

notifications were filed for the purpose of extending the Act's provisions limiting the recovery of antitrust plaintiffs to actual damages under specified circumstances. Specifically, the AVSI Cooperative intends to undertake the following joint research projects:

“Energy Harvesting and Structural Damping”—To determine the feasibility of using multifunctional carbon nanotube supercapacitors as a stand-alone system to harvest aero-elastic energy, dampen structural buffeting and provide structural elements.

“Modular Open Systems Approach Interoperability”—To develop an open systems approach for airborne systems such as avionics to allow greater interoperability through modular common interfaces and architectures. The goal is to reduce operational and support costs for these systems to enable increased investment in acquisition of new and/or technology-refreshed replacement systems.

“Validation and Verification of Advanced Flight Control Systems”—To validate and verify advanced nonlinear, adaptive and reconfigurable control strategies for manned and unmanned aircraft.

“Economic Analysis of Fuel and Infrastructure Options for Aircraft Fuel Cell Applications”—To investigate the economic feasibility of fuel type and fuel supply infrastructure options for aircraft fuel cell applications.

#### Fiscal Year (FY) 2004 Congressional Rescissions for WIA Adults and Dislocated Workers; Program Year (PY) 2004 Workforce Investment Act (WIA Allotments and Additional Funds From Dislocated Worker National Reserve for Adult/Dislocated Worker Activities for Eligible States; PY 2004 Wagner-Peyser Act Final Allotments; FY 2004 Work Opportunity Tax Credit and Welfare-to-Work Tax Credit Allotments

**AGENCY:** Employment and Training Administration, Labor.

**ACTION:** Notice.

**SUMMARY:** This Notice announces FY 2004 Congressional Rescissions for WIA Adults and Dislocated Worker programs, states' allotments for PY 2004 (July 1, 2004–June 30, 2005) for WIA Title I Youth, Adults and Dislocated Worker programs; additional PY 2004 funding from the Dislocated Worker National Emergency Reserve for eligible states; final allotments for Employment Service (ES) activities under the Wagner-Peyser Act for PY 2004; and Work Opportunity Tax Credit and Welfare-to-Work Tax Credit allotments for FY 2004.

The WIA allotments for states and the final allotments for the Wagner-Peyser Act are based on formulas defined in their respective statutes. The WIA allotments for the outlying areas are based on a formula determined by the Secretary. As required by WIA section 182(d), on February 17, 2000, a Notice of the discretionary formula for allocating PY 2000 funds for the outlying areas was published in the **Federal Register** at 65 FR 8236 (February 17, 2000). The rationale for the formula and methodology was fully explained in the February 17, 2000 **Federal Register** Notice. The formula for PY 2004 is the same as used for PY 2000 and is described in the section on Youth allotments. The data for all outlying areas was obtained from the Bureau of the Census and was based on 2000 census surveys for those areas conducted either by the Bureau or the outlying areas. This is the first year that 2000 census data is used in the allotment formula. Comments are invited upon the formula used to allot funds to the outlying areas.

**DATES:** Comments must be received by April 26, 2004.
