## General Wage Determination Publication

General wage determinations issued under the Davis-Bacon and Related Acts, including those noted above, may be found in the Government Printing Office (GPO) document entitled "General Wage Determinations Issued Under the Davis-Bacon and Related Acts". This publication is available at each of the 50 Regional Government Depository Libraries and many of the 1,400 Government Depository Libraries across the country.

General wage determinations issued under the Davis-Bacon and Related Acts are available electronically at no cost on the Government Printing Office site at [www.access.gpo.gov/davisbacon](http://www.access.gpo.gov/davisbacon). They are also available electronically by subscription to the Davis-Bacon Online Service (<http://davisbacon.fedworld.gov>) of the National Technical Information Service (NTIS) of the U.S. Department of Commerce at 1-800-363-2068. This subscription offers value-added features such as electronic delivery of modified wage decisions directly to the user's desktop, the ability to access prior wage decisions issued during the year, extensive Help Desk Support, etc.

Hard-copy subscriptions may be purchased from: Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402, (202) 512-1800.

When ordering hard-copy subscription(s), be sure to specify the State(s) of interest, since subscriptions may be ordered for any or all of the six separate volumes, arranged by State. Subscriptions include an annual edition (issued in January or February) which includes all current general wage determinations for the States covered by each volume. Throughout the remainder of the year, regular weekly updates will be distributed to subscribers.

Signed at Washington, DC, this 8th day of April, 2004.

## DEPARTMENT OF LABOR

## Mine Safety and Health Administration

## Hazardous Conditions Complaints

**ACTION:** Notice.

**SUMMARY:** The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burden conducts a pre-clearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act of 1995 (PRA95) (44 U.S.C. 3506 (c)(2)(A)). This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed.

**DATES:** Submit comments on or before June 15, 2004.

**ADDRESSES:** Send comments to Darrin A. King, Chief, Records Management Branch, 1100 Wilson Boulevard, Room 2139, Arlington, VA 22209-3939. Commenters are encouraged to send their comments on computer disk, or via e-mail to [king.darrin@dol.gov](mailto:king.darrin@dol.gov). Mr. King can be reached at (202) 693-9838 (voice), or (202) 693-9801 (facsimile).

**FOR FURTHER INFORMATION CONTACT:** Contact the employee listed in the **ADDRESSES** section of this notice.

**SUPPLEMENTARY INFORMATION:**

## I. Background

Section 103(g) of the Federal Mine Safety and Health Act of 1977 (Pub. L. 95-173, as amended by Pub. L. 95-164) (Mine Act), states that a representative of miners, or any individual miner where this is no miners representative, may submit a written or oral notification of alleged violation of the Mine Act or a mandatory standard or of an imminent danger. Such notification requires the Mine Safety and Health Administration (MSHA) to make an immediate inspection. A copy of the notice must be provided to the operator.

Title 30, Code of Federal Regulations (30 CFR), part 43, implements section 103(g) of the Mine Act. It provides the procedures for submitting notification of the alleged violation and the actions which MSHA must take after receiving the notice. Although the regulation contains a review procedure (required by section 103(g)(2) of the Mine Act) whereby a miner or a representative of miners may in writing request a review

if no citation or order is written as a result of the original notice, the option is so rarely used that it was not considered in the burden estimates.

## II. Desired Focus of Comments

MSHA is particularly interested in comments which:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

A copy of the proposed information collection request can be obtained by contacting the employee listed in the **ADDRESSES** section of this notice or viewed on the Internet by accessing the MSHA home page (<http://www.msha.gov>) and then choosing "Statutory and Regulatory Information" and "Federal Register Documents."

## III. Current Actions

Currently, MSHA is soliciting comments concerning the extension of the information collection requirements related to 30 CFR 43.4 (Requirements for giving notice) and 43.7 (Informal review upon written notice given to an inspector on the mine premises).

*Type of Review:* Extension.

*Agency:* Mine Safety and Health Administration.

*Title:* Hazardous Conditions Complaints.

*OMB Number:* 1219-0014.

*Affected Public:* Business or other for-profit.

*Frequency:* On occasion.

*Number of Respondents:* 1,003.

*Total Burden Hours:* 201.

*Total Burden Cost (capital/startup):* \$0.

*Total Burden Cost (operating/maintaining):* \$0.

Comments submitted in response to this notice will be summarized and/or included in the request for Office of Management and Budget approval of the information collection request; they will also become a matter of public record.

Dated in Arlington, Virginia, this 8th day of April, 2004.

#### Proposed Information Collection Request Submitted for Public Comment and Recommendations; Mine Ventilation System Plan

**ACTION:** Notice.

**SUMMARY:** The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burden conducts a pre-clearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act of 1995 (PRA95) [44 U.S.C. 3506 (c)(2)(A)]. This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed.

Currently, the Mine Safety and Health Administration (MSHA) is soliciting comments concerning the extension of the information collection related to the compliance with standards (30 CFR 57.8520 and 57.8525). The ventilation system is the most vital life support system in underground mining and a properly operating ventilation system is essential for maintaining a safe and healthful working environment. A well planned mine ventilation system is necessary to assure a fresh air supply to miners at all working places, to control the amounts of harmful airborne contaminants in the mine atmosphere, and to dilute possible accumulation of explosive gases. Lack of adequate ventilation in underground mines has resulted in fatalities from asphyxiation and explosions due to a buildup of explosive gases.

**DATES:** Submit comments on or before June 15, 2004.

**ADDRESSES:** Send comments to Darrin A. King, Chief, Records Management Branch, 1100 Wilson Boulevard, Room 2139, Arlington, VA 22209-3939. Commenters are encouraged to send their comments on computer disk, or via

**SUPPLEMENTARY INFORMATION:**

## I. Background

Underground mines present harsh and hostile working environments. The ventilation system is the most vital life support system in underground mining and a properly operating ventilation system is essential for maintaining a safe and healthful working environment. Inadequate ventilation can be a primary factor for deaths caused by disease of the lungs (e.g., silicosis). In addition, poor working conditions from lack of adequate ventilation contribute to accidents resulting from heat stress, limited visibility, or impaired judgment from contaminants.

## II. Desired Focus of Comments

MSHA is particularly interested in comments which:

## III. Current Actions

Currently, the Mine Safety and Health Administration (MSHA) is soliciting comments concerning the proposed extension of the information collection related to ventilation and main fan maintenance.
