Full Text of Announcement

I. Funding Opportunity Description

Purpose of Program: This program provides technical assistance and information that (1) support States and local entities in building capacity to improve early intervention, educational, and transitional services and results for children with disabilities and their families; and (2) address goals and priorities for changing State systems that provide early intervention, educational, and transitional services

for children with disabilities and their families.

Priority: In accordance with 34 CFR 75.105(b)(2)(iv), this priority is from allowable activities specified in the statute (see sections 661(e)(2) and 685 of the Individuals with Disabilities Education Act (IDEA)).

Absolute Priority: For FY 2004 this priority is an absolute priority. Under 34 CFR 75.105(c)(3), we consider only applications that meet this priority.

Background: Since 1969, the Office of Special Education Programs (OSEP) has supported Regional Resource Centers (RRCs) to provide technical assistance and support to SEAs and more recently to Part C Lead Agencies (LA). Although SEAs and LAs are the RRC's primary customers, RRCs may provide technical assistance to local agencies and LEAs at the request of the SEA or LA. Activities have included staff training, policy analysis, product development, information dissemination, needs assessments, improvement planning, and supporting and facilitating State systems change efforts.

Over the years, the relationship between the RRCs and the States has evolved from RRCs passively responding to State-identified needs, in isolation from OSEP initiatives, to a relationship characterized by the proactive identification of issues and trends in need of technical support and conducted within the context of OSEP and other Department of Education initiatives (e.g., Continuous Improvement Monitoring Process (CIMP), No Child Left Behind Act of 2001 (NCLB)) and policy. This revised relationship has been the product of the development of a more collaborative association with OSEP.

Through their relationship with SEAs and LAs, the RRCs have become a critical component for dissemination of, and support to, OSEP's expanded accountability strategy. This support has transcended the RRCs' traditional capacity as technical assistance providers to a role of brokering technical assistance between SEAs and LAs and OSEP-supported technical assistance and research centers.

Priority: The RRC's activities must include, but are not limited to, the following:

(a) Supporting efforts of sustainable systemic change through working with SEAs and LAs on better outcomes for infants, toddlers, and children with disabilities and their families by providing technical assistance to:

(1) Support and enhance States' performance measurement, data analysis, improvement planning, and system evaluation skills.
