Information Collection Requests

1. *Title:* Standard Numbering System for Undocumented Vessels.

OMB Control Number: 1625-NEW.

Summary: The Standard Numbering System collects information on undocumented vessels and vessel owners operating on waters subject to the jurisdiction of the United States. Federal, State, and local law enforcement agencies use information from the system for enforcement of boating laws or theft and fraud investigations. Since the September 11, 2001 terrorist attacks on the United States, the need has increased for identification of undocumented vessels to meet port security and other missions to safeguard the homeland.

Need: Subsection 12301(a) of Title 46, United States Code, requires undocumented vessels equipped with propulsion machinery of any kind to be numbered in the State where the vessel is principally operated. In 46 U.S.C. 12302(a), Congress authorized the Secretary to prescribe, by regulation, a Standard Numbering System (SNS). The Secretary shall approve a State numbering system if that system is consistent with the SNS. The Secretary has delegated his authority under 46 U.S.C. 12301 and 12302 to Commandant of the U.S. Coast Guard. DHS Delegation No. 0170.1. The regulations requiring the numbering of undocumented vessels are in 33 CFR part 173, and regulations establishing the SNS for States to voluntarily carry out this function are contained in part 174.

In States that do not have an approved system, the Federal Government (U.S. Coast Guard) must administer the vessel numbering system. Currently, all 56 States and Territories have approved numbering systems. The approximate number of undocumented vessels registered by the States in 2002 was nearly 13 million.

The SNS collects information on undocumented vessels and vessel owners. States submit reports annually to the Coast Guard on the number, size,

construction, etc., of vessels they have numbered. That information is used by the Coast Guard in (1) publication of an annual "Boating Statistics" report required by 46 U.S.C. 6102(b), and (2) for allocation of Federal funds to assist States in carrying out the Recreational Boating Safety (RBS) Program established by 46 U.S.C. chapter 131.

On a daily basis or as warranted, Federal, State, and local law enforcement personnel use SNS information from the States' numbering systems for enforcement of boating laws or theft and fraud investigations. In addition, when encountering a vessel suspected of illegal activity, information from the SNS increases officer safety by assisting boarding officers in determining how best to approach a vessel. Since, the September 11, 2001 terrorist attacks on the United States, the need has increased for identification of undocumented vessels and their owners for port security and other missions to safeguard the homeland, although the statutory requirement for numbering of vessels dates back to 1918.

Respondents: Owners of all undocumented vessels propelled by machinery are required by Federal law to apply for a number from the issuing authority of the State in which the vessel is to be principally operated. In addition, States may require other vessels, such as sailboats or even canoes and kayaks, to be numbered. "Owners" may include individuals or households, non-profit organizations, and small businesses (e.g., liveries that offer recreational vessels for rental by the public) or other for-profit organizations.

Frequency: On occasion.

Burden Estimates: The estimated burden is 15,507 hours a year.

Dated: April 14, 2004.

RADM, Assistant Commandant for C4 and Information Technology.

Notice of Availability of the Draft Supplemental Environmental Impact Statement for the Flood Control Master Plan, Clark County Regional Flood Control District, NV

AGENCY: Bureau of Land Management, Interior.

Cooperating Agency: U.S. Army Corps of Engineers, Sacramento District.

ACTION: Notice of Availability of the Draft Supplemental Environmental Impact Statement (Draft SEIS) for the Flood Control Master Plan, Clark County Regional Flood Control District (CCRFCDD).

SUMMARY: Pursuant to the National Environmental Policy Act of 1969 and the Federal Land Policy and Management Act of 1976, the Bureau of Land Management (BLM) has prepared a Draft SEIS of the Final Environmental Impact Statement for the Flood Control Master Plan, Clark County Regional Flood Control District, approved June 4, 1991, by record of Decision. This Draft SEIS was prepared to describe the potential environmental effects of construction and operation of flood control facilities encompassing private and public lands within in the Las Vegas Valley and Boulder City by the Clark County Regional Flood Control District for the next ten-year period.

Due to changes in Federal regulations, regional growth, flooding history, and CCRFCDD project changes and objectives that have occurred since 1991, this Draft SEIS was also prepared for the CCRFCDD's Master Plan to update the 1991 FEIS. This document will also assess impacts associated with the implementation of the Master Plan and subsequent updates.

DATES: Written comments on the Draft SEIS will be accepted for 60 days following the date of publication of the Notice of Availability by the Environmental Protection Agency in the **Federal Register**. Future meetings or hearings and any other public involvement activities will be announced at least 15 days in advance through public notices, media news releases, and/or mailings.

ADDRESSES: You may submit comments by any of the following methods:

- *Web Site:* www.blm.nv.gov.
- *E-mail:* agarcia@nv.blm.gov.
- *Fax:* (702) 515-5010.
- *Mail:* Bureau of Land Management, Las Vegas Field Office, 4701 North Torrey Pines Drive, Las Vegas, NV 89130-2301.

Individual respondents may request confidentiality. If you wish to withhold your name or street address from public review or from disclosure under the Freedom of Information Act, you must state this prominently at the beginning of your written comment. Such requests will be honored to the extent allowed by law. All submissions from organizations and businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, will be available for public inspection in their

entirety. Copies of the Draft Supplemental Environmental Impact Statement for the Flood Control Master Plan, Clark County Regional Flood Control District are available in the Las Vegas Field Office at the above address.

FOR FURTHER INFORMATION CONTACT: For further information and/or to have your name added to our mailing list, contact Adrian A. Garcia, BLM, Las Vegas Field Office, telephone (702) 515-5089; email agarcia@nv.blm.gov, of Jeff Steinmitz at (702) 515-5097; e-mail jsteinme@nv.blm.gov.

SUPPLEMENTARY INFORMATION: The changing needs and interests of the public and the growth within the Las Vegas Valley necessitates a revision to the Flood Control Master Plan FEIS. Preliminary issues and management concerns have been identified by BLM and CCRFCDD, their consultant, and other agencies, and represent the BLM's current information on existing issues and management concerns. The major issue themes that will be addressed in the Draft SEIS include: Impacts to surface water hydrology and water quality; protection of federally-listed species, State-listed species, and BLM sensitive species; minimizing impacts to air quality; minimizing visibility impacts; balancing conflicting and compatible land uses; protection of cultural and paleontological resources; cumulative impacts of the project; and the creation of a new project-specific analysis procedure for future flood control facilities.
