Trunkline LNG Company, LLC; Notice of Filing

Take notice that on February 27, 2004, Trunkline LNG Company, LLC
First Street, NE., Washington, DC 20426, a motion to intervene in accordance
with the requirements of the
Commission’s rules of practice and
procedure (18 CFR 385.214 or 385.211)
and the regulations under the NGA (18
CFR 157.10). A person obtaining party
status will be placed on the service
list maintained by the Secretary of
the Commission and will receive copies
of all documents filed by the applicant
and by all other parties. A party must submit
14 copies of filings made with
the Commission and must mail a copy
to the applicant and to every other party
in the proceeding. Only parties to the
proceeding can ask for court review of
Commission orders in the proceeding.

However, a person does not have to
intervene in order to have comments
considered. The second way to
participate is by filing with the
Secretary of the Commission, as soon as
possible, an original and two copies of
comments in support of or in opposition
to this project. The Commission will
consider these comments in
determining the appropriate action to be
taken, but the filing of a comment alone
will not serve to make the filer a party
to the proceeding. The Commission’s
rules require that persons filing
comments in opposition to the project
provide copies of their protests only to
the party or parties directly involved in
the protest.

Persons who wish to comment only
on the environmental review of this
project should submit an original and
two copies of their comments to the
Commission (except for the mailing of
environmental documents issued by the
Commission) and will not receive copies of
all documents

The proposed expansion project is needed to provide additional
vaporization service and increased
sendout capability for Trunkline LNG’s
customer, BG LNG Services, LLC
(BGLS). The modification will not
change the level of Trunkline LNG
terminal’s storage capacity of 9.0 Bcf.
The sustained sendout capacity of the
terminal will be increased from 1.2 to
1.8 Bcf/d, with 2.1 Bcf/d peak sendout
capacity. BGLS will have 100% of the
terminal’s expanded capacity under a
long-term contract which terminates on

Any questions regarding the
application are to be directed to William
W. Grygar, Vice President of Rates and
Regulatory Affairs, 5444 Westheimer
