

would defeat the purpose of the information collection, violate State or Federal law, or substantially interfere with any agency's ability to perform its statutory obligations. The Leader, Regulatory Information Management Group, Office of the Chief Information Officer, publishes that notice containing proposed information collection requests prior to submission of these requests to OMB. Each proposed information collection, grouped by office, contains the following: (1) Type of review requested, e.g. new, revision, extension, existing or reinstatement; (2) title; (3) summary of the collection; (4) description of the need for, and proposed use of, the information; (5) respondents and frequency of collection; and (6) reporting and/or recordkeeping burden. OMB invites public comment. The Department of Education is especially interested in public comment addressing the following issues: (1) Is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology.

Dated: April 12, 2004.

Angela C. Arrington,

Leader, Regulatory Information Management Group, Office of the Chief Information Officer.

Office of Management

Type of Review: Reinstatement.

Title: Performance Based Data Management Initiative.

Frequency: Annually.

Affected Public: State, local, or tribal gov't, SEAs or LEAs.

Reporting and Recordkeeping Hour Burden:

Responses: 66,052.

Burden Hours: 288,480.

Abstract: The Performance Based Data Management Initiative (PBDMI) is in the first phase of a multiple year effort to consolidate the collection of education information about States, Districts, and Schools in a way that improves data quality and reduces paperwork burden for all of the national education partners.

Requests for copies of the proposed information collection request may be accessed from <http://edicsweb.ed.gov>, by selecting the "Browse Pending Collections" link and by clicking on link number 2529. When you access the information collection, click on "Download Attachments" to view. Written requests for information should be addressed to Vivian Reese, Department of Education, 400 Maryland Avenue, SW., Room 4050, Regional Office Building 3,

Washington, DC 20202-4651 or to the e-mail address vivian_reese@ed.gov. Requests may also be electronically mailed to the Internet address OCIO_RIMG@ed.gov or faxed to (202) 708-9346. Please specify the complete title of the information collection when making your request.

Comments regarding burden and/or the collection activity requirements should be directed to Joe Schubart at his e-mail address Joe_Schubart@ed.gov. Individuals who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339.

BILLING CODE 4000-01-P

DEPARTMENT OF EDUCATION

National Institute on Disability and Rehabilitation Research (NIDRR); Notice of Extension

AGENCY: Office of Special Education and Rehabilitative Services, Department of Education.

ACTION: Notice of extension of project period and waiver for the National Center for the Dissemination of Disability Research (NCDDR) Project.

SUMMARY: The Secretary waives the requirements in Education Department General Administrative Regulations (EDGAR), at 34 CFR 75.250 and 75.261(a) and (c)(2), respectively, that generally prohibit project periods exceeding 5 years and project period extensions involving the obligation of additional Federal funds. This extension of project period and waiver will enable a Disability and Rehabilitation Research Project (DRRP) that conducts research on issues relating to the dissemination and utilization of research results developed through NIDRR grants and contracts to receive funding from October 1, 2004, until September 30, 2005.

EFFECTIVE DATE: This notice is effective May 17, 2004.

FOR FURTHER INFORMATION CONTACT:

Donna Nangle, U.S. Department of Education, 400 Maryland Avenue, SW., room 3412, Switzer Building, Washington, DC 20202-2645. Telephone: (202) 205-5880 or via Internet: donna.nangle@ed.gov.

If you use a telecommunications device for the deaf (TDD), you may call the TDD number at (202) 205-4475.

Individuals with disabilities may obtain this document in an alternative format (e.g., Braille, large print, audiotape, or computer diskette) on request to the contact person listed under **FOR FURTHER INFORMATION CONTACT**.

SUPPLEMENTARY INFORMATION: NIDRR supports the goals of the President's New Freedom Initiative (NFI) and the National Institute on Disability and Rehabilitation Research Long Range Plan (Plan) to improve rehabilitation services and outcomes for individuals with disabilities.

Note: The NFI can be accessed on the Internet at the following site: <http://www.whitehouse.gov/news/freedominitiative/freedominitiative.htm>.

The Plan can be accessed on the Internet at the following site: <http://www.ed.gov/rschstat/research/pubs/index.html>.

In accordance with the goals of the NFI and the Plan, and as authorized under section 204(a)(1) of the Rehabilitation Act of 1973, as amended, through NIDRR, the Department provides funding for projects to improve services and outcomes for individuals with disabilities. In order to foster more efficient use of Federal funds for the DRRP program, the Secretary intends to refocus the priorities for dissemination and utilization of research results and provide funding for new awards in fiscal year (FY) 2005.

The grant for the NCDDR currently administered by the Southwest Educational Development Laboratory, Austin, Texas, is scheduled to expire September 30, 2004. It would be contrary to the public interest, however, to have any lapse in the research and related activities conducted by NCDDR before the refocused priorities can be implemented and new awards granted for FY 2005.

To avoid any lapse in research and related activities before the refocused priorities can be implemented, therefore, the Secretary has decided to fund this project until September 30, 2005. Accordingly, the Secretary waives the requirements in 34 CFR 75.250 and 75.261(a) and (c)(2), which prohibit project periods exceeding 5 years and extensions of project periods that involve the obligation of additional Federal funds.

Waiver of Proposed Rulemaking

Under the Administrative Procedure Act (5 U.S.C. 553) the Department generally offers interested parties the opportunity to comment on proposed regulations. However, the waiver of the requirements in 34 CFR 75.250 and 75.261 applicable to the maximum project period and extension of the project period for these grants on a one-time only basis is procedural and does not establish new substantive policy. Therefore, under 5 U.S.C. 553(b)(A), proposed rulemaking is not required.

In addition, given the fact that the additional period of funding is only for

a period of 12 months from the expiration of the existing grant agreement in September 2004, and affects only the potential lapse in funding for the above-mentioned project, the Secretary has determined that proposed rulemaking on this waiver is impracticable, unnecessary, and contrary to the public interest. Thus, proposed rulemaking also is not required under 5 U.S.C. 553(b)(B).

Regulatory Flexibility Act Certification

The Secretary certifies that this extension of the project period and waiver will not have a significant economic impact on a substantial number of small entities.

BILLING CODE 4000-01-P

DEPARTMENT OF ENERGY

[Docket No. EA-97-C]

Application To Export Electric Energy; Portland General Electric Company

AGENCY: Office of Fossil Energy, DOE.

ACTION: Notice of application.

SUMMARY: Portland General Electric Company ("PGE") has applied for renewal of its authority to transmit electric energy from the United States to Canada pursuant to section 202(e) of the Federal Power Act.

DATES: Comments, protests or requests to intervene must be submitted on or before May 17, 2004.

ADDRESSES: Comments, protests or requests to intervene should be addressed as follows: Office of Coal & Power Import/Export (FE-27), Office of Fossil Energy, U.S. Department of Energy, 1000 Independence Avenue, SW., Washington, DC 20585-0350 (fax 202-287-5736).

FOR FURTHER INFORMATION CONTACT:

Rosalind Carter (Program Office), 202-586-67983 or Michael Skinker (Program Attorney), 202-586-2793.

SUPPLEMENTARY INFORMATION: Exports of electricity from the United States to a foreign country are regulated and require authorization under section 202(e) of the Federal Power Act (FPA) (16 U.S.C. 824a(e)).

On April 29, 1994, the Office of Fossil Energy (FE) of the Department of Energy (DOE) authorized PGE to transmit electric energy from the United States to Canada using the international transmission facilities of the Bonneville Power Administration. Amendments to this authorization were granted on February 9, 1996 (Order EA-97-A), and again on March 5, 1998 (Order EA-97-B). Order EA-97-B expired on March 5, 2003.

On February 26, 2004, PGE filed an application with FE for renewal of its export authority and requested that the maximum rate of transmission of its exports be increased from 400 megawatts (MW) to 600 MW and that the authorization be granted for a 10-year period beginning on April 1, 2003.

PGE asserted that it was not able to apply for a renewal of its export authorization before the expiration of Order EA-97-B due to numerous factors, including disruptions to routine filing and reporting obligations resulting from the bankruptcy reorganization of PGE's parent company, Enron. PGE also indicated that it had continued to export electricity to Canada after the expiration date of Order EA-97-B.

Procedural Matters: Any person desiring to become a party to this proceeding or to be heard by filing comments or protests to this application should file a petition to intervene, comment or protest at the address provided above in accordance with §§ 385.211 or 385.214 of the FERC's Rules of Practice and Procedures (18 CFR 385.211, 385.214). Fifteen copies of each petition and protest should be filed with the DOE on or before the date listed above.

Comments on the PGE application to export electric energy to Canada should be clearly marked with Docket EA-97-

C. Additional copies are to be filed directly with Ms. Loretta Mabinton, Assistant General Counsel, Portland General Electric Company, 121 SW. Salmon Street, Portland, OR 97204.

DOE notes that the circumstances described in this application are virtually identical to those for which export authority had previously been granted in FE Orders EA-97. Consequently, DOE believes that it has adequately satisfied its responsibilities under the National Environmental Policy Act of 1969 through the documentation of a categorical exclusion in the FE Docket EA-97 proceeding.

Copies of this application will be made available, upon request, for public inspection and copying at the address provided above or by accessing the Fossil Energy home page at <http://www.fe.doe.gov>. Upon reaching the Fossil Energy home page, select "Electricity Regulation," and then "Pending Proceedings" from the options menus.

Issued in Washington, DC, on April 5, 2004.

Anthony J. Como,

Deputy Director, Electric Power Regulation, Office of Coal & Power Import/Export, Office of Coal & Power Systems, Office of Fossil Energy.

BILLING CODE 6450-01-P

DEPARTMENT OF ENERGY

Recommendations for Sequencing Targets in Support of the Science Missions of the Office of Biological and Environmental Research (BER)

AGENCY: Office of Science; Office of Biological and Environmental Research; U.S. Department of Energy (DOE).

ACTION: Notice of recommendations for sequencing targets.

SUMMARY: This **Federal Register** notice seeks the input and nominations of interested parties for candidate microbes, microbial consortia, and 250Mb-or-less-sized organisms for draft genomic sequencing in support of Office of Biological and Environmental Research (BER) programs, among them, the Climate Change Research Program, the Natural and Accelerated Bioremediation Research (NABIR) Program, the Environmental Management Science Program (EMSP), the Microbial Genome Program (MGP), the Ocean Science Program, and the Genomics: GTL Program. Nominated candidates should be relevant to DOE mission needs, e.g., organisms involved
