**AGENCY:** National Energy Technology Laboratory, Department of Energy (DOE).

**ACTION:** Notice of availability of a funding opportunity announcement.

**SUMMARY:** Notice is hereby given of the intent to issue Funding Opportunity Announcement No. DE-PS26-04NT42113 entitled Waste Heat Recovery and Utilization Research and Development for Passenger Vehicle and Light/Heavy Duty Truck Applications. The Department of Energy (DOE), National Energy Technology Laboratory (NETL), on behalf of the Office of Energy Efficiency and Renewable Energy (EERE), announces that it intends to conduct a competitive funding opportunity announcement. EERE's Office of FreedomCAR and Vehicle Technologies (OFCVT) is seeking applications for cost-shared research and development (R&D) in two topical areas to improve the efficiency of internal combustion engines while meeting emissions regulations. The intent of this solicitation is to fund projects that will take their technology to full scale for characterization and evaluation on multi-cylinder engines or equivalent experimental rigs by the end of the period of performance. Fundamental research will be considered for funding under this solicitation when it is focused on a major impediment to a project's progress.

**DATES:** The funding opportunity announcement will be available on the "Industry Interactive Procurement System" (IIPS) Web page located at <http://e-center.doe.gov> on or about March 26, 2004. Applicants can obtain access to the funding opportunity announcement from the address above or through DOE/NETL's Web site at <http://www.netl.doe.gov/business>.

Questions and comments regarding the content of the announcement should be submitted through the "Submit Question" feature of IIPS at <http://e-center.doe.gov>. **SUPPLEMENTARY INFORMATION:** The objective of this funding opportunity announcement is to provide financial support to improve the efficiency of internal combustion engines for light- and heavy-duty engines through technological advances in combustion and waste heat recovery. This funding opportunity announcement will address the following two topical areas: 1) Direct Energy Conversion from Waste Heat Recovery; and 2) Heating/Cooling Devices Based on Waste Heat Recovery. DOE anticipates awarding 3 to 6 cost sharing cooperative agreements across the two topical areas. Approximately \$12 million to \$17 million of federal funding is anticipated for awards under this program over multiple fiscal years. Awards under both topical areas will require 25% cost share.

Once released, the funding opportunity announcement will be available for downloading from the IIPS Internet page.
