BILLING CODE 3510-22-S

CONSUMER PRODUCT SAFETY COMMISSION

Proposed Collection of Information; Comment Request—Safety Standard for Multi-Purpose Lighters

AGENCY: Consumer Product Safety Commission.

ACTION: Notice.

SUMMARY: As required by the Paperwork Reduction Act of 1995 (44 U.S.C. chapter 35), the Consumer Product Safety Commission requests comments on a proposed request for an extension of approval of a collection of information from manufacturers and importers of multi-purpose lighters. Multi-purpose lighters are hand-held flame-producing products that operate on fuel and have an ignition mechanism. They typically are used to light devices such as charcoal and gas grills and fireplaces. Devices intended primarily for igniting smoking materials are excluded from the multi-purpose lighter category.

This collection of information consists of testing and recordkeeping requirements in certification regulations implementing the Safety Standard for Multi-Purpose Lighters. 16 CFR part 1212. The Commission will consider all comments received in response to this notice before requesting an extension of approval of this collection of information from the Office of Management and Budget.

DATES: The Office of the Secretary must receive written comments not later than June 1, 2004.

ADDRESSES: Written comments should be captioned "Multi-Purpose Lighters" and mailed to the Office of the Secretary, Consumer Product Safety Commission, Washington, DC 20207, or delivered to that office, room 502, 4330 East-West Highway, Bethesda, Maryland 20814. Written comments may also be sent to the Office of the Secretary by facsimile at (301) 504-0127 or by e-mail to cpssc-os@cpssc.gov.

FOR FURTHER INFORMATION CONTACT: For information about this proposed extension of approval of the collection of information, or to obtain a copy of 16 CFR part 1212, call or write Linda L. Glatz, Office of Planning and Evaluation, Consumer Product Safety Commission, Washington, DC 20207; telephone (301) 504-7671.

SUPPLEMENTARY INFORMATION: In 1999, the Commission issued the Safety Standard for Multi-Purpose Lighters (16 CFR part 1212) under provisions of the Consumer Product Safety Act (CPSA) (15 U.S.C. 2051-2084) to eliminate or reduce risks of death and burn injury from fires accidentally started by children playing with these lighters. The standard contains performance requirements for multi-purpose lighters that are intended to make lighters subject to the standard resist operation by children younger than five years of age.

A. Certification Requirements

Section 14(a) of the CPSA (15 U.S.C. 2063(a)) requires manufacturers, importers, and private labelers of a consumer product subject to a consumer product safety standard to issue a certificate stating that the product complies with all applicable consumer product safety standards. Section 14(a) of the CPSA also requires that the certificate of compliance must be based on a test of each product or upon a reasonable testing program.

Section 14(b) of the CPSA authorizes the Commission to issue regulations to prescribe a reasonable testing program to support certificates of compliance with a consumer product safety standard. Section 16(b) of the CPSA (15 U.S.C. 2065(b)) authorizes the Commission to issue rules to require that firms "establish and maintain" records to permit the Commission to determine compliance with rules issued under the authority of the CPSA.

The Commission has issued regulations prescribing requirements for a reasonable testing program to support certificates of compliance with the
