Synopses of these reports are available on these organizations’ websites.

More detailed information about this project and subsequent listening sessions, the Hospital Quality Initiative, the NVHRI and other related activities may be found at <http://www.cms.hhs.gov/quality/hospital>.

II. Meeting Format

The first listening session will consist of three parts. First, a presentation on our current activities related to public reporting of hospital quality measures, as well as a discussion of priority areas and examples of measures as developed by such groups as the Institute of Medicine and the National Quality Forum. The next portion of the meeting will be reserved for a panel discussion and comments from key stakeholders, both local and national. The last third of the meeting will be reserved for comments, questions, and feedback from interested parties in attendance.

Time for participants to ask questions or offer comments will be limited according to the number of registered participants. Individuals who wish to offer comments need not indicate their

interest in advance, but they should register for and attend the meeting.

We are interested in a national public dialogue on public reporting of performance measures of hospital care beyond the ten measures currently included in the NVHRI. We believe that an active discussion will help us clearly identify the complementary and competing priorities and concerns of the various stakeholders interested in public reporting. Therefore, we are providing an opportunity for those persons who are unable to attend one of the five listening sessions to submit written comments to one of addresses listed in the **ADDRESSES** section of this notice by July 30, 2004. However, we will not be able to respond personally to the written comments received.

III. Registration Instructions

The New York State Quality Improvement Organization, IPRO, is coordinating registration for this listening session. There is no registration fee. You may register online by visiting the IPRO Web site at <http://www.ipro.org> or you may call 1–800–852–3685, ext. 258. You will receive a registration confirmation.

Title: Uniform Project Description (UPD) for Discretionary Grant Application Form.

OMB No.: 0970–0139.

Description: The Administration for Children and Families (ACF) has more than 40 discretionary grant programs. The proposed information collection form would be a uniform discretionary application form usable for all of these grant programs to collect the information from grant applicants needed to evaluate and rank applicants and protect the integrity of the grantee selection process. All ACF discretionary grant programs would be eligible but not required to use this project description portion of the application form. When using the UPD, the project description portion of a program announcement consists of a series of text options which can be selected for individual projects. The combination of selected text options solicits information necessary to evaluate applications solicited for the particular program announcement. Guidance for the content of information requested in the project description is found in OMB Circulars A–102 and A–110.

Proposed Project: Healthcare Integrity and Protection Data Bank for Final Adverse Information on Health Care Providers, Suppliers, and Practitioners (OMB No. 0915-0239)—Revision

Section 221(a) of the Health Insurance Portability and Accountability Act (HIPAA) of 1996 specifically directs the Secretary to establish a national health care fraud and abuse data collection program for the reporting and disclosure of certain final adverse actions taken against health care providers, suppliers, and practitioners. A final rule was published October 26, 1999, in the **Federal Register** to implement the statutory requirements of section 1128E of the Social Security Act (The Act) as

added by section 221(a) of HIPAA. The Act requires the Secretary to implement the national healthcare fraud and abuse data collection program. This data bank is known as the Healthcare Integrity and Protection Data Bank (HIPDB). It contains the following types of information: (1) Civil judgments against a health care provider, supplier, or practitioner in Federal or State court related to the delivery of a health care item or service; (2) Federal or State criminal convictions against a health care provider, supplier, or practitioner related to the delivery of a health care item or service; (3) Actions by Federal or State agencies responsible for the licensing and certification of health care providers, suppliers, or practitioners; (4) Exclusion of a health care provider, practitioner or supplier from participation in Federal or State health

care programs; and (5) Any other adjudicated actions or decisions that the Secretary shall establish by regulations. Access to this data bank is limited to Federal and State government agencies and health plans.

This request is for a revision of reporting and querying forms previously approved on March 15, 2001. The reporting forms and the request for information forms (query forms) must be accessed, completed, and submitted to the HIPDB electronically through the HIPDB Web site at <http://www.npdb-hipdb.com>. All reporting and querying is performed through this secure Web site. Due to overlap in requirements for the HIPDB, some of the National Practitioner Data Bank's burden has been subsumed under the HIPDB.
