DEPARTMENT OF DEFENSE

Office of the Secretary

Defense Science Board

AGENCY: Department of Defense.

ACTION: Notice of advisory committee meeting.

SUMMARY: The Defense Science Board (DSB) Task Force on Strategic Strike Skills will meet in closed session on April 14, 2004, in Arlington, VA. The Task Force will assess the future strategic strike force skills needs of the Department of Defense (DoD).

The mission of the DSB is to advise the Secretary of Defense and the Under Secretary of Defense for Acquisition, Technology & Logistics on scientific and technical matters as they affect the perceived needs of the Department of Defense. Last summer the DSB assessed DoD needs for future strategic strike forces. Assessed was the application of technology for non-nuclear weapons systems, communications, planning systems, and intelligence as well as the integration of strategic strike with active defenses as part of the new triad. This

“skills” study will complement the previous strategic forces study by focusing on the people and the skills necessary to develop, maintain, plan, and successfully execute future strategic strike forces. At this meeting, the Task Force will: Assess current skills available, both nuclear and non-nuclear of current long-range strike forces; identify, assess and recommend new/modified/enhanced skill sets necessary for successful future strike force development, planning, and operations; and recommend a strategy for the successful evolution of the current skills to those required by future strike forces.

In accordance with section 10(d) of the Federal Advisory Committee Act, Pub. L. 92-463, as amended (5 U.S.C. app. II), it has been determined that this Defense Science Board Task Force meeting concerns matters listed in 5 U.S.C. 552b(c)(1) and that, accordingly, the meeting will be closed to the public.

Dated: March 22, 2004.

L.M. Bynum,

Alternate OSD Federal Register Liaison Officer, Department of Defense.
