DEPARTMENT OF THE INTERIOR**Bureau of Reclamation**

[INT-DES-04-3]

Platte River Recovery Implementation Program

AGENCY: Bureau of Reclamation,
Interior.

ACTION: Extension of review and
comment period for draft environmental
impact statement (DEIS).

SUMMARY: The notice of availability for
the DEIS was published in the **Federal
Register** on January 26, 2004 (69 FR
3600), with the public review and
comment period originally scheduled to
end April 2, 2004. It was the intent of
the Bureau of Reclamation
(Reclamation) that the comment period
for the DEIS overlap with the release of
the National Academy of Sciences
(NAS) report, entitled, "Endangered and
Threatened Species in the Platte River
Basin" that was expected January 30,
2004. Because the NAS report has been
significantly delayed, Reclamation is
extending the review and comment
period for the DEIS to June 1, 2004, to
allow the public the opportunity to have
both reports available during the DEIS
review and comment period.

DATES: Submit comments on the DEIS
on or before June 1, 2004. Public
hearings on the DEIS will be held
during the month of May. Times and
locations will be announced in the
Federal Register and local media.

ADDRESSES: Written comments on, or
requests for copies of, the DEIS should
be addressed to the Platte River EIS
Office (PL-100), P.O. Box 25007,
Denver, Colorado, 80225-0007,
telephone (303) 445-2096, or by sending
an e-mail to platte@prs.usbr.gov. A
copy of the DEIS summary, and/or
technical reports or appendices may
also be obtained by calling (303) 445-
2096. The DEIS summary is also
accessible at <http://www.platteriver.org>.

FOR FURTHER INFORMATION, CONTACT:
Lynn Holt, Platte River EIS Office (303)
445-2096, or by sending an e-mail to
platte@prs.usbr.gov.

SUPPLEMENTARY INFORMATION:

Reclamation and the Fish and Wildlife
Service (Service) have prepared this
DEIS to analyze the impacts of the First
Increment (13 years) of a proposed
Recovery Implementation Program
(Program) to benefit the target species
(whooping crane, interior least tern,
piping plover, and pallid sturgeon) and
their habitat in the Platte River Basin
and to provide compliance with the
Endangered Species Act (ESA) for
certain historic and future water uses in
the Platte River Basin in Colorado,
Nebraska, and Wyoming. The habitat
objectives of the proposed Program
include: Improving flows in the Central
Platte River through water re-regulation
and conservation/supply projects; and
protecting, restoring, and maintaining at
least 10,000 acres of habitat in the
Central Platte River area between
Lexington and Chapman, Nebraska. The
DEIS analyzes the impacts of four
alternatives to implement the Program.

The programmatic DEIS focuses on
impacts that the Program may have on
hydrology, water quality, land, target
species and their habitat, other species,
hydropower, recreation, economics, and
social and cultural resources.
Subsequent National Environmental
Policy Act and ESA documents required
for implementation of specific Program
actions will be tiered off of this
document.

available for public review. Individual
respondents may request that
Reclamation withhold their home
