BILLING CODE 4160-01-S

MEMORANDUM OF UNDERSTANDING
BETWEEN
THE FOOD AND DRUG ADMINISTRATION
U.S. DEPARTMENT OF HEALTH AND HUMAN SERVICES
AND
THE ADMINISTRATION ON AGING
U.S. DEPARTMENT OF HEALTH AND HUMAN SERVICES

I. Purpose and Scope

This memorandum of understanding sets up the terms of collaboration between the Food and Drug Administration (FDA) and the Administration on Aging (AoA) to support education and information initiatives for older Hispanic Americans (60 years and over). FDA and AoA are entering this agreement to address issues affecting older Hispanic Americans within the extent of each organization's jurisdictions. FDA and AoA agree to work together to promote the "One Department" theme, improve health and health education outreach through new and continuing Departmental and organizationally specific initiatives.

II. Background

Food and Drug Administration

FDA is one of the nation's oldest consumer protection agencies. FDA's mission is to promote and protect the public health by helping safe and effective products reach the market in a timely way, and monitoring products for continued safety after they are in use. FDA regulates everything from the most common food ingredients to complex medical and surgical devices, lifesaving drugs, and radiation-emitting consumer and medical products. To carry out its mission, FDA employs some 10,000 staff that work in locations around the country. The network of 167 field offices is the first point of contact for the public and regulated manufacturers. The employees in these offices focus on inspection, surveillance, laboratory work, and public and industry education.

Administration on Aging

AoA provides financial support to develop comprehensive and coordinated home and community-based care for older people and caregivers. AOA's mission is to promote the dignity and independence of older people, and to help society prepare for an aging population. Created in 1965 to carry out the Older Americans Act (OAA), AoA is a part of a federal, state, tribal and local partnership called the national Network on Aging. This network serves about 7 million older people and over 250,000 of their caregivers each year. The network consists of 56 State Agencies on Aging, 655 Area Agencies on Aging; 244 Tribal and Native organizations; two organizations that serve Native Hawaiians; 29,000 local service providers; and over 500,000 volunteers.

These organizations provide support and services to older individuals and their families in urban, suburban, and rural areas throughout the United States.

III. Substance of Agreement

FDA and AoA will work together to:

- Identify issues that affect older Hispanic Americans;
- Share perspectives and provide technical support on health care and educational needs of Older Hispanic Americans, and how policies affect older Americans.
- Cultivate and expand the partnerships with national Hispanic organizations, Hispanic electronic and print media, and other private organizations to support education and outreach to Hispanic and Latino communities.
- Develop and distribute culturally appropriate educational materials and caregivers tool kits on issues such as the safe use of medications and medication management, nutrition and healthy eating, drug interactions, adverse event reporting, antibiotic overuse, dietary supplements and health fraud.

IV. Names of Participating Parties and Liaisons:

Formal liaison is set up through appointing Agency Liaisons for FDA and AoA. The Liaisons will foster information exchange on the scope of the Agreement. Other roles of the Agency Liaisons may include working with interagency task groups to identify support and outreach opportunities.
