[Docket No. FV-04-331]

United States Standards for Grades of Canned Beets, United States Standards for Grades of Canned Carrots, and United States Standards for Grades of Canned Potatoes

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Notice.

SUMMARY: The United States Standards for Grades of Canned Beets, United States Standards for Grades of Canned Carrots, and United States Standards for Grades of Canned White Potatoes were corrected to affect a change in Table IA of each of the standards to reflect current values in the Recommended Minimum Drained Weights, Metric System. The change is identified by the date April 2003 in each of the Tables.

FOR FURTHER INFORMATION CONTACT: Chere L. Shorter, (202) 720-5021, or e-mail chere.shorter@usda.gov.

SUPPLEMENTARY INFORMATION: A Notice was published in the **Federal Register**, (63 FR 127 pages 36201-36202) dated July 2, 1998, revising the United States Standards for Grades of Canned Beets, United States Standards for Grades of Canned Carrots, and United States Standards for Grades of Canned Potatoes, effective August 3, 1998. However, the Recommended Minimum Drained Weight tables, (Metric version), in each of the grade standards contained incorrect values. Accordingly, Table IA of each U.S. grade standard was corrected April 2003 to reflect the change.

Corrected copies of the U.S. grade standards are located on the website at www.ams.usda.gov/fv/ppb.html and are available from Standardization Section, Processed Products Branch, Fruit and Vegetable Programs, Agricultural

Marketing Service, U.S. Department of Agriculture, 1400 Independence Avenue SW., Room 0709, South Building; STOP 0247, Washington, DC 20250; telephone: (202) 720-5021 or fax (202) 690-1527.

Authority: 7 U.S.C. 1621-1627.

Dated: April 19, 2004.

A.J. Yates,

Administrator, Agricultural Marketing Service.

Animal and Plant Health Inspection Service

[Docket No. 04-035-1]

Availability of an Environmental Assessment for Field Testing Marek's Disease—Newcastle Disease Vaccine, Serotypes 2 and 3, Live Herpesvirus Vector

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Notice of availability and request for comments.

SUMMARY: We are advising the public that the Animal and Plant Health Inspection Service has prepared an environmental assessment concerning authorization to ship for the purpose of field testing, and then to field test, an unlicensed Marek's Disease—Newcastle Disease Vaccine for use in chickens. The environmental assessment, which is based on a risk analysis prepared to assess the risks associated with the field testing of this vaccine, examines the potential effects that field testing this veterinary vaccine could have on the quality of the human environment. Based on the risk analysis, we have reached a preliminary determination that field testing this veterinary vaccine will not have a significant impact on the quality of the human environment, and that an environmental impact statement need not be prepared. We intend to authorize shipment of this vaccine for field testing following the close of the comment period for this notice unless new substantial issues bearing on the effects of this action are brought to our attention. We also intend to issue a U.S. Veterinary Biological Product license for this vaccine, provided the field test data support the conclusions of the

environmental assessment and the issuance of a finding of no significant impact and the product meets all other requirements for licensing.

DATES: We will consider all comments that we receive on or before May 24, 2004.

ADDRESSES: You may submit comments by any of the following methods:

- *Postal Mail/Commercial Delivery:*

Please send four copies of your comment (an original and three copies) to Docket No. 04-035-1, Regulatory Analysis and Development, PPD, APHIS, Station 3C71, 4700 River Road Unit 118, Riverdale, MD 20737-1238. Please state that your comment refers to Docket No. 04-035-1.
