

Forest Service expects to incur, among other potential expenses, additional investigative costs and the costs of abating selenium releases, including releases into pit lakes, seeps and streams, and the uptake of selenium into forage grasses and other plants. Releases of selenium from the Mines have caused the deaths of domestic animals and may endanger wildlife. Under the proposed Agreement, the United States will be awarded an allowed general unsecured claim against Washington Group International, Inc. and affiliated debtors in the amount of \$30 million. In addition, the United States will receive payments from two insurance companies totaling \$4.5 million.

As is typical, the proposed Agreement provides contribution protection to the settling parties. In addition, through the motion to approve the Agreement, the reorganized debtors and the Plan Committee¹ are seeking an injunction which would preclude any and all persons and entities from asserting claims against the settling insurers that arise out of or relate to the Policies and relate to the Sites.

The Department of Justice will receive comments relating to the proposed Settlement Agreement during a period ending April 14, 2004. Comments must be received by that date. If sent by U.S. Mail, comments must be addressed to the Assistant Attorney General for the Environmental and Natural Resources Division, P.O.
