SUPPLEMENTARY INFORMATION:

Title: Credit Account Approval for Reimbursable Services.

OMB Number: 0579-0055.

Type of Request: Extension of approval of an information collection.

Abstract: The services of a Federal inspector to clear imported and exported agricultural commodities for animal and plant health purposes are paid for by user fees during regular working hours. If an importer wishes to have shipments cleared at other hours, such services will usually be provided on a reimbursable overtime basis, unless already covered by a user fee. Exporters wishing cargo to be certified during nonworking hours may also utilize this procedure.

Many importers and exporters who require inspection services are repeat customers who request that we bill them. We need to collect certain information to conduct a credit check on prospective applicants to ensure creditworthiness prior to extending credit services and to prepare billings. Also, the Debt Collection Improvement Act of 1996, as amended (31 U.S.C. 3332), requires that agencies collect tax identification numbers from all persons doing business with the Government for

purposes of collecting delinquent debts. APHIS Form 192 is used to collect this information and must be completed before credit is extended.

We are asking the Office of Management and Budget (OMB) to approve our use of this information collection for an additional 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning this information collection activity. These comments will help us:

(1) Evaluate whether the information collection is necessary for the proper performance of our agency's functions, including whether the information will have practical utility;

(2) Evaluate the accuracy of our estimate of the burden of the information collection, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies, e.g., permitting electronic submission of responses.

Estimate of burden: The public reporting burden for this collection of information is estimated to average 0.25 hours per response.

Respondents: Importers, exporters, or brokers who wish to set up an account for billing of inspection services provided during nonworking hours.

Estimated annual number of respondents: 256.

Estimated annual number of responses per respondent: 1.

Estimated annual number of responses: 256.

Estimated total annual burden on respondents: 64 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 9th day of April 2004.

Kevin Shea,

Acting Administrator, Animal and Plant Health Inspection Service.

SUPPLEMENTARY INFORMATION:

Title: West Indian Fruit Fly.

OMB Number: 0579-0170.

Type of Request: Extension of approval of an information collection.

Abstract: The Plant Protection Act (7 U.S.C. 7701-7772) authorizes the Secretary of Agriculture, either independently or in cooperation with States, to carry out operations or measures to detect, eradicate, suppress, control, prevent, or retard the spread of plant pests, such as West Indian fruit fly, that are new to or not widely distributed within the United States.

The West Indian fruit fly, *Anastrepha obliqua* (Macquart), is a very destructive pest of fruits and vegetables, including carambola, grapefruit, guava, limes, mangoes, oranges, passion fruit, peaches, and pears. This pest can cause serious economic losses by lowering the yield and quality of these fruits and vegetables and, in some cases, by damaging seedlings and young plants. Heavy infestations can result in complete loss of these crops.

Regulations in 7 CFR 301.98 through 301.98-10 restrict the interstate movement of regulated articles from quarantined areas to prevent the spread of the West Indian fruit fly to noninfested areas of the United States and require the use of certain information collection activities in the form of certificates or limited permits and compliance agreements.

We are asking the Office of Management and Budget (OMB) to approve our use of these information collection activities for an additional 3 years.

The purpose of this notice is to solicit comments from the public (as well as

affected agencies) concerning our information collection. These comments will help us:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of our estimate of the burden of the information collection, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the information collection on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies, e.g., permitting electronic submission of responses.

Estimate of burden: The public reporting burden for this collection of information is estimated to average 1 hour per response.

Respondents: State and county cooperators (inspectors) and producers, handlers, and movers of regulated fruit and vegetables.

Estimated annual number of respondents: 37.

Estimated annual number of responses per respondent: 1.

Estimated annual number of responses: 37.

Estimated total annual burden on respondents: 37 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 9th day of April 2004.
