being notified of the proposed match, the computer matching program becomes effective and the respective agencies may begin the exchange at a mutually agreeable time on an annual

basis. By agreement between VA and DMDC, the matching program will be in effect for 18 months with an option to renew for 12 additional months unless one of the parties to the agreement advises the other by written request to terminate or modify the agreement.

A. Participating Agencies:

Participants in this computer matching program are the Office of Personnel Management (OPM) and the Defense Manpower Data Center (DMDC) of the Department of Defense (DoD). The Office of Personnel Management is the source agency, *i.e.*, the activity disclosing the records for the purpose of the match. The DMDC is the specific recipient activity or matching agency,

i.e., the agency that actually performs the computer matching.

B. Purpose of the Match: The purpose of this agreement is to establish the conditions for a computer matching program between the OPM as the source agency and the DMDC as the recipient agency. The goal of the match is to identify individuals who are improperly receiving credit for military service in their civil service annuities or annuities based on the "guaranteed minimum" disability formula. This match will identify and/or prevent erroneous payments under the CSRA and FERSA Pay system.

C. Authority for conducting the Match: It is OPM's responsibility to monitor retirement and survivor benefits paid under 5 U.S.C. 8331 (CSRA), *et seq.* and 5 U.S.C. 8401 (FERSA), *et seq.* Specifically, 5 U.S.C. 8332 is the legal authority for CSRA and 5 U.S.C. 8411 is the legal authority for FERSA for determining whether military service may be credited for civil service retirement purposes.

D. Records To Be Matched: The systems of records described below contain an appropriate routine use provisions which permits disclosure of information between agencies.

The OPM will use the system of records identified as OPM/Central-1, "Civil Service Retirement and Insurance Records," last published at 64 FR 54930, (October 8, 1999), as amended at 65 FR 25775, May 3, 2000.

Upon receipt of the electronic file, the DMDC will perform a computer match using all nine digits of the SSN's in the OPM file against the DMDC computer database on military retired pay data. The data will be matched to identify those individuals who are being paid in apparent violation of law, *i.e.*, the civil service annuity is based on military service other than that which was awarded (1) on account of a service connected disability incurred in combat with an enemy of the United States; (2) on account of a service connected disability caused by an instrumentality of war and incurred in the line of duty during a period war; or (3) based on non-regular (*i.e.*, reserve) service under the provisions of 10 U.S.C. 12731-12739.

The data elements provided by the OPM for the match file will contain the names, addresses, social security number, date of birth, OPM retirement claim number, OPM provision retired codes, and annuity payment and service data of individuals currently receiving benefits from OPM. The OPM database contains approximately 1.7 million records of CSRA and FERSA retirees.

The data elements provided by DMDC to OPM are name, address, social security number, branch of service, date of birth, and date of retirement. The DMDC database contains approximately 2.0 million records of retired military personnel.

F. Inclusive Dates of the Matching Program: This computer matching program is subject to public comment and review by Congress and the Office of Management and Budget. If the mandatory 30 day period for comment has expired and no comments are received and if no objections are raised by either Congress or the Office of Management and Budget within 40 days of being notified of the proposed match, the computer matching program becomes effective and the respective agencies may begin the exchange at a mutually agreeable time on a semi-annual basis. By agreement between VA and DMDC, the matching program will be in effect for 18 months with an option to renew for 12 additional months unless one of the parties to the agreement advises the other by written request to terminate or modify the agreement.
