

North in Farr West, Reconstruction, Widening and Interchange Improvements, Funding and U.S. Army COE Section 404 Permit, Weber County, UT.

Summary: While EPA has no objections to the proposed project, EPA did request clarification regarding the impacts to perennial streams in the Weber River watershed as well as on the impacts to air quality.

ERP No. D-IBW-C39039-00 Rating LO, Rio Grande Canalization Project (RGCP), Long-Term River Management Alternatives Practices, Implementation, from below Percha Dam in Sierra County, NM to American Dam in El Paso, TX.

Summary: EPA had no objections to the proposed action.

ERP No. D-NOA-E90018-GA Rating LO, Gray's Reef National Marine Sanctuary Draft Management Plan (DMP), Address Current Resource Conditions and Compatible Multiple Uses, Located 17.5 Nautical miles off Sapelo Island, GA.

Summary: EPA supports the National Ocean Service Preferred Alternatives on anchoring prohibitions and fishing gear restrictions to rod, reel and handline to protect the resources in the Gray's Reef National Marine Sanctuary.

ERP No. D-NPS-C65004-NY Rating LO, Saratoga National Historical Park General Management Plan, Implementation, Hudson River Valley, Towns of Stillwater and Saratoga, Saratoga County, NY.

Summary: EPA has no objections to the proposed management plan.

ERP No. D-NRC-F06023-IL Rating EC2, Dresden Nuclear Power Station, Unit 2 and 3, Supplement 17, NUREG 1437, Renewal of a Nuclear Power Plan Operating License, Grundy County, IL.

Summary: EPA has environmental concerns regarding the information provided on the radiological impacts, cooling water system impacts on aquatic organisms, thermal impacts, risk estimates and on-site storage.

Final EISs

ERP No. F-COE-C39016-NJ Union Beach Community Project, Provision of Hurricane and Storm Damage Reduction to Residential, Commercial and Recreational Resources, Located along the Raritan Bay and Sandy Hook Bay Shoreline, Monmouth County, NJ.

Summary: EPA raised environmental concerns over the adequacy of the proposed wetlands mitigation plan and requested that appropriate information on mitigation be provided to EPA prior to the issuance of the Record of Decision (ROD). In addition, a Clean Air Act General Conformity Determination

needs to be prepared prior to the issuance of the ROD.

Dated: March 9, 2004.

FEDERAL COMMUNICATIONS COMMISSION

Notice of Public Information Collection(s) Being Reviewed by the Federal Communications Commission, Comments Requested

March 3, 2004.

SUMMARY: The Federal Communications Commission, as part of its continuing effort to reduce paperwork burden invites the general public and other Federal agencies to take this opportunity to comment on the following information collection(s), as required by the Paperwork Reduction Act (PRA) of 1995, Public Law 104-13. An agency may not conduct or sponsor a collection of information unless it

displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act that does not display a valid control number. Comments are requested concerning (a) whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's burden estimate; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology.

DATES: Written Paperwork Reduction Act (PRA) comments should be submitted on or before May 11, 2004. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all Paperwork Reduction Act (PRA) comments to Les Smith, Federal Communications Commission, Room 1-A804, 445 12th Street, SW., Washington, DC 20554 or via the Internet to Lesli.Smith@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information or copies of the information collection(s), contact Les Smith at (202) 418-0217 or via the Internet at Leslie.Smith@fcc.gov.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060-1049.

Title: Digital Broadcast Content Protection, MB Docket No. 02-230.

Type of Review: Extension of currently approved collection.

Form Number: N/A.

Respondents: Business or other for-profit entities.

Number of Respondents: 1,520.

Estimated Hours Per Response: 2 to 40 hours.

Frequency of Response: On occasion reporting requirements.

Total Annual Burden: 3,800 hours.

Total Annual Cost: None.

Needs and Uses: On November 4, 2003, the FCC released the Report and Order and Further Notice of Proposed Rulemaking ("Order"), *In the Matter of Digital Broadcast Content Protection*, MB Docket No. 02-230, FCC 03-273. The Order established a redistribution control content protection system for digital broadcast television in order to prevent the widespread indiscriminate redistribution of high value digital

broadcast content and to assure the continued availability of such content to broadcast outlets. The Order adopted the use of an ATSC flag, which can be embedded in DTV content to signal to consumer electronics devices to protect such content from indiscriminate redistribution. In order for this protection system to work, demodulators integrated within, or produced for use in, DTV reception devices, including PC and IT products, ("Covered Demodular Products") must recognize and give effect to the ATSC flag pursuant to certain compliance and robustness rules. In particular, content that is marked within the ATSC flag must be handled in a protected fashion through the use of digital content protection and recording technologies. In order to ensure that digital content is being adequately protected, such technologies must be reviewed and approved for use. The Order established interim procedures by which proponents of digital content protection and recording technologies can certify to the Commission that such technologies and appropriate for use in Covered Demodulator Products, subject to public notice and comment.

To facilitate enforcement and compliance, the Order adopted a written commitment regime whereby manufacturers or importers of ATSC demodulators obtain from buyers of such products a written commitment that they will incorporate such demodulators into compliant and robust devices or sell or distribute them to third parties that have also made such written commitment. The Order also adopted a written commitment regime to ensure that manufacturers or importers of Peripheral TSP Products (products where the demodulator and transport stream processor are physically separate) will abide by the Demodulator Products compliance and robustness rules. The interim approval process for digital content protection and recording technologies and the written commitment regime are essential components of the Commission's redistribution control content protection system for digital broadcast television. These information collections ensure objectivity and transparency as a part of this process.

Federal Communications Commission.

Marlene H. Dortch,

Secretary.
