

b/a Pan Pacific Products Company, Civil Action No. CIV-04-158, was lodged on April 6, 2004, with the United States District Court for the Eastern District of Oklahoma.

In this action the United States sought civil penalties and injunctive relief for Defendant's violations of the Oklahoma State Implementation Plan ("SIP") approved pursuant to section 110 of the CAA, 42 U.S.C. 7410, and the Prevention of Significant Deterioration ("PSD") provisions of the CAA, Part C of Title I, 42 U.S.C. 7470-7492, and the regulations promulgated thereunder at 40 CFR 52.21 ("the PSD Rules").

The Consent Decree settles an action brought under section 113 of the Clean Air Act, 42 U.S.C. 7413. The Consent Decree provides that *Dominance Industries, Inc., d/b/a Pan Pacific Products Company*, will pay the United States \$200,000.00 in civil penalties, and perform injunctive relief by installing a control technology system for control of volatile organic compounds ("VOC") emissions on the Fiber Dryer Exhaust Numbers one and two at its Broken Bow, Oklahoma facility.

The Department of Justice will receive, for a period of thirty (30) days from the date of this publication, comments relating to the proposed Consent Decree. Comments should be addressed to the Assistant Attorney General for the Environment and Natural Resources Division, Department of Justice, Washington, DC 20530, and should refer to *United States v. Dominance Industries, Inc., d/b/a Pan Pacific Products Company*, D.J. Ref. #90-5-2-1-07366.

The proposed Consent Decree may be examined at the office of the United States Attorney for the Eastern District of Oklahoma, 1200 West Okmulgee Street, Muskogee, Oklahoma 74401; the Region 6 Office of the Environmental Protection Agency, 1445 Ross Avenue, Dallas, Texas 75202; and the Headquarters Office of the Environmental Protection Agency, 1200 Pennsylvania Avenue, NW., Washington, DC 20460. During the public comment period, the Consent Decree may also be examined on the following Department of Justice Web site, <http://www.usdoj.gov/enrd/open.html>. A copy of the Consent Decree may also be obtained by mail from the Consent Decree Library, P.O. Box 7611, U.S. Department of Justice, Washington, DC 20044-7611, or by faxing or e-mailing a request to Tonia Fleetwood (tonia.fleetwood@usdoj.gov), fax no. (202) 514-0097, phone confirmation number (202) 514-1547. In requesting a copy from the Consent

Decree Library, please enclose a check in the amount of \$7.50 (25 cents per page reproduction costs), payable to the U.S. Treasury.

Benjamin Fisherow,

Deputy Section Chief, Environmental Enforcement Section, Environment and Natural Resources Division.

BILLING CODE 4410-15-M

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice: 04-050]

Notice of Information Collection

AGENCY: National Aeronautics and Space Administration (NASA).

ACTION: Notice of information collection.

SUMMARY: The National Aeronautics and Space Administration, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995 (Pub. L. 104-13, 44 U.S.C. 3506(c)(2)(A)).

DATES: All comments should be submitted within 60 calendar days from the date of this publication.

ADDRESSES: All comments should be addressed to Ms. Nancy Kaplan, Code VE, National Aeronautics and Space Administration, Washington, DC 20546-0001.

FOR FURTHER INFORMATION CONTACT:

Requests for additional information or copies of the information collection instrument(s) and instructions should be directed to Ms. Nancy Kaplan, NASA Reports Officer, NASA Headquarters, 300 E Street SW., Code VE, Washington, DC 20546, (202) 358-1372, nancy.kaplan@nasa.gov.

SUPPLEMENTARY INFORMATION:

I. Abstract

The National Aeronautics and Space Administration (NASA) is initiating a new collection designed to assess current levels of customer satisfaction on an Agency-wide basis in key service areas that are managed as part of the NASA Integrated Information Infrastructure Program. The information collected will establish a baseline for future customer satisfaction surveys, and will identify and assist in the implementation of appropriate corrective measures for improved products and services that meet the needs of NASA customers.

II. Method of Collection

NASA will collect this information electronically via a Web-based survey.

III. Data

Title: NASA Chief Information Officer Customer Satisfaction Survey.

OMB Number: 2700-XXXX.

Type of review: New collection.

Affected Public: Federal Government; business or other for-profit.

Estimated Number of Respondents: 7,000.

Estimated Time Per Response: 20 minutes.

Estimated Total Annual Burden Hours: 2,334.

Estimated Total Annual Cost: \$0.

IV. Request for Comments

Comments are invited on: (1) Whether the proposed collection of information is necessary for the proper performance of the functions of NASA, including whether the information collected has practical utility; (2) the accuracy of NASA's estimate of the burden (including hours and cost) of the proposed collection of information; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on respondents, including automated collection techniques or the use of other forms of information technology.

Comments submitted in response to this notice will be summarized and included in the request for OMB approval of this information collection. They will also become a matter of public record.

Dated: March 29, 2004.

Patricia L. Dunnington,

Chief Information Officer.

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice (04-049)]

Notice of prospective patent license

AGENCY: National Aeronautics and Space Administration.

ACTION: Notice of prospective patent license.

SUMMARY: NASA hereby gives notice that UBE America, Inc., of 55 East 59th Street, 18th Floor, New York, NY 10022, has applied for an exclusive license to practice the invention described in NASA Case Nos. LAR 15834-1-CA, LAR 15834-1-EP, LAR 15834-1-JP, and LAR 15834-1-MX, all of which are

entitled "Composition Of And Method For Making High Performance Resins For Infusion And Transfer Molding Processes," which are assigned to the United States of America as represented by the Administrator of the National Aeronautics and Space Administration. Written objections to the prospective grant of a license should be sent to NASA Langley Research Center. NASA has not yet made a determination to grant the requested license and may deny the requested license even if no objections are submitted within the comment period.

DATES: Responses to this notice must be received by April 29, 2004.

FOR FURTHER INFORMATION CONTACT: Robin W. Edwards, Patent Attorney, Mail Stop 212, NASA Langley Research Center, Hampton, VA 23681-2199, telephone (757) 864-3230; fax (757) 864-9190.

Dated: April 8, 2004.

Keith T. Sefton,

Chief of Staff, Office of the General Counsel.

NATIONAL COMMISSION ON TERRORIST ATTACKS UPON THE UNITED STATES

Public Hearing

ACTION: Notice of public hearing.

SUMMARY: The National Commission on Terrorist Attacks Upon the United States will hold its tenth public hearing on April 13-14, 2004 in Washington, DC. The two-day hearing will examine the performance of law enforcement and the intelligence communities prior to September 11 and evaluate post-9/11 reforms in these areas. The hearing will be open to the public and members of the media. Seating will be provided on a first-come, first-served basis, and doors will open at 8 a.m. Members of the media must register by the close of business on April 9, 2004, by visiting the Commission's Web site, <http://www.9-11commission.gov>. Members of the media, particularly photographers and radio and television broadcasters, also must contact the appropriate Senate Press Gallery for accreditation.

DATES: April 13-14, 2004, 9 a.m. to 4:30 p.m. Press availability to follow.

LOCATION: Hart Senate Office Building, Room 216, Washington, DC, 20510

FOR FURTHER INFORMATION CONTACT: Al Felzenberg or Jonathan Stull at (202) 401-1627, (202) 494-3538 (cellular), or jestull@9-11commission.gov.

SUPPLEMENTARY INFORMATION: Please refer to Public Law 107-306 (November 27, 2002), title VI (Legislation creating the Commission), and the Commission's Web site: <http://www.9-11commission.gov>.

Dated: April 9, 2004.

Philip Zelikow,

Executive Director.

BILLING CODE 8800-01-M

NUCLEAR REGULATORY COMMISSION

Tennessee Valley Authority

[Docket Nos. 50-327 and 50-328]

Sequoyah Nuclear Plant, Units 1 and 2; Notice of Consideration of Issuance of Amendments to Facility Operating License, Proposed No Significant Hazards Consideration Determination, and Opportunity for a Hearing

The Nuclear Regulatory Commission (the Commission) is considering issuance of amendments to Facility Operating License No. DPR-77 and Facility Operating License No. DPR-79 issued to Tennessee Valley Authority (the licensee) for operation of the Sequoyah Nuclear Plant, Units 1 and 2, located in Hamilton County, Tennessee.

The proposed amendments would allow both trains of control room air-conditioning system (CRACS) to be inoperable for up to 7 days provided control room temperatures are verified every 4 hours to be less than or equal to 90 degrees Fahrenheit. If this temperature limit cannot be maintained or if both CRACS trains are inoperable for more than 7 days, requirements of Technical Specification Section (TS) 3.0.3 will be required.

Before issuance of the proposed license amendments, the Commission will have made findings required by the Atomic Energy Act of 1954, as amended (the Act), and the Commission's regulations.

The Commission has made a proposed determination that the amendment request involves no significant hazards consideration. Under the Commission's regulations in Title 10 of the Code of Federal Regulations (10 CFR), Section 50.92, this means that operation of the facility in accordance with the proposed amendments would not (1) involve a significant increase in the probability or consequences of an accident previously evaluated; or (2) create the possibility of a new or different kind of accident from any accident previously evaluated; or (3)

involve a significant reduction in a margin of safety. As required by 10 CFR 50.91(a), the licensee has provided its analysis of the issue of no significant hazards consideration, which is presented below:

1. Does the proposed change involve a significant increase in the probability or consequences of an accident previously evaluated?

No. The proposed change will allow the use of alternate cooling methods in the event both trains of the CRACS are inoperable. The CRACS is used to maintain an acceptable environment for control room equipment and personnel during normal and emergency conditions. This system does not have the potential to create a design basis accident as it only provides control room cooling and does not directly mitigate postulated accidents. Temporary cooling devices will be designed in accordance with appropriate design controls, sized to ensure adequate cooling capability, and located such that safety-related features would not be prevented from performing their safety function. Since the CRACS does not contribute to the initiators of postulated accidents, the probability of an accident is not significantly increased by the proposed change.

The CRACS does ensure a suitable environment for safety-related equipment and personnel during an accident. The temperature limit placed on the proposed action ensures that the control room temperature will remain at acceptable levels to support plant evolutions in response to postulated accidents. Safety functions that are necessary to maintain acceptable offsite dose limits will not be degraded by the proposed change. Alternate cooling methods that will maintain the control room well within the equipment temperature limits will ensure these safety functions. With the control room cooling requirements satisfied, the offsite dose impact is not affected. Therefore, the proposed change does not involve a significant increase in the probability or consequences of an accident previously evaluated.

2. Does the proposed change create the possibility of a new or different kind of accident from any accident previously evaluated?

No. The proposed change will continue to ensure that the control room temperatures will not exceed operability limits for equipment or personnel. The temperature control functions for the control room are not postulated to create an accident and since the proposed change continues to maintain acceptable temperatures, there are no new accident initiators created. The alternate cooling methods to be used will utilize appropriate design, sizing, and location considerations. Implementation of temporary cooling methods will be designed such that safety-related features would not be prevented from performing their safety function and in compliance with 10 CFR 50.59 requirements. Plant will comply with applicable TS requirements. Therefore, the proposed change does not create the possibility of a new or different kind of accident from any previously evaluated.
