**Notice of Availability of the Preliminary Risk Assessment for Wood Preservatives Containing Arsenic and/or Chromium Reregistration Eligibility Decision**

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice of availability.

**SUMMARY:** This notice announces the availability of documents that were developed as part of EPA's six-phase public participation reregistration process for wood preservatives containing arsenic and/or chromium (chromium copper arsenate (CCA), ammoniacal copper zinc arsenate (ACZA), and/or ammoniacal copper arsenate (ACA)). Acid copper chromate (ACC) is also a wood preservative containing arsenic and/or chromium; however, it is subject to a voluntary cancellation action and is not part of this Reregistration Eligibility Decision. These wood preservatives, which are inorganic compounds, have been registered with EPA since the mid-1960's as pesticides for wood preservation. Presently, 23 products are registered for above and below ground wood protection treatments as well as in marine environments. Wood treated with these preservatives containing arsenic and/or chromium are specified for commercial, institutional, and some residential construction uses in indoor and outdoor sites. This notice starts the 60-day public comment period for the preliminary risk assessment for the wood preservatives containing arsenic and/or chromium. EPA will review all comments received and address them accordingly. The Agency will then announce and conduct a public technical briefing on the revised risk assessment to provide an opportunity for the public to learn more about the data, information, and methods used to develop the revised risk assessment. The revised assessment will then be made available to the public, and the public will be invited to submit risk management ideas and/or proposals. By allowing access and opportunity for comments on the preliminary risk assessment, the Agency is seeking to strengthen stakeholder involvement and help ensure its decisions under the Food Quality Protection Act are transparent, and based on the best available information.

**DATES:** Comments, identified by docket ID number OPP-2003-0250, must be received on or before May 17, 2004.
