

Early Notice of Importance of Public Participation in Subsequent Environmental Review

A Draft SEIS will be prepared for comment. Copies will be distributed to interested and affected agencies, organizations, and members of the public for their review and comment. The comment period on the Draft SEIS will be 45 days from the date the Environmental Protection Agency publishes the notice of availability in the **Federal Register**.

The Forest Service believes, at this early stage, it is important to give reviewers notice of several court rulings related to public participation in the environmental review process. First, reviewers of a Draft SEIS must structure their participation in the environmental review of the proposal so that it is meaningful and alerts an agency to the reviewer's position and contentions. *Vermont Yankee Nuclear Power Corp. v. NRDC*, 435 U.S. 519, 553 (1978). Also, environmental objections that could be raised at the Draft SEIS stage but that are not raised until after the completion of the Final SEIS may be waived or dismissed by the courts. *City of Angoon v. Hodel*, 803 F.2d. 1016, 1022 (9th Cir. 1986) and *Wisconsin Heritages, Inc. v. Harris*, 490 F. Supp. 1334, 1338 (E.D. Wis. 1980). Because of these court rulings, it is very important that those interested in this proposed action participate by the close of the 45 day comment period so that substantive comments and objections are made available to the participating agencies at a time when it can meaningfully consider them and respond to them in the Final SEIS.

To assist the participating agencies in identifying and considering issues and concerns on the proposed action, comments on the Draft SEIS should be as specific as possible. It is also helpful if comments refer to specific pages or chapters of the draft statement. Comments may also address the adequacy of the Draft SEIS or the merits of the alternatives formulated and discussed in the statement. Reviewers may wish to refer to the Council on Environmental Quality Regulations for implementing the procedural provisions of the National Environmental Policy Act at 40 CFR 1503.3 in addressing these points.

In the Final SEIS, the participating agencies are required to respond to comments and responses received during the comment period that pertain to the environmental consequences discussed in the Draft SEIS and applicable laws, regulations, and

policies considered in making a decision regarding the proposal.

Comments received including the names and addresses of those who comment, will be considered part of the public record on this proposal and will be available for public inspection.

The Forest Supervisor for the Okanogan and Wenatchee National Forest will be the responsible official for this SEIS and its Record of Decision. As the responsible official, the Forest Supervisor will document the decision and reasons for the decision in the Record of Decision. That decision will be subject to Forest Service Appeal Regulations (36 CFR Part 215).

Dated: March 29, 2004.

Alan M. Quan,

Deputy Forest Supervisor.
