

responses to the Short List candidates will be considered in the selection of the Panel members, along with information provided by candidates and information gathered by EPA SAB Staff Office independently on the background of each candidate (e.g., financial disclosure information and computer searches to evaluate a nominee's prior involvement with the topic under review). Specific criteria to be used in evaluating individual nominees include: (a) Scientific and/or technical expertise, knowledge, and experience (primary factors); (b) absence of financial conflicts of interest; (c) scientific credibility and impartiality; (d) availability and willingness to serve; and (e) ability to work constructively and effectively in panels.

Those Short List candidates ultimately chosen to serve on the Panel will be appointed as Special Government Employees (SGEs). Therefore, all Short List candidates will be required to fill out the "Confidential Financial Disclosure Form for Special Government Employees Serving on Federal Advisory Committees at the U.S. Environmental Protection Agency" (EPA Form 3110-48. This confidential form allows Government officials to determine whether there is a statutory conflict between that person's public responsibilities as an SGE and private interests and activities, or the appearance of a lack of impartiality, as defined by Federal regulation. The form may be viewed and downloaded from the following URL address: <http://www.epa.gov/sab/pdf/epaform3110-48.pdf>. As an SGE, EPA SAB members are required to abide by the letter and spirit of the ethical regulations to which all U.S. Government employees must adhere. SGEs are required to take annual ethics training in order to serve on the SAB.

The Commission revised the FCC 302-TV in June 2001 to facilitate electronic filing by replacing narrative exhibits with the use of certifications and an engineering technical box. The Commission also deleted and narrowed overly burdensome questions. The FCC 302-TV has been supplemented with detailed instructions to explain processing standards and rule interpretations to help ensure that applicants certify accurately. These changes streamlined the Commission's processing of FCC 302-TV applications. FCC staff use the data to confirm that the station has been built to terms specified in the outstanding construction permit, and to update FCC station files. Data are then extracted from FCC 302-TV for inclusion in the subsequent license to operate the station.
