

Agency: Corporation for National and Community Service.

Title: Spirit of Service Awards Nomination Guidelines and Application—Learn and Serve America.

OMB Number: None.

Agency Number: None.

Affected Public: Individuals or households, not-for-profit institutions, and State, local or tribal government.

Total Respondents: 200.

Frequency: One time.

Average Time Per Response: 3 hours.

Estimated Total Burden Hours: 600 hours.

Total Burden Cost (Capital/Startup): \$9,900.

Total Burden Cost (Operating/Maintenance): \$0.

Description: The Spirit of Service Awards enable the Corporation to recognize exceptional organizations and program participants from each of the Corporation's three programs, Senior Corps, AmeriCorps, and Learn and Serve America. For 2004, the Corporation plans to establish specific nomination guidelines for each of the programs and develop a formal nomination process, which involves voluntary information collection from non-government individuals.

Prior to 2003, AmeriCorps recognized its outstanding members annually through the All-AmeriCorps Awards, which were initiated in 1999 and presented by President Clinton as part of the 5th anniversary celebration of the program. Senior Corps had recognized its outstanding projects and volunteers at its own national conference, and Learn and Serve America recognized exemplary programs and participants through its Leaders School selection and the President's Student Service Awards.

The Corporation hereby submits its request for emergency review and approval by OMB of the Spirit of Service Awards nomination for its three programs. The goal is to implement the nomination process in time to present the Spirit of Service Award winners at the Corporation's 2004 National Conference on Community Volunteering and National Service, June 6–8, 2004, in Kansas City, Missouri. The Corporation has requested emergency status for six (6) months to enable it to proceed with this year's awards process in a timely manner. Because the conference is scheduled to take place in June 2004, there was not enough time for an initial public comment period prior to submitting this request to OMB. However, if OMB approves this emergency request, the Corporation will issue another notice that will afford the public 60-days to provide its comments.

Dated: March 5, 2004.

Sandy Scott,

Acting Director, Office of Public Affairs.

Office of the Secretary

Proposed Collection; Comment Request

AGENCY: Department of Defense, Defense Security Service.

ACTION: The Department of Defense has submitted to OMB for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35).

DATES: Consideration will be given to all comments received by 5/15/2004.

ADDRESSES: Written comments and recommendations on the proposed information collection should be sent to the Defense Security Service.

FOR FURTHER INFORMATION CONTACT: To request more information on this proposed information collection or to obtain a copy of the proposal and associated collection instruments, please write to the above address, or call the Defense Security Service at (703) 325–6182.

Title, Associated Forms, and OMB Number: Defense Security Service FL 14–a, Medical Information Questionnaire, July 2003, OMB No. 0704–0206

Needs and Uses: The specific objective of a personnel security investigation is to elicit information concerning the loyalty, character, and reliability of the individual being investigated so that the DoD adjudicator may determine if it is clearly consistent with the interests of national security to grant the individual access to classified information (or to continue such access), or to place the individual (or retain them) in a sensitive national security position. Adjudicative determinations are made in accordance with DoD 5200.2–R, “DoD Personnel Security Program,” which requires the DoD adjudicator to consider both potentially disqualifying information and mitigating information when there is an indication that the individual has a history of mental or nervous disorder; use or abuse of prescribed or illegal drugs, such as marijuana, narcotics or barbiturates; or abuse or excessive use of alcohol. Much of the appropriate information which the adjudicator must

consider can only be obtained from physicians who have treated the individual. Obtaining such information provides the adjudicator with a complex picture of the individual. Without it, the adjudicator may not be able to make a determination as to whether or not the individual should be granted access to classified information.

Affected Public: Individuals, business, or households.

Annual Burden Respondents: 11,700.

Number of Burden Hours: 7,020.

Number of Respondents: 11,700.

Responses Per Respondent: 1.

Average Burden Per Response: 0.6 hours.

Frequency: On occasion.

SUPPLEMENTARY INFORMATION:

Summary of Information Collection

See “Needs and Uses”.

Dated: March 4, 2004.

L.M. Bynum,

Meeting of the Advisory Council on Dependents' Education

AGENCY: Department of Defense Education Activity (DoDEA), DoD.

ACTION: Open meeting notice.

SUMMARY: Pursuant to the Federal Advisory Committee Act, appendix 2 of title 5, United States Code, Public Law 92–463, notice is hereby given that a meeting of the Advisory Council on Dependents' Education (ACDE) is scheduled to be held on April 30, 2004, from 8 a.m. to 5 p.m. The meeting will be held at the New Sanno Hotel, 4–12–20 Minami-Azabu, Minato-ku, Tokyo 106–00047, Japan. The purpose of the ACDE is to recommend to the Director, DoDEA, general policies for the operation of the Department of Defense Dependents Schools (DoDDS); to provide the Director with information about effective educational programs and practices that should be considered by DoDDS; and to perform other tasks as may be required by the Secretary of Defense. The meeting emphases will be the current operational qualities of schools and the institutionalized school improvement processes, as well as other educational matters. For further information contact Mr. Jim Jarrard, at 703–588–3121 or at jjarrard@hq.ododedea.edu.

Dated: March 4, 2004.

L.M. Bynum,

*Alternate OSD Federal Register Liaison
Officer, Department of Defense.*

BILLING CODE 5001-06-M

DEPARTMENT OF DEFENSE

Office of the Secretary

Defense Science Board

AGENCY: Department of Defense.

ACTION: Notice of Advisory committee meeting.

SUMMARY: The Defense Science Board Task Force on High Performance Microchip supply will meet in closed session on April 13-14, 2004; May 20-21, 2004; June 23-24, 2004; and July 29-30, 2004, at Strategic Analysis Inc., 3601 Wilson Boulevard, Arlington, VA. The Task Force will assess the implications of the movement of manufacturing capability and design of high performance microchips and will address the Department of Defense's (DoD) ability to obtain radiation hardened microchips, the ability to produce limited quantities of special purpose microchips in a timely and secure manner, and the ability to produce microchips in a timely manner to meet emerging needs.

The mission of the Defense Science Board is to advise the Secretary of Defense and the Under Secretary of Defense for Acquisition, Technology & Logistics on scientific and technical matters as they affect the perceived needs of the Department of Defense. Specifically, the Task Force will look at root causes associated with the migration of the manufacturing capability of high performance semiconductors; policies or technology investments that DoD, either alone or in conjunction with other U.S. government agencies, can pursue which will influence the migration of manufacturing to foreign shores; alternatives to the creation of trusted foundries based on U.S. territory; whether testing is a viable alternative and if so, the level of assurance testing will provide to guarantee that only intended functions are built into the microchip; alternative manufacturing techniques which may allow overseas fabrication of the microchips and subsequent interconnect development in the U.S.; and future technologies which the U.S. may invest in to replace the current microchip technology.

In accordance with section 10(d) of the Federal Advisory Committee Act, Pub. L. 92-463, as amended (5 U.S.C.

app. II), it has been determined that these Defense Science Board Task Force meetings concern matters listed in 5 U.S.C. 552b(c)(1) and that, accordingly, the meetings will be closed to the public.

Dated: March 4, 2004.

L.M. Bynum,

*Alternate OSD Federal Register Liaison
Officer, Department of Defense.*

BILLING CODE 5001-06-M

DEPARTMENT OF DEFENSE

Office of the Secretary

Defense Science Board

AGENCY: Department of Defense.

ACTION: Notice of advisory committee meetings.

SUMMARY: The Defense Science Board Task Force on Corrosion Control will meet in closed sessions on March 15-16, 2004, at Strategic Analysis Inc., 3601 Wilson Boulevard, Arlington, VA. The Task Force will address corrosion control throughout a combat system's life cycle: Design, construction, operation and maintenance.

The mission of the Defense Science Board is to advise the Secretary of Defense and the Under Secretary of Defense for Acquisition, Technology & Logistics on scientific and technical matters as they affect the perceived needs of the Department of Defense. At this meeting, the Task Force will assess current on-going corrosion control efforts across the Department of Defense with particular attention to: Duplication of research efforts; application of current and future technology which currently exists in one area to other areas (*i.e.*, submarine application which might translate to aircraft applications); the current state of operator and maintenance personnel training with regards to corrosion control and prevention; the current state of maintenance processes with regards to corrosion control and prevention; the incorporation of corrosion control and maintainability in current acquisition programs (during the design and manufacturing stages); the identity of unique environments important to National Security but with little commercial applications (*e.g.*, nuclear weapons). The Task Force will conduct an analysis of the findings generated and determine which areas, if adequate resources were applied, would provide the most significant advances in combat readiness. In addition, the Task Force will assess best commercial practices

and determine their applicability to DOD needs.

In accordance with section 10(d) of the Federal Advisory Committee Act, Pub. L. 92-463, as amended (5 U.S.C. app. II), it has been determined that this Defense Science Board Task Force meeting concerns matters listed in 5 U.S.C. 552b(c)(1) and that, accordingly, the meeting will be closed to the public.

Due to scheduling conflicts, there is insufficient time to provide timely notice required by section 10(a)(2) of the Federal Advisory Committee Act and subsection 101-6.1015(b) of the GSA Final Rule on Federal Advisory Committee Management, 41 CFR part 101-6, which further requires publication at least 15 calendar days prior to the meeting of this Task Force.

Dated: March 3, 2004.

L.M. Bynum,

*Alternate OSD Federal Register Liaison
Officer, Department of Defense.*

BILLING CODE 5001-06-M

DEPARTMENT OF DEFENSE

Office of the Secretary

Defense Science Board

AGENCY: Department of Defense.

ACTION: Notice of advisory committee meeting.

SUMMARY: The Defense Science Board Task Force on Contributions of Space Based Radar to Missile Defense will meet in closed session on March 19, 2004, at the Institute for Defense Analyses, 1801 N. Beauregard Street, Alexandria, VA. This Task Force will assess potential contributions of Space Based Radar (SBR) to missile defense.

The mission of the Defense Science Board is to advise the Secretary of Defense and the Under Secretary of Defense for Acquisition, Technology & Logistics on scientific and technical matters as they affect the perceived needs of the Department of Defense. This Task Force will: Assess the impact of adding a missile defense mission on the ability of SBR satellites to conduct their primary missions; assess how different SBR architectures and technical approaches might affect the ability of the satellites to achieve their primary missions and to contribute to missile defense; assess the value of potential SBR capabilities in the context of the family of sensors being developed by the Missile Defense Agency; and recommend any future actions that might be desirable related to SBR contributions to missile defense.
