NEPA

The NSF made a Finding of No Significant Impact (FONSI) determination on October 2, 2003, based on information contained within its EA, that implementation of the subject action is not a major Federal action having significant effects on the environment within the meaning of Executive Order 12114. NSF determined therefore, that an environmental impact statement would not be prepared. On December 16, 2003 (68 FR 70000), NMFS noted that the NSF had prepared an EA for the Yucatan Peninsula surveys and made this EA available upon request. In accordance with NOAA Administrative Order 216-6 (Environmental Review Procedures for Implementing the National Environmental Policy Act, May 20, 1999), NMFS has reviewed the information contained in NSF's EA and determined that the NSF EA accurately and completely describes the proposed action alternative, reasonable additional alternatives, and the potential impacts on marine mammals, endangered species, and other marine life that could be impacted by the preferred alternative and the other alternatives. Therefore, it is not necessary to issue a new EA, supplemental EA or an environmental impact statement for the issuance of an IHA to LDEO for this activity. Based on this review and analysis, NMFS is adopting the NSF EA under 40 CFR 1506.3 and has made its own FONSI. A copy of the NSF EA and the NMFS FONSI for this activity is available upon request (see **ADDRESSES**).

Authorization

NMFS has issued an IHA to take marine mammals, by harassment, incidental to conducting a seismic surveys in the northern Yucatan Peninsula in the Gulf of Mexico to LDEO for a 1-year period, provided the mitigation, monitoring, and reporting requirements are undertaken.
