**ICR Title:** Compliance Requirement for Child-Resistant Packaging.

**ICR Status:** This is a request for extension of an existing approved collection that is currently scheduled to expire on April 30, 2004. EPA is asking OMB to approve this ICR for three years. Under 5 CFR 1320.12(b)(2), the Agency may continue to conduct or sponsor the collection of information while the submission is pending at OMB.

**Abstract:** This information collection program is designed to provide the Environmental Protection Agency (EPA) with assurances that the packaging of pesticide products sold and distributed to the general public in the United States meets standards set forth by the Agency pursuant to the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA). Registrants must certify to the Agency that the packaging or device meets these standards. Responses to this collection are required in order to obtain pesticide registration. The authority for this information collection is pursuant to section 25 (c)(3) of FIFRA. Compliance regulations are contained in Title 40 of the Code of Federal Regulations (CFR) part 157. CBI submitted to EPA in response to this information collection is protected from disclosure under FIFRA section 10.

**Burden Statement:** The annual "respondent" burden for this ICR is estimated to be 2,109 hours, or 3 hours per response. According to the Paperwork Reduction Act, "burden" means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. For this collection, it is the time spent reading instructions, planning activities, creating information, reviewing data for reliability and accuracy, preparing and submitting the necessary certification statement, and storing, filing, and maintaining the data. The agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control number for this information collection appears at the beginning and the end of this document. In addition OMB control numbers for EPA's regulations, after initial display in the final rule, are listed in 40 CFR part 9.

The following is a summary of the burden estimates taken from the ICR:

**Respondents/affected entities:**

**Estimated total number of potential respondents:** 1,900.

**Frequency of response:** On occasion.

**Estimated total/average number of responses for each respondent:** 2.

**Estimated total annual burden hours:** 2,109.

**Estimated total annual burden costs:** \$155,222.

**Changes in the ICR Since the Last Approval:** The total estimated annual respondent cost for this ICR has increased 1,256 hours (from 853 to 2,109), due mainly to an increase in the number of responses expected. Estimated costs have increased \$100,203 (from \$55,019 to \$155,222) due to an increase in labor rates. These increases are explained more fully in the ICR.

According to the procedures prescribed in 5 CFR 1320.12, EPA has submitted this ICR to OMB for review and approval. Any comments related to the renewal of this ICR should be submitted within 30 days of this notice, as described above.

Dated: April 2, 2004.
