

The applicant estimates that longline trips would average 4,470 lb (2,027.6 kg) of haddock and less than 300 lb (136.1 kg) of cod daily. Jig trips are estimated to land a maximum of 2,000 lb (907.2 kg) of haddock and less than 100 lb (45.4 kg) of cod daily. All fish landed would be subject to the minimum size. Although the applicant would be exempt from the haddock trip limits, they would not be exempt from the cod trip limit requirements.

REMSA scientific staff would be present on board each participating vessel, equating to 100-percent scientific data collector coverage for this experimental fishery. Scientific data collectors would be responsible for collecting all biological and environmental data on NMFS observer forms. CCCHFA would develop a full report of results and would submit this information to the Regional Office monthly. The EFPs would contain a provision that the RA has the authority to discontinue the proposed experimental fishery at any time, e.g., the RA would terminate the EFP should the individual closed area TACs, or the overall TACs of 39.4 mt for GB cod and 788 mt for GB haddock, be exceeded.

A draft EA has been prepared that analyzes the impacts of the proposed experimental fishery on the human environment. This draft EA concludes that the activities proposed to be conducted under the requested EFPs are consistent with the goals and objectives of the FMP, would not be detrimental to the well-being of any stocks of fish harvested, and would have no significant environmental impacts. The draft EA also concludes that the proposed experimental fishery would not be detrimental to Essential Fish Habitat, marine mammals, or protected species.

EFPs would be issued to up to 31 vessels exempting them from portions of the Rolling Closure Area III, Cashes Ledge Closure Area, WGOM, GB CA I, and GB CA II, the haddock trip limit, and the 3,600-hook-limit restrictions of the FMP.

Regulations under the Magnuson-Stevens Fishery Conservation and Management Act require publication of this notification to provide interested parties the opportunity to comment on applications for proposed EFPs.

Authority: Authority: 16 U.S.C. 1801 *et seq.*

Dated: April 19, 2004.

Alan D. Risenhoover,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.
