

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information shall have practical utility; (b) the accuracy of the Agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information on respondents, including through the use of automated collection techniques or other forms of information technology; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

DATES: Written comments should be received by June 11, 2004, to be assured of consideration. Comments received after that date would be considered to the extent practicable.

ADDRESSES: Written comments regarding the information collection and requests for copies of the proposed information collection request should be addressed to Suzanne Plimpton, Reports Clearance Officer, National Science Foundation, 4201 Wilson Blvd., Rm. 295, Arlington, VA 22230, or by e-mail to splimpto@nsf.gov.

FOR FURTHER INFORMATION CONTACT: Suzanne Plimpton on (703) 292-7556 or send E-mail to splimpto@nsf.gov.

Individuals who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339 between 8 a.m. and 8 p.m., Eastern time, Monday through Friday.

SUPPLEMENTARY INFORMATION:

Title of Collection: The Evaluation of NSF's Math and Science Partnerships (MSP) Program.

OMB Control No.: 3145-NEW.

Expiration Date of Approval: Not applicable.

1. Abstract

This document has been prepared to support the clearance of data collection instruments to be used in the evaluation of the Math and Science Partnership (MSP) Program. The goals for the program are to (1) ensure that all K-12 students have access to, are prepared for, and are encouraged to participate and succeed in challenging curricula and advanced mathematics and science courses; (2) enhance the quality, quantity, and diversity of the K-12 mathematics and science teacher workforce; and (3) develop evidence-based outcomes that contribute to our understanding of how students effectively learn mathematics and science. The motivational force for

realizing these goals is the formation of partnerships between institutions of higher education (IHEs) and K-12 school districts. The role of IHE content faculty is the cornerstone of this intervention. In fact, it is the rigorous involvement of science, mathematics, and engineering faculty and the expectation that both IHEs and K-12 school systems will be transformed that distinguishes MSP from other education reform efforts.

The components of the overall MSP portfolio include active projects whose initial awards were made in prior MSP competitions, as well as those to be awarded in the current MSP competition: (1) Comprehensive Partnerships that implement change in mathematics and/or science educational practices in both higher education institutions and in schools and school districts, resulting in improved student achievement across the K-12 continuum; (2) Targeted Partnerships that focus on improved K-12 student achievement in a narrower grade range or disciplinary focus within mathematics or science; (3) Institute Partnerships: Teacher Institutes for the 21st Century that focus on the development of mathematics and science teachers as school- and district-based intellectual leaders and master teachers; and (4) Research, Evaluation and Technical Assistance (RETA) projects that build and enhance large-scale research and evaluation capacity for all MSP awardees and provide them with tools and assistance in the implementation and evaluation of their work.

The MSP online monitoring system, comprised of four web-based surveys, will collect a common core of data about each component of MSP. The web application for MSP will be developed with a modular design that incorporates templates and self-contained code modules for rapid development and ease of modification. A downloadable version will also be available for respondents who prefer a paper version that they can mail or fax to Westat. Information from the system will be used to document the Partnerships' annual progress toward meeting the Key features of MSP projects, such as developing partnerships between IHEs and local school districts, increasing teacher quality, quantity, and diversity, providing challenging courses and curricula, utilizing evidence-based design and outcome measures, and implementing institutional change and sustainability.

2. Expected Respondents

The expected respondents are principal investigators of all projects; STEM and education faculty members and administrators who participated in MSP; school districts and IHEs that are partners in an MSP project.

3. Burden on the Public

During the first year of data collection, Cohort 1 projects will be asked to report baseline data (*i.e.*, for 2001-02) as well as two years of activity data (2002-2004). Cohort 2 will be asked to report for its baseline (2002-03) and one year of activity data (2003-04). The total elements for this first year collection are 33,951 burden hours for a maximum of 2,995 participants, assuming a 100% response rate. The average annual reporting burden is approximately 11 hours per respondent. In subsequent data collection cycles (2004-05) the burden will decline substantially since each project will only report for that current year. Therefore, in subsequent years it is expected that the total elements will be 12,915 burden hours for a maximum of 2,293 participants. The average annual reporting burden will drop to about 6 hours per respondent. The burden on the public is negligible because the study is limited to project participants that have received funding from the MSP Program.

Dated: April 6, 2004.

Suzanne H. Plimpton,
Reports Clearance Officer, National Science Foundation.

NATIONAL SCIENCE FOUNDATION

Agency Information Collection Activities: Comment Request

AGENCY: National Science Foundation.

ACTION: Submission for OMB review; comment request.

SUMMARY: The National Science Foundation (NSF) has submitted the following information collection requirement to OMB for review and clearance under the Paperwork Reduction Act of 1995, Pub. L. 104-13. This is the second notice for public comment; the first was published in the **Federal Register** at 69 FR 5372, and no comments were received. NSF is forwarding the proposed renewal submission to the Office of Management and Budget (OMB) for clearance simultaneously with the publication of this second notice. Comments regarding (a) whether the collection of information

is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility and clarity of the information to be collected; (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology should be addressed to: Office of Information and Regulatory Affairs of OMB, Attention: Desk Officer for National Science Foundation, 725-17th Street, NW., Room 10235, Washington, DC 20503, and to Suzanne H. Plimpton, Reports Clearance Officer, National Science Foundation, 4201 Wilson Boulevard, Suite 295, Arlington, Virginia 22230 or send e-mail to splimpto@nsf.gov. Comments regarding these information collections are best assured of having their full effect if received within 30 days of this notification. Copies of the submission(s) may be obtained by calling (703) 292-7556.

NSF may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

Title of Collection: Medical Clearance Process for Deployment to Antarctica.

OMB Number: 3145-0177.

Type of Request: Intent to seek approval to renew an information collection for three years.

Abstract

A. Proposed Project

All individuals who anticipate deploying to Antarctica and to certain regions of the Arctic under the auspices of the United States Antarctic Program are required to take and pass a rigorous physical examination prior to deploying. The physical examination includes a medical history, medical examination, a dental examination and for those persons planning to winter over in Antarctica a psychological examination is also required. The requirement for this determination of physical status is found in 42 U.S.C. 1870 (Authority) and 62 FR 31522, June 10, 1997 (Source), unless otherwise

noted. This part sets forth the procedures for medical screening to determine whether candidates for participation in the United States Antarctic (Page 216) Program (USAP) are physically qualified and psychologically adapted for assignment or travel to Antarctica. Medical screening examinations are necessary to determine the presence of any physical or psychological conditions that would threaten the health or safety of the candidate or other USAP participants or that could not be effectively treated by the limited medical care capabilities in Antarctica.

(b) Presidential Memorandum No. 6646 (February 5, 1982) (available from the National Science Foundation, Office of Polar Programs, room 755, 4201 Wilson Blvd., Arlington, VA 22230) sets forth the National Science Foundation's overall management responsibilities for the entire United States national program in Antarctica.

B. Use of the Information

1. *Form NSF-1420*, National Science Foundation Polar Physical Examination—(Antarctica/Arctic/Official Visitors) Medical History, will be used by the individual to record the individual's family and personal medical histories. It is a five-page form that includes the individual's and the individual's emergency point-of-contact's name, address, and telephone numbers. It contains the individual's e-mail address, employment affiliation and dates and locations of current and previous polar deployments. It also includes a signed certification of the accuracy of the information and understandings of refusal to provide the information or providing false information. The agency's contractor's reviewing physician and medical staff complete the sections of the form that indicated when the documents were received and whether or not the person qualified for polar deployment, in which season qualified to deploy and where disqualified the reasons.

2. *Form NSF-1421*, Polar Physical Examination—Antarctica/Arctic, will be used by the individual's physician to document specific medical examination results and the overall status of the individual's health. It is a two-page form which also provides for the signatures of both the patient and the examining physician, as well as contact information about the examining physician. Finally, it contains the name, address and telephone number of the agency's contractor that collects and retains the information.

3. *Form NSF-1422*, National Science Foundation Polar Physical Examination

(Antarctica/Arctic/Official Visitors) Medical History Interval Screening, will only be used by individuals who are under the age of 40 and who successfully took and passed a polar examination the previous season or not more than 24 months prior to current deployment date. It allows the otherwise healthy individual to update his or her medical data without having to take a physical examination every year as opposed to those over 40 years of age who must be examined annually.

4. *Form NSF-1423*, Polar Dental Examination—Antarctica/Arctic/Official Visitors, will be used by the examining dentist to document the status of the individual's teeth and to document when the individual was examined. It will also be used by the contractor's reviewing dentist to document whether or not the individual is dentally cleared to deploy to the polar regions.

5. *Medical Waivers:* Any individual who is determined to be not physically qualified for polar deployment may request an administrative waiver of the medical screening criteria. This information includes signing a Request for Waiver that is notarized or otherwise legally acceptable in accordance with penalty of perjury statutes, obtaining an Employer Statement of Support. Individuals on a case-by-case basis may also be required to submit additional medical documentation and a letter from the individual's physician(s) regarding the individual's medical suitability for Antarctic deployment.

6. *Other information requested:* In addition to the numbered forms and other information mentioned above, the USAP medical screening package includes the following:

- Medical Risks for NSF-Sponsored Personnel Traveling to Antarctica—multi-copy form
- NSF Privacy Notice
- NSF Medical Screening for Blood-borne Pathogens/Consent for HIV Testing (multi-copy)
- NSF Authorization for Treatment of Field-Team Member/Participant Under the Age of 18 Years (multi-copy). This should only be sent to the individuals who are under 18 years of age.
- Dear Doctor* and *Dear Dentist* letters, which provide specific laboratory and x-ray requirements, as well as other instructions.

7. *There are two other, non-medical forms included in the mailing:*

- Personal Information Form—NSF Form Number 1424 includes a Privacy Act Notice. This form is used to collect information on current address and contact numbers, date and place

of birth, nationality, citizenship, social security number, passport number, emergency point of contact information, travel dates, clothing sizes so that we may properly outfit those individuals who deploy, worksite information and prior deployment history.

—Participant Notification—Important Notice for Participants in the United States Antarctic Program. This form provides information on the laws, of the nations through which program participants must transit in route to Antarctica, regarding the transport, possession and use of illegal substances and the possibility of criminal prosecution if caught, tried and convicted.

Estimate of Burden: Public reporting burden for this collection of information varies according to the overall health of the individual, the amount of research required to complete the forms, the time it takes to make an appointment, take the examination and schedule and complete any follow-up medical, dental or psychological requirements and the completeness of the forms submitted. The estimated time is up to six weeks from the time the individual receives the forms until he or she is notified by the contractor of their final clearance status. An additional period of up to eight weeks may be required for the individual who was disqualified to be notified of the disqualification, to request and receive the waiver packet, to obtain employer support and complete the waiver request, to do any follow-up testing, to return the waiver request to the contractor plus any follow-up information, for the contractor to get the completed packet to the National Science Foundation, for the NSF to make and promulgate a decision.

Respondents: All individuals deploying to the Antarctic and certain Arctic areas under the auspices of the United States Antarctic Program must complete these forms. There are approximately 3,000 submissions per year, with a small percentage (c. 3%) under the age of 40 who provide annual submissions but with less information.

Estimated Number of Responses per Form: Responses range from 2 to approximately 238 responses.

Estimated Total Annual Burden on Respondents: 28,728 hours.

Frequency of Responses: Individuals must complete the forms annually to be current within 12 months of their anticipated deployment dates. Depending on individual medical status some persons may require additional laboratory results to be current within

two to six-weeks of anticipated deployment.

Comments: Comments are invited on (a) whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information shall have practical utility; (b) the accuracy of the Agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information on respondents, including through the use of automated collection techniques or other forms of information technology; and (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Dated: April 6, 2004.

Suzanne H. Plimpton,

Reports Clearance Officer, National Science Foundation.

BILLING CODE 7555-01-M

NATIONAL SCIENCE FOUNDATION

National Science Board; Committee on Education and Human Resources; Sunshine Act Meeting

DATE AND TIME: April 21, 1 p.m.–2 p.m.

PLACE: The National Science Foundation, Stafford II Building, Room 517, 4201 Wilson Boulevard, Arlington, VA 22230.

STATUS: This meeting will be open to the public.

MATTERS TO BE CONSIDERED:

Wednesday, April 21, 2004

Open Session (1 p.m. to 2 p.m.)

Consideration of the Committee on Education and Human Resources' Broadening Participation in Science and Engineering Research and Education recommendations.

FOR FURTHER INFORMATION CONTACT: Jean Pomeroy, Senior Policy Analyst, NSB (703) 292-7000, <http://www.nsf.gov/ndb>.

Michael P. Crosby,

Executive Officer.

BILLING CODE 7555-01-M

OFFICE OF PERSONNEL MANAGEMENT

Proposed Collection; Comment Request for Review of a Revised Information Collection: OPM Forms 1496 and 1496A

AGENCY: Office of Personnel Management.

ACTION: Notice.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995 (Pub. L. 104-13, May 22, 1995), this notice announces that the Office of Personnel Management (OPM) intends to submit to the Office of Management and Budget (OMB) a request for review of a revised information collection. OPM Forms 1496 and 1496A, Application for Deferred Retirement (Separations before October 1, 1956) and Application for Deferred Retirement (Separations on or after October 1, 1956) are used by eligible former Federal employees to apply for a deferred Civil Service annuity. Two forms are needed because there is a major revision in the law effective October 1, 1956; this affects the general information provided with the forms.

Comments are particularly invited on: whether this collection of information is necessary for the proper performance of functions of the Office of Personnel Management, and whether it will have practical utility; whether our estimate of the public burden of this collection of information is accurate, and based on valid assumptions and methodology; and ways in which we can minimize the burden of the collection of information on those who are to respond, through the use of appropriate technological collection techniques or other forms of information technology.

Approximately 3,000 OPM Forms 1496 and 1496A will be completed annually. We estimate it takes approximately 1 hour to complete both forms. The annual burden is 3,000 hours.

For copies of this proposal, contact Mary Beth Smith-Toomey on (202) 606-8358, fax (202) 418-3251 or via e-mail to mbtoomey@opm.gov. Please include a mailing address with your request.

DATES: Comments on this proposal should be received within 60 calendar days from the date of this publication.

ADDRESSES: Send or deliver comments to—Ronald W. Melton, Chief, Operations Support Group, Center for Retirement and Insurance Services, U.S. Office of Personnel Management, 1900 E Street, NW., Room 3349A, Washington, DC 20415-3540.
