Executive Order 12866

This notice of proposed priorities, requirements and selection criteria has been reviewed in accordance with Executive Order 12866. Under the terms of the order, we have assessed the potential costs and benefits of this regulatory action.

The potential costs associated with the notice of proposed priorities, requirements and selection criteria are those resulting from statutory requirements and those we have determined as necessary for administering this program effectively and efficiently.

In assessing the potential costs and benefits—both quantitative and qualitative—of this notice of proposed priorities, requirements and selection criteria, we have determined that the benefits of the proposed priorities, requirements and selection criteria justify the costs.

Summary of potential costs and benefits: The potential cost associated with these proposed priorities, requirements and selection criteria is minimal while the benefits are significant. Grantees may anticipate costs related to completing the application process in terms of staff time, copying, and mailing or delivery. The use of E-Application technology may significantly reduce mailing and copying costs.

The primary benefit of these proposed priorities, requirements and selection criteria is that grantees can support school-based mentoring programs that

address the academic and social needs of at-risk youth.

Full Text of Announcement

I. Funding Opportunity Description

Purpose of Program: To: (1) Improve results for children with disabilities by promoting the development, demonstration, and use of technology; (2) support educational media activities designed to be of educational value to children with disabilities; and (3) provide support for some captioning, video description, and cultural activities.

Priority: In accordance with 34 CFR 75.105(b)(2)(iv), this priority is from allowable activities specified in the statute (*see* sections 661(e)(2) and 687 of the Individuals with Disabilities Education Act (IDEA)).

Absolute Priority: For FY 2004 this priority is an absolute priority. Under 34 CFR 75.105(c)(3), we consider only applications that meet this priority.

The purpose of this priority is to support projects that—

(a) Develop or conduct research on a technology-based approach for achieving one or more of the following purposes for early intervention, or preschool, elementary, middle school, or high school students with disabilities: (1) Improving the results of education or early intervention; (2) improving access to and participation in the general curriculum, or developmentally appropriate activities for preschool children; and (3) improving accountability and participation in statewide assessment and accountability systems. The technology-based approach must be an innovative combination of a new technology and additional materials and methodologies that enable the technology to improve educational or early intervention results for children with disabilities;

(b) Present a justification on the basis of scientifically rigorous research or theory that supports the effectiveness of the technology-based approach for achieving one or more of the purposes presented in paragraph (a);

(c) Clearly identify and conduct work in *ONE* of the following phases:

(1) *Phase 1—Development*: Projects funded under Phase 1 must develop and refine a technology-based approach, and test its feasibility for use with children with disabilities. Activities may include development, adaptation, and refinement of technology, curriculum materials, or instructional methodologies. Activities must include formative evaluation. The primary product of Phase 1 should be a promising technology-based approach that is suitable for field-based evaluation of effectiveness in improving results for children with disabilities.

(2) *Phase 2—Research on Effectiveness*: Projects funded under Phase 2 must select a promising technology-based approach that has been developed and tested in a manner consistent with Phase 1, and subject the approach to rigorous field-based research and evaluation to determine effectiveness and feasibility in educational or early intervention settings. Approaches studied in Phase 2 may have been developed with previous funding under this priority or with funding from other sources. Products of Phase 2 include a further refinement and description of the technology-based approach, and sound evidence that, in a defined range of real world contexts, the approach can be effective in achieving one or more of the purposes presented in paragraph (a) of this priority.

(3) *Phase 3—Research on Implementation*: Projects funded under

Phase 3 must select a technology-based approach that has been evaluated for effectiveness and feasibility in a manner consistent with Phase 2. Projects must study the implementation of the approach in multiple, complex settings to acquire an improved understanding of the range of contexts in which the approach can be used effectively, and the factors that determine the effectiveness and sustainability of the approach in this range of contexts.

Approaches studied in Phase 3 may have been developed, tested, researched, and evaluated with previous funding under this priority or with funding from other sources. Factors to be studied in Phase 3 include factors related to the technology, materials, and methodologies that constitute the technology-based approach. Also to be studied in Phase 3 are contextual factors associated with students, teacher attitudes and skills, physical setting, curricular and instructional or early intervention approaches, resources, professional development, policy supports, etc.

Phases 2 and 3 can be contrasted as follows: Phase 2 studies the effectiveness of the approach, while Phase 3 studies the effectiveness the approach is likely to have in sustained use in a range of typical educational settings. The primary product of Phase 3 must be a set of research findings that provide evidence of improved results for children with disabilities and that can be used to guide dissemination and utilization of the technology-based approach;

(d) In addition to the annual two-day Project Directors' meeting in Washington, DC mentioned in section III. Eligibility Information, 3. *Other: General Requirements* elsewhere in this notice, budget for another annual trip to Washington, DC to collaborate with the Federal project officer and the other projects funded under this priority, and to share information and discuss findings and methods of dissemination; and

(e) Prepare products from the project in formats that are useful for specific audiences as appropriate, including parents, administrators, teachers, early intervention personnel, related services personnel, researchers, and individuals with disabilities.

Within the absolute priority, we intend to fund at least two projects focusing on technology-based approaches for children with disabilities, ages birth to age 3.

Also, within this priority, we intend to fund at least two projects for which the project director or principal investigator is in the initial phase of his

or her career. For purposes of this priority, the initial phase of an individual's career is considered to be the first three years after completing a doctoral program and graduating (*i.e.*, for FY 2004 awards, projects may support individuals who completed a doctoral program and graduated no earlier than the 2000–2001 academic year). To qualify for this consideration, the applicant must explicitly state and document that the project director or principal investigator is in the initial phase of his or her career. At least 50 percent of the initial career researcher's time must be devoted to the project.

Waiver of Proposed Rulemaking: Under the Administrative Procedure Act (5 U.S.C. 553), the Department generally offers interested parties the opportunity to comment on proposed priorities. However, section 661(e)(2) of IDEA makes the public comment requirements inapplicable to the priority in this notice.

Program Authority: 20 U.S.C. 1487.

Applicable Regulations: The Education Department General Administrative Regulations (EDGAR) in 34 CFR parts 74, 75, 77, 79, 80, 81, 82, 84, 85, 86, 97, 98, and 99.

Note: The regulations in 34 CFR part 79 apply to all applicants except federally recognized Indian tribes.

Note: The regulations in 34 CFR part 86 apply to institutions of higher education only.

Government-Wide Grants.gov Project for Electronic Submission of Applications

We have been accepting applications electronically through the Department's e-Application system since FY 2000.
