BILLING CODE 7555-01-M

UNITED STATES NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50-266 and 50-301]

Nuclear Management Company, LLC, Point Beach Nuclear Plant, Units 1 and 2; Notice of Acceptance for Docketing of the Application and Notice of Opportunity for Hearing Regarding Renewal of Facility Operating License Nos. DPR-24 and DPR-27 for an Additional 20-Year Period

The U.S. Nuclear Regulatory Commission (NRC or the Commission) is considering application for the renewal of Operating License Nos. DPR-24 and DPR-27, which authorize the Nuclear Management Company, LLC, to operate the Point Beach Nuclear Plant, Units 1 and 2 at 1540 megawatts thermal for each unit. The renewed licenses would authorize the applicant to operate the Point Beach Nuclear Plant, Units 1 and 2, for an additional 20 years beyond the period specified in the current licenses. The current operating license for the Point Beach Nuclear Plant, Unit 1 expires on October 5, 2010, and the current operating license for the Point Beach Nuclear Plant, Unit 2 expires on March 8, 2013.

On February 26, 2004, the Commission's staff received an application from Nuclear Management Company, LLC filed pursuant to 10 CFR Part 54, to renew the Operating License Nos. DPR-24 and DPR-27 for Point Beach Nuclear Plant, Units 1 and 2, respectively. A Notice of Receipt and Availability of the license renewal application, "Nuclear Management Company, LLC; Notice of Receipt and Availability of Application for Renewal of Point Beach Nuclear Plant, Units 1 and 2, Facility Operating License Nos. DPR-24 and DPR-27 for Additional 20-Year Period," was published in the **Federal Register** on March 8, 2004 (69 FR 10765).

The Commission's staff has determined that Nuclear Management Company, LLC has submitted sufficient information in accordance with 10 CFR 54.19, 54.21, 54.22, 54.23, and 51.53(c) that is acceptable for docketing. The current Docket Nos. 50-266 and 50-301 for Operating License Nos. DPR-24 and DPR-27, respectively, will be retained. The docketing of the renewal application does not preclude requesting additional information as the review proceeds, nor does it predict whether the Commission will grant or deny the application.

Before issuance of each requested renewed license, the NRC will have made the findings required by the Atomic Energy Act of 1954, as amended

(the Act), and the Commission's rules and regulations. In accordance with 10 CFR 54.29, the NRC will issue a renewed license on the basis of its review if it finds that actions have been identified and have been or will be taken with respect to: (1) Managing the effects of aging during the period of extended operation on the functionality of structures and components that have been identified as requiring aging management review, and (2) time-limited aging analyses that have been identified as requiring review, such that there is reasonable assurance that the activities authorized by the renewed licenses will continue to be conducted in accordance with the current licensing basis (CLB), and that any changes made to the plant's CLB comply with the Act and the Commission's regulations.

Additionally, in accordance with 10 CFR 51.95(c), the NRC will prepare an environmental impact statement that is a supplement to the Commission's NUREG-1437, "Generic Environmental Impact Statement for License Renewal of Nuclear Power Plants," dated May 1996. Pursuant to 10 CFR 51.26, and as part of the environmental scoping process, the staff intends to hold a public scoping meeting. Detailed information regarding this meeting will be the subject of a separate **Federal Register** notice.

Within 60 days after the date of publication of this **Federal Register** Notice, the requestor/petitioner may file a request for a hearing, and any person whose interest may be affected by this proceeding and who wishes to participate as a party in the proceeding must file a written request for a hearing and a petition for leave to intervene with respect to the renewal of the licenses. Requests for a hearing and a petition for leave to intervene shall be filed in accordance with the Commission's "Rules of Practice for Domestic Licensing Proceedings" in 10 CFR Part 2. Interested persons should consult a current copy of 10 CFR 2.309, which is available at the Commission's Public Document Room (PDR), located at One White Flint North, 11555 Rockville Pike (first floor), Rockville, Maryland 20852 and is accessible from the Agencywide Documents Access and Management System's (ADAMS) Public Electronic Reading Room on the Internet at <http://www.nrc.gov/reading-rm/adams.html>. Persons who do not have access to ADAMS or who encounter problems in accessing the documents located in ADAMS should contact the NRC's PDR reference staff at 1-800-397-4209, or by email at pdr@nrc.gov. If a request for a hearing or a petition for leave to intervene is filed within the 60-
