Needs and Uses: On April 25, 2003 the FCC released an Order and Further Notice of Proposed Rulemaking ("Order and FNPRM"), *In the Matter of Implementation of Section 304 of the Telecommunications Act of 1996, Commercial Availability of Navigation Devices*, CS Docket No. 97-80, FCC 03-89. In this Order and FNPRM the Commission extends by eighteen months the existing 2005 deadline in § 76.1204(a)(1) prohibiting the deployment of integrated navigation devices by multichannel video programming distributors in order to promote the retail sale of non-integrated

host devices. This extension was granted in light of ongoing negotiations between the cable and consumer electronics industries that may affect the technical specifications relating to host devices and associated point-of-deployment modules. The Commission also committed to completing a reassessment of the upcoming ban on integrated devices, based in part upon the status of these negotiations, prior to January 1, 2005. In order to complete its assessment in a timely manner, the FCC has requested that the cable and consumer electronics industries file progress reports with the Commission on the status of their negotiations at 90, 180, and 270 day intervals following release of the Order and FNPRM. The proposed progress reports would be used as a partial basis to elicit public comment as a part of a rulemaking proceeding pursuant to the Order and FNPRM on the appropriateness of the new July 1, 2006 ban on integrated devices, based upon the status of these negotiations. This objective is commensurate with our statutory directive in Section 629 of the Communications Act of 1934, as amended, to act "in consultation with appropriate industry standard-setting organizations" to assure the commercial availability of navigation devices used in conjunction with services provided by multichannel video programming distributors ("MVPDs").

Title: Noncommercial Educational Applicants.

Form Number: N/A.

Type of Review: Extension of currently approved collection.

Respondents: Not-for-profit institutions.

Number of Respondents: 630.

Needs and Uses: On April 4, 2000, the Commission adopted a Report and Order in MM Docket No. 95-31, FCC 00-120, *In the Matter of Reexamination of the Comparative Standards for Noncommercial Educational Applicants*. This Report and Order adopted procedures to select among competing applicants for noncommercial educational (NCE)

broadcast channels, including a point system to select among mutually exclusive applicants on reserved channels and filing windows for new and major changes to NCE stations. 47 CFR 73.202 provides that entities eligible to operate an NCE broadcast station can request that a non-reserved FM channel be allotted as reserved only for NCE broadcasting. This request must include a demonstration as specified in (a)(1)(i) and (ii) of this rule section. 47 CFR 73.3527 requires that documentation of any points claimed in an application for a NCE broadcast station in the reserved band must be kept in the public inspection file. 47 CFR 73.3572 requires an applicant for a NCE broadcast station on a reserved channel to submit supporting documentation of the points claimed on the application form. The FCC staff use this documentation to determine whether there is a greater need for a noncommercial channel versus a commercial channel and to perform random audits of the application point certifications. This supporting documentation also enables competing applicants to verify and/or dispute other applicants' claims.
