

are mobile carts, one is a mobile trailer mounted unit, and one is a mobile pumpout boat. Two facilities provide portable toilet holding tank dump stations. The majority of pumpout facilities discharge to town sewage systems, the carts and one other facility discharge into storage tanks which a licenced sepage hauler services. In addition, the majority of marinas provide public restrooms for boaters and other clientele.

The State of Connecticut used three different methods to estimate vessel population in the proposed NDA, and used the highest estimate of 3700 in their calculations to determine the number of pumpout facilities needed to adequately serve the boating public. The transient vessel population is estimated to be 200 at any point in time during the

boating season, which is included in the total figure. Of the estimated total of 3700 vessels using this area at any given time, approximately 1300 are of a size that may have sewage holding tanks and need pumpout services. The State has determined that the 13 pumpout facilities currently in service in the proposed NDA are sufficient to meet the potential demand and prevent the discharge of vessel sewage into coastal waters.

The coastline and coastal waters within the proposed NDA contain a variety of rich natural habitats and support a wide diversity of species, providing a range of recreational and commercial activities. There are 25 public beaches, 11 public boat ramps, and 4 parks or wildlife management areas within the proposed NDA. Both

recreational and commercial shell fishermen use the area for the harvest of hard clams, some oysters, and soft shell clams. In addition, fishing is commonplace and the species found in the area are smelt, small cod, flounder, scup, menhaden, and white perch.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Medicare & Medicaid Services

[Document Identifier: CMS-10082 OMB #0938-0898]

Emergency Clearance: Public Information Collection Requirements Submitted to the Office of Management and Budget (OMB)

AGENCY: Centers for Medicare and Medicaid Services, HHS.

In compliance with the requirement of section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995, the Centers for Medicare and Medicaid Services (CMS) (formerly known as the Health Care Financing Administration (HCFA)), Department of Health and Human Services, is publishing the following summary of proposed collections for public comment. Interested persons are invited to send comments regarding this burden estimate or any other aspect of this collection of information, including any of the following subjects: (1) The necessity and utility of the proposed information collection for the proper performance of the agency's functions; (2) the accuracy of the estimated burden; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) the use of automated collection techniques or other forms of information technology to minimize the information collection burden.

We are, however, requesting an emergency review of the information collection referenced below. In compliance with the requirement of section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995, we have submitted to the Office of Management and Budget (OMB) the following requirements for emergency review. We are requesting an emergency review because the collection of this information is needed before the expiration of the normal time limits under OMB's regulations at 5 CFR Part 1320. The unanticipated lapse in the approval of this collection prior to implementation has resulted in the necessity to have the collection reinstated on an emergency basis. The information collection to be reinstated has not been modified from the version submitted to OMB under the regular PRA clearance process and approved on July 28, 2003.

CMS is requesting OMB review and approval of this collection within 15 days from the date of this publication, with an 180-day approval period.
