Riverhills Battery Superfund Site; Notice of Settlement

AGENCY: Environmental Protection Agency.

ACTION: Notice of settlement.

SUMMARY: Under Section 122(i) of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA), the Environmental Protection Agency (EPA) has entered into an Agreement for proposed settlement of past and future response cost at the Riverhills Battery Superfund Site (Site) located in Tampa, Hillsborough County, Florida, with Gulf Coast Lead, and Gulf Coast Recycling, Inc. EPA will consider public comments on paragraphs Thirty-Six (36) and Thirty-Seven (37) of the Agreement until May 13, 2004. EPA may withdraw from or modify the Agreement should such comments disclose facts or considerations which indicate the Agreement is inappropriate, improper, or inadequate. Copies of the Agreement are available from: Ms. Paula V. Batchelor, U.S. Environmental Protection Agency, Region 4, Superfund Enforcement & Information Management Branch, Waste Management Division, 61 Forsyth Avenue, SW., Atlanta, Georgia 30303, Batchelor.Paula@EPA.Gov, (404 562-8887).

Written comments may be submitted to Ms. Batchelor at the above address within 30 days of the date of publication.

Dated: March 25, 2004.

Rosalind H. Brown,

Chief, Superfund Enforcement & Information Management Branch, Waste Management Division.

ENVIRONMENTAL PROTECTION AGENCY

[FRL-7646-8]

Final Modified NPDES Permits for Log Transfer Facilities Operating in Alaska Prior to October 22, 1985, and Possessing a Section 404 Permit But Not a Section 402 permit (AK-G70-0000), and All Other Log Transfer Facilities Operating in Alaska (AK-G70-1000)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of Final Modified NPDES General Permits.

SUMMARY: The Director of the Office of Water, EPA Region 10, is publishing notice of the availability of two modified National Pollutant Discharge Elimination System (NPDES) general permits (numbers AK-G70-0000 and AK-G70-1000) for coverage of log transfer facilities (LTFs) operating in Alaska, pursuant to the provisions of the Clean Water Act, 33 U.S.C. 1251 *et seq.* General permit AK-G70-0000 ("pre-1985 permit") includes section 402 modifications to section 404 permits issued to LTFs prior to October 22, 1985, in accordance with section 407 of the Water Quality Act of 1987 (Public Law 100-4). All other LTFs can apply to be authorized to discharge under general permit number AK-G70-1000 ("post-1985 permit").

Because general permit AK-G70-0000 contains modifications of the existing permits originally issued under section 404 of the Clean Water Act for LTFs operating prior to October 22, 1985, the modified permit conditions apply to discharges of bark and wood debris from those LTFs upon the effective date of the permit. Under modified AK-G70-0000, to be authorized to discharge bark or wood debris in a project area zone of deposit, a pre-1985 LTF must: Submit a Notification form to EPA and the Alaska Department of Environmental Conservation (ADEC); and, receive a final decision document and authorization of a project area zone of deposit from ADEC. General permit AK-G70-1000 authorizes discharges to marine waters of Alaska (extending from the Alexander Archipelago west through central Gulf of Alaska and Prince William Sound to Kodiak Island) from LTFs, not possessing pre-1985, section 404 permits, or from LTFs which have received a previous individual permit. In order to be authorized to discharge bark or wood debris under AK-G70-1000, a LTF must: Submit a Notice Of Intent application for permit coverage to EPA and the Alaska Department of
