V. Application Review Information

1. Evaluation Criteria

Applications will be reviewed against the Evaluation Criteria and requirements for the Project Narrative specified in the SVC-04 PA (MOD). The following information describes exceptions or limitations to the SVC-04 PA (MOD) and provides special requirements that pertain only to Treatment for Homeless grants. Applicants for Treatment for Homeless grants are required to discuss the following requirements in their application, in addition to the requirements specified in the SVC-04 PA (MOD).

1.1 In "Section C: Proposed Implementation Approach": Applicants must comprehensively describe how treatment services are linked with housing programs and other services for homeless persons, e.g., primary health care.

1.2 In "Section E: Evaluation and Data": Applicants are not required to address the sixth bullet regarding per person or unit cost of the project to be implemented, based on the applicant's actual costs and projected costs over the life of the project.

1.3 Treatment for Homeless grantees are required to provide quarterly progress reports instead of the annual progress reports required by the SVC-04 PA (MOD).

1.4 Treatment for Homeless grantees are required to send the Project Director and the Evaluator to all grantee meetings.

1.5 Performance Measurement: All SAMHSA grantees are required to

collect and report certain data, so that SAMHSA can meet its obligations under the Government Performance and Results Act (GPRA). Grantees of the Treatment for Homeless program will be required to report performance in several areas. Applicants must document their ability to collect and report the required data in "Section E: Evaluation and Data" of their applications. All Treatment for Homeless grant applicants must document their ability to collect and report data using the Targeted Capacity Expansion Client Level GPRA tool, which can be found at www.csat-gpra.samhsa.gov (click on "Data Collection Tools/Instructions"), along with instructions for completing it. Hard copies are available in the application kits distributed by SAMHSA's National Clearinghouse for Alcohol and Drug Information. GPRA data must be collected at baseline (i.e., the client's entry into the project), 6 months after the baseline, and 12 months after the baseline. Projects serving adolescents also must collect 3 month post-baseline data to capture the nuances of change particular to this population. GPRA data must be entered into the GPRA web system within 7 business days of the forms being completed. In addition, 80% of the participants must be followed up. GPRA data are to be collected and then entered into CSAT's GPRA Data Entry and Reporting System (www.csat-gpra.samhsa.gov). Training and technical assistance on data collecting, tracking, and follow-up, as well as data entry, will be provided by CSAT.

2. Review and Selection Process

Information about the review and selection process is available in the SVC-04 PA (MOD) in section V-2.

In compliance with Sec. 506 of the Public Health Service Act, in making award decisions SAMHSA will give preference to entities that provide integrated primary health, substance abuse, and mental health services to homeless individuals, and to entities that have experience in providing substance abuse and mental health services to homeless individuals.

VI. Award Administration Information

Award administration information, including award notices, administrative and national policy requirements, and reporting requirements are available in the SVC-04 PA (MOD) in section VI. SAMHSA's standard terms and conditions are available at www.samhsa.gov/grants/2004/useful_info.asp.

Funding Opportunity Title: National Training and Technical Assistance Center for Child and Adolescent Mental Health Cooperative Agreement (Short Title: NTTAC)

Announcement Type: Initial.

Funding Opportunity Number: SM 04-002.

Catalog of Federal Domestic Assistance (CFDA) Number: 93.243.

Due Date for Applications: May 21, 2004.

Note: Letters from State Single Point of Contact (SPOC) in response to E.O. 12372 are due July 20, 2004.

SUMMARY: The Substance Abuse and Mental Health Services Administration (SAMHSA), Center for Mental Health Services (CMHS) announces the availability of FY 2004 funds for a National Training and Technical Assistance Center for Child and Adolescent Mental Health (NTTAC) Cooperative Agreement. A synopsis of this funding opportunity, as well as many other Federal Government funding opportunities, is also available at the Internet site: <http://www.grants.gov>.

For complete instructions, potential applicants must obtain a copy of SAMHSA's standard Infrastructure

Grants Program Announcement (INF-04 PA [MOD]), and the PHS 5161-1 (Rev. 7/00) application form before preparing and submitting an application. The INF-04 PA (MOD) describes the general program design and provides instructions for applying for all SAMHSA Infrastructure Grants, including the NTTAC Cooperative Agreement. Additional instructions and specific requirements to the National Training and Technical Assistance Center for Child and Adolescent Mental Health Cooperative Agreement are described below.

I. Funding Opportunity Description

Authority: Section 520 A of the Public Health Service Act, as amended and subject to the availability of funds.

The National Training and Technical Assistance Center for Child and Adolescent Mental Health (NTTAC) Cooperative Agreement is one of SAMHSA's Infrastructure Grants. SAMHSA's Infrastructure Grants provide funds to increase the capacity of mental health and/or substance abuse service systems to support programs and services. The NTTAC is a crucial link in CMHS's ongoing efforts to implement the President's New Freedom Commission on Mental Health Report. Therefore, activities carried out under this announcement must be focused on strengthening the capacity of States and communities to transform their mental health system to meet the complex needs of children and youth with, or at risk for, serious emotional disturbances and/or co-occurring substance abuse and mental health disorders and their families, within home- and community-based settings.

The NTTAC will serve as a national resource and training center to promote the planning and development of child and family-centered, culturally competent, and coordinated systems of care for children and adolescents with, or at risk for, a serious emotional disturbance and their families. The NTTAC will provide access to information and expertise on systems of care development, implementation, and policy issues through a variety of knowledge distribution approaches and technologies. Priority areas of focus will include: State planning and policy development to implement family-driven, comprehensive systems of care across child-serving systems; family and youth-centered care planning; financing strategies in public and private sectors; data management and accountability; workforce and leadership development; evidence-based practice; early intervention including screening and

assessment; integration of care with primary health, child-care, schools, child welfare, juvenile justice, and substance abuse; cultural, racial, and geographic disparities; and technology coordination and dissemination. NTTAC will provide targeted technical assistance to State and local child-serving agencies, Indian tribes and tribal organizations, Pacific Island jurisdictions to provide support for integrated, responsive mental health delivery systems for children, adolescents and their families (with families being broadly defined to include a variety of caretakers such as grandparents and extended kinship relationships). These activities will serve to implement the following goals set out by the President's New Freedom Commission Report: create a comprehensive state mental health plan; promote the mental health of young children; advance evidence-based practices using dissemination and demonstration projects and create a public-private partnership to guide their implementation; improve and expand the workforce providing evidence-based mental health services and supports; develop and implement integrated electronic health record and personal health information systems; create individualized plans of care for children and their families; address cultural, racial, and geographic disparities; and promote early mental health screening, assessment and referral.

Background: The NTTAC will serve a key role in furthering Federal efforts begun over 15 years ago, and now reiterated in the President's New Freedom Commission Report, to promote the development of more accessible and appropriate home and community-based mental health and mental health service delivery systems for children, adolescents, and their families. Significant advances have been achieved in understanding and in communicating what comprises an effective network of services and supports. Outcome data on systems of care continue to show the system of care model decreases use of inpatient care, increases school attendance and performance, and decreases contacts with the juvenile justice system. Several States have adopted statutes mandating this kind of approach to treatment for children and adolescents with serious emotional disturbances and their families.

II. Award Information

1. Estimated Funding Available/ Number of Awards: It is expected that up to a total of \$3.45 million will be available to fund one NTTAC award in

FY 2004. Of this total amount, approximately \$250,000 is included to provide technical assistance for state capacity building to programs funded under the Child and Adolescent Mental Health and Substance Abuse State Infrastructure Grants, SM 04-006 and approximately \$200,000 is included to address needs of grantees in the Safe Schools/Healthy Students initiative jointly funded through the Department of Education. An additional \$150,000 may be available through agreement with another federal agency to support a position for an expert in issues related to child welfare and mental health. Application budgets should include these additional dollars, a corresponding plan for the staff position and related support incorporating the expert into project activities. The maximum allowable award is \$3.6 million in total costs (direct and indirect) per year for up to five years. Proposed budgets cannot exceed the allowable amount in any year of the proposed project. Annual continuations will depend on the availability of funds, grantee progress in meeting program goals and objectives, and timely submission of required data and reports.

2. Funding Instrument: Cooperative Agreement.

Role and Responsibilities of Federal Staff: It is the responsibility of the Government Project Officer (GPO) who is overseeing the cooperative agreement to appropriately discharge his/her responsibilities to monitor the overall progress of the program. The GPO's role for this cooperative agreement includes: (1) Providing technical assistance to the grantee in implementing project activities throughout the course of the project; (2) reviewing and approving each stage of project activities; and (3) providing technical monitoring to permit oversight of the project activities. The project officer may conduct site visits to monitor the development of the training and technical assistance activities and/or engage consultants to advise on programmatic issues and conduct site visits.

Role and Responsibilities of the Grantee: The grantee is expected to participate and cooperate fully with CMHS staff in the implementation and evaluation of the project. Activities include: (1) Compliance with all aspects of the terms and conditions of the cooperative agreement; (2) cooperation with CMHS staff in accepting guidance and responding to requests for data; (3) participation on policy steering committee or other work groups established to facilitate accomplishment of the project goals; (4) authorship or co-authorship of publications to make

results of the project available to other programs impacting children's mental health.

Checklist for Formatting Requirements and Screenout Criteria for SAMHSA Grant Applications

SAMHSA's goal is to review all applications submitted for grant funding. However, this goal must be balanced against SAMHSA's obligation to ensure equitable treatment of applications. For this reason, SAMHSA has established certain formatting requirements for its applications. If you do not adhere to these requirements, your application will be screened out and returned to you without review.

—Use the PHS 5161-1 application.
—Applications must be received by the application deadline. Applications received after this date must have a proof of mailing date from the carrier dated at least 1 week prior to the due date. Private metered postmarks are not acceptable as proof of timely mailing. Applications not received by the application deadline or not postmarked at least 1 week prior to the application deadline will not be reviewed.

—Information provided must be sufficient for review.

—Text must be legible.

- Type size in the Project Narrative cannot exceed an average of 15 characters per inch, as measured on the physical page. (Type size in charts, tables, graphs, and footnotes will not be considered in determining compliance.)

- Text in the Project Narrative cannot exceed 6 lines per vertical inch.

—Paper must be white paper and 8.5 inches by 11.0 inches in size.

—To ensure equity among applications, the amount of space allowed for the Project Narrative cannot be exceeded.

- Applications would meet this requirement by using all margins (left, right, top, bottom) of at least one inch each, and adhering to the page limit for the Project Narrative stated in the specific funding announcement.

- Should an application not conform to these margin or page limits, SAMHSA will use the following method to determine compliance: The total area of the Project Narrative (excluding margins, but including charts, tables, graphs and footnotes) cannot exceed 58.5 square inches multiplied by the page limit. This number represents the full page less margins, multiplied by the total number of allowed pages.

- Space will be measured on the physical page. Space left blank within the Project Narrative (excluding margins) is considered part of the Project Narrative, in determining compliance.

—The page limit for Appendices stated in the specific funding announcement

cannot be exceeded. To facilitate review of your application, follow these additional guidelines. Failure to adhere to the following guidelines will not, in itself, result in your application being screened out and returned without review. However, the information provided in your application must be sufficient for review. Following these guidelines will help ensure your application is complete, and will help reviewers to consider your application.

—The 10 application components required for SAMHSA applications should be included. These are:
