

reporting system, which is required by law (22 U.S.C. 286f; 22 U.S.C. 3103; E.O. 10033; 31 CFR part 128) for the purpose of providing timely information on international capital movements other than direct investment by U.S. persons. Form D is a quarterly report used to cover holdings and transactions in derivatives contracts undertaken between foreign resident counterparties and major U.S.-resident participants in derivatives markets. This information is necessary for compiling the U.S. balance of payments and international investment position accounts, and for formulating U.S. international financial and monetary policies.

Current Actions: (a) All derivatives contracts with foreign residents that meet the FASB Statement Nos. 133 and 149 (FAS 133 and 149) definition of a derivatives contract are to be reported on Form D. (b) Form D has three columns. The first column reports the aggregate total fair value at the end of each calendar quarter of all reportable derivatives contracts with a positive fair value. The second column reports the aggregate total fair value at the end of each calendar quarter of all reportable derivatives contracts with a negative fair value. The third column reports the net of all cash receipts (+) and payments (-) during that same reporting quarter for the acquisition, sale, or final closeout of derivatives, including all settlement payments under the terms of derivatives contracts. (c) In part 1 of the form, the grand totals of the three columns described in (b) are divided between over-the-counter (OTC) contracts and exchange-traded contracts. (d) In part 1 of the form, the OTC contracts are broken down into three categories: Single-Currency Interest Rate Contracts, Foreign Exchange Contracts, and Other Contracts. In addition, the interest rate and foreign exchange contract categories each are further broken down into three categories: Forwards, Swaps and Options. (e) In part 1 of the form, the exchange-traded contracts are broken down into three categories: Own Contracts on Foreign Exchanges, U.S. Customers' Derivatives Contracts on Foreign Exchanges, and Foreign Counterparties' Derivatives Contracts on U.S. Exchanges. (f) In part 1 of the form, three memorandum rows report information on contracts with own foreign offices, contracts with foreign official institutions (FOI), and contracts of U.S. depository institutions with foreigners. However, while the first two columns of fair values are required for all three of these rows, the third column of net settlements is only required for

the FOI row. (g) In part 2 of the form, the grand totals of the three columns in part 1 each are broken down by the country of residence of the direct foreign counterparty to the contracts. (h) The reporting panel is expected to consist of all U.S.-resident participants in derivatives markets, where each reporter holds derivatives having a total notional value in excess of \$100 billion, measured on a consolidated-worldwide accounting basis. The worldwide total includes all derivatives contracts with both U.S. and foreign residents, and all contracts in the accounts of both the reporter and the reporter's customers. (i) Once the exemption level of \$100 billion is exceeded, a reporter must submit reports for that quarter and each of the remaining quarters in the current calendar year. (j) In order to reduce the reporting burden associated with implementing this information collection, these mandatory reporting requirements will be phased in over a period of 3 quarters. In phase 1, reporting will begin for all fair value positions in the first two columns, and net settlements for only OTC foreign exchange contracts. This phase will be effective beginning with the March 2005 reporting date, which covers the first quarter of 2005. In phase 2, reporting will begin for net settlements data for all exchange-traded contracts and will be effective beginning with the June 2005 report date, which covers the second quarter of 2005. In the final phase, reporting will begin for all of the remaining net settlements data (OTC Interest Rate Contracts, other OTC contracts, contracts with FOIs, and the country breakout in part 2 of the form). This Phase will be implemented beginning with the September 2005 report date, which covers the third quarter of 2005.

SUMMARY: By this Notice, the Department of the Treasury is informing the public that it is conducting a mandatory survey of foreign ownership of U.S. securities as of June 30, 2004. This Notice constitutes legal notification to all United States persons (defined below) who meet the reporting requirements set forth in this Notice that they must respond to, and comply with, this survey. Copies of the reporting forms SHL and instructions may be printed from the Internet at: <http://www.treas.gov/tic/forms.html>.

Definition: A U.S. person is any individual, branch, partnership, associated group, association, estate, trust, corporation, or other organization (whether or not organized under the laws of any State), and any government (including a foreign government, the United States Government, a State, provincial, or local government, and any agency, corporation, financial institution, or other entity or instrumentality thereof, including a government-sponsored agency), who resides in the United States or is subject to the jurisdiction of the United States.

Who Must Report: The following U.S. persons must report on this survey: (1) U.S. persons who manage the safekeeping of U.S. securities (as specified below) for foreign persons. These U.S. persons, who include the

affiliates in the United States of foreign entities, and are henceforth referred to as U.S. custodians, must report on this survey if the total market value of the U.S. securities whose safekeeping they manage on behalf of foreign persons—aggregated over all accounts and for all U.S. branches and affiliates of their firm—is \$100 million or more as of June 30, 2004.

(2) U.S. persons who issue securities, if the total market value of their securities owned directly by foreign persons—aggregated over all securities issued by all U.S. subsidiaries and affiliates of the firm, including investment companies, trusts, and other legal entities created by the firm—is \$100 million or more as of June 30, 2004. U.S. issuers should report only foreign holdings of their securities which are directly held for foreign residents, *i.e.*, where no U.S.-resident custodian or central securities depository is used.
