

All applications which are complete and conform to the requirements of this program announcement will be subject to a competitive review and evaluation against the specific competitive grant evaluation criteria. This review will be conducted in Washington, D.C., by panels of non-Federal experts knowledgeable in the areas of runaway and homeless youth, youth development and human services. The overall panel review process is managed by Federal staff.

Application review panels will assign a score (maximum score of 100) to each application, identifying its strengths and weaknesses based on the application's responsiveness to the evaluation criteria. Central and Regional Office staff will conduct administrative reviews of those applications within funding range. After all reviews have been completed, FYSB staff will recommend the applications for funding to the Commissioner, ACYF.

In cases where more applications are approved for funding that ACF can fund with the money available, the Grants Officer shall fund application in their order of approval until funds run out. In this case, ACF has the option of carrying over the approved application up to a year for funding consideration in a later competition of the same program. These applications need not be reviewed and scored again if the program's evaluation criteria has not changed. However, they must then be placed in rank order along with other applications in later competition.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Administration for Children and Families

Funding Opportunity Title: CSBG T/TA Program—Train the Trainers

AGENCY: Administration for Children and Families, Office of Community Services, HHS.

Announcement Type: Competitive Grant-Initial.

Funding Opportunity Number: HHS-2004-ACF-OCS-ET-0008.

CFDA Number: 93.570.

Due Date for Applications: The due date for receipt of applications is June 11, 2004.

I. Funding Opportunity Description

The Office of Community Services (OCS) within the Administration for Children and Families (ACF) announces that competing applications will be accepted for a new grant pursuant to the Secretary's authority under section 674(b) of the Community Services Block Grant (CSBG) Act, as amended, by the Community Opportunities, Accountability, and Training and Educational Services (COATES) Human Services Reauthorization Act of 1998, (Pub. L. 105-285).

The proposed grant will fund a continuation of the "train-the-trainers" approach to helping States and local CSBG eligible entities sustain and advance their implementation of Results Oriented Management and Accountability, or ROMA in support of a national community action goal ("Agencies Increase their Capacity to Achieve Results").

Definitions of Terms

The following definitions apply:

At-Risk Agencies refers to CSBG eligible entities in crises. The problem(s) to be addressed must be of a complex or pervasive nature that cannot be adequately addressed through existing local or State resources.

Capacity-building refers to activities that assist Community Action Agencies (CAAs) and other eligible entities to improve or enhance their overall or specific capability to plan, deliver, manage and evaluate programs efficiently and effectively to produce intended results for low-income individuals. This may include upgrading internal financial management or computer systems, establishing new external linkages with other organizations, improving board functioning, adding or refining a program component or replicating techniques or programs piloted in another local community, or making other cost effective improvements.

Community in relationship to broad representation refers to any group of individuals who share common distinguishing characteristics including residency, for example, the "low-income" community, or the "religious" community or the "professional" community. The individual members of these "communities" may or may not reside in a specific neighborhood, county or school district but the local service provider may be implementing programs and strategies that will have a measurable affect on them. Community in this context is viewed within the framework of both community conditions and systems, *i.e.*, (1) public policies, formal written and unstated norms adhered to by the general population; (2) service and support systems, economic opportunity in the labor market and capital stakeholders; (3) civic participation; and (4) an equity as it relates to the economic and social distribution of power.

Community Services Network (CSN) refers to the various organizations involved in planning and implementing programs funded through the Community Services Block Grant or providing training, technical assistance or support to them. The network

includes local Community Action Agencies and other eligible entities; State CSBG offices and their national association; CAA State, regional and national associations; and related organizations which collaborate and participate with Community Action Agencies and other eligible entities in their efforts on behalf of low-income people.

Eligible applicants described in this announcement shall be eligible entities, organizations, (including faith based) or associations with demonstrated expertise in providing training to individuals and organizations on methods of effectively addressing the needs of low-income families and communities. See description of Eligible Entities below.

Eligible entity means any organization that was officially designated as a Community Action Agency (CAA) or a community action program under Section 673(1) of the Community Services Block Grant Act, as amended by the Human Services Amendments of 1994 (Pub. L. 103-252), and meets all the requirements under Sections 673(1)(A)(I), and 676A of the CSBG Act, as amended by the Coats Human Services Reauthorization Act of 1998. All eligible entities are current recipients of Community Services Block Grant funds, including migrant and seasonal farm worker organizations that received CSBG funding in the previous fiscal year.

Local service providers are local public or private non-profit agencies that receive Community Services Block Grant funds from States to provide services to, or undertake activities on behalf of, low-income people.

Nationwide refers to the scope of the technical assistance, training, data collection, or other capacity-building projects to be undertaken with grant funds. Nationwide projects must provide for the implementation of technical assistance, training or data collection for all or a significant number of States, and the local service providers who administer CSBG funds.

Non-profit Organization refers to an organization, including faith-based, which has "demonstrated experience in providing training to individuals and organizations on methods of effectively addressing the needs of low income families and communities." Acceptable documentation for eligible non-profit status is limited to: (1) A copy of a current, valid Internal Revenue service tax exemption certificate; (2) a copy of the applicant organization's listing in the Internal Revenue Service's most recent list of tax-exempt organizations described in Section 501(c)(3) of the IRS

code; and/or (3) Articles of incorporation bearing the seal of the State in which the corporation or association is domiciled.

Outcome Measures are definable changes in the status or condition of individuals, families, organizations, or communities as a result of program services, activities, or collaborations.

Performance Measurement is a tool used to objectively assess how a program is accomplishing its mission through the delivery of products, services, and activities.

Program technology exchange refers to the process of sharing expert technical and programmatic information, models, strategies and approaches among the various partners in the Community Services Network. This may be done through written case studies, guides, seminars, technical assistance, and other mechanisms.

Regional Networks refers to CAA State Associations within a region.

Results-Oriented Management and Accountability (ROMA) System: ROMA is a system, which provides a framework for focusing on results for local agencies funded by the Community Services Block Grant Program. It involves setting goals and strategies and developing plans and techniques that focus on a result-oriented performance based model for management.

State means all of the 50 States and the District of Columbia. Except where specifically noted, for purposes of this program announcement, it also includes specified Territories.

State CSBG Lead Agency (SCLA) is the lead agency designated by the Governor of the State to develop the State CSBG application and to administer the CSBG Program.

Statewide refers to training and technical assistance activities and other capacity building activities undertaken with grant funds that will have significant impact, i.e. activities should impact at least 50 percent of the eligible entities in a State.

Technical assistance is an activity, generally utilizing the services of an expert (often a peer), aimed at enhancing capacity, improving programs and systems, or solving specific problems. Such services may be provided proactively to improve systems or as an intervention to solve specific problems.

Territories refer to the Commonwealth of Puerto Rico and American Samoa for the purpose of this announcement.

Training is an educational activity or event which is designed to impart knowledge, understanding, or increase the development of skills. Such training

activities may be in the form of assembled events such as workshops, seminars, conferences or programs of self-instructional activities.

Program Purpose, Scope and Focus

The Office of Community Services (OCS) intends to support the continuation of the "train-the-trainers" approach to helping States and local eligible entities sustain and advance their implementation of Results Oriented Management and Accountability, or ROMA. By spreading the training capacity and making available a group of trained trainers in almost every State over the past three years, almost all community action agencies have now had access to basic ROMA training.

Over the next four years, OCS will support both training of new ROMA trainers among States that do not have "certified" trainers at this time, or that are in need of replacement trainers or an expanded cadre of certified trainers to hasten or improve ROMA performance. The successful applicant will demonstrate in their application a strong and effective history of teaching community action officials how to train others in ROMA concepts and techniques. The successful applicant will also summarize their course curriculum and indicate the results of using that curriculum in terms of: (1) Numbers of trainers "certified;" (2) Numbers of States using trainers to extend ROMA training to local community action agencies; and (3) Evidence of improved administration, programs, and outcomes as a result of ROMA implementation.

Applicants must describe how they will provide follow-up assistance to trainers, including consultation and sharing of new and updated information on training techniques and content.

In addition to training and certifying additional ROMA trainers, OCS intends that the successful applicant will undertake the following activities during the course of the four-year grant period:

1. The creation and maintenance of a national "trainer network" that permits routine sharing of information, experiences, materials, and technical assistance among certified ROMA trainers;

2. The development and implementation of one or more OCS-sponsored ROMA conferences and training sessions for Federal agencies that administer major programs that serve low-income households and communities, including but not limited to programs within the following

Federal cabinet level Departments and agencies:

- Health and Human Services;
- Housing and Urban Development;
- Labor;
- Agriculture;
- Transportation;
- Justice;
- Education;
- Internal Revenue Service; and
- Social Security Administration.

The purpose of these sessions would be to encourage coordinated performance-based management practices among programs at the local level to help agencies achieve common results among low-income households and communities.

3. The development of a second curriculum supporting the implementation of ROMA in the Community Action network. This curriculum would provide specific management practices and the application of ROMA tools to integrate ROMA into the management and administration of community action programs and services.

4. Intergovernmental Review

State Single Point of Contact (SPOC)

This program is covered under Executive Order 12372, "Intergovernmental Review of Federal Programs," and 45 CFR Part 100, "Intergovernmental Review of Department of Health and Human Services Programs and Activities." Under the Order, States may design their own processes for reviewing and commenting on proposed Federal assistance under covered programs. As of October 1, 2003, the following jurisdictions have elected not to participate in the Executive Order process. Applicants from these jurisdictions or for projects administered by federally-recognized Indian Tribes need take no action in regard to E.O. 12372:

All States and Territories except Alabama, Alaska, Arizona, Colorado, Connecticut, Hawaii, Idaho, Indiana, Kansas, Louisiana, Massachusetts, Minnesota, Montana, Nebraska, New Jersey, New York, Ohio, Oklahoma, Oregon, Pennsylvania, South Dakota, Tennessee, Vermont, Virginia, Washington, Wyoming and Palau have elected to participate in the Executive Order process and have established Single Points of Contact (SPOCs). Applicants from these twenty-seven jurisdictions need take no action.

Although the jurisdictions listed above no longer participate in the process, entities which have met the eligibility requirements of the program are still eligible to apply for a grant even if a State, Territory, Commonwealth, etc. does not have a SPOC. All remaining jurisdictions participate in the Executive Order process and have established SPOCs. Applicants from participating jurisdictions should contact their SPOCs as soon as possible to alert them of the prospective applications and receive instructions. Applicants must submit any required material to the SPOCs as soon as possible so that the program office can obtain and review SPOC comments as part of the award process. The applicant must submit all required materials, if any, to the SPOC and indicate the date of this submittal (or the date of contact if no submittal is required) on the Standard Form 424, item 16a. Under 45 CFR 100.8(a)(2), a SPOC has 60 days from the application deadline to comment on proposed new or competing continuation awards.

SPOCs are encouraged to eliminate the submission of routine endorsements as official recommendations. Additionally, SPOCs are requested to clearly differentiate between mere

advisory comments and those official State process recommendations which may trigger the "accommodate or explain" rule.

When comments are submitted directly to ACF, they should be addressed to: Department of Health and Human Services, Administration for Children and Families, Division of Discretionary Grants, 370 L'Enfant Promenade, SW., Mail Stop 6C-462, Washington, DC 20447.

A list of the Single Points of Contact for each State and Territory is included with the application materials for this announcement.

5. Funding Restrictions

Sub-Contracting or Delegating Projects

Instructions: ACF Uniform Project Description (UPD)

The following are instructions and guidelines on how to prepare the "project summary/abstract" and "Full Project Description" sections of the application. Under the evaluation criteria section, note that each criterion is preceded by the generic evaluation requirement under the ACF Uniform Project Description (UPD). The UPD was approved by the Office of Management and Budget (OMB), control Number 0970-0139, expiration date 12/31/2003. The generic UPD requirement is followed by the evaluation criterion specific to the Community Services Block Grant legislation.

Purpose

The project description provides a major means by which an application is evaluated and ranked to compete with other applications for available assistance. The project description should be concise and complete and should address the activity for which

Federal funds are being requested. Supporting documents should be included where they can present information clearly and succinctly. In preparing your project description, all information requested through each specific evaluation criteria should be provided. Awarding offices use this and other information in making their funding recommendations. It is important, therefore, that this information be included in the application.

Introduction

Applicants required to submit a full project description shall prepare the project description statement in accordance with the following instructions and the specified evaluation criteria. The instructions give a broad overview of what your project description should include while the evaluation criteria expands and clarifies more program-specific information that is needed.

Project Summary/Abstract

Provide a summary of the project description (a page or less) with reference to the funding request.

Objectives and Need for Assistance

Clearly identify the physical, economic, social, financial, institutional, and/or other problem(s) requiring a solution. The need for assistance must be demonstrated and the principal and subordinate objectives of the project must be clearly stated; supporting documentation, such as letters of support and testimonials from concerned interests other than the applicant, may be included. Any relevant data based on planning studies should be included or referred to in the endnotes/footnotes. Incorporate demographic data and participant/beneficiary information, as needed. In developing the project description, the applicant may volunteer or be requested to provide information on the total range of projects currently being conducted and supported (or to be initiated), some of which may be outside the scope of the program announcement.

Results or Benefits Expected

Identify the results and benefits to be derived. For example, describe the population to be served by the program and the number of new jobs that will be targeted to the target population. Explain how the project will reach the targeted population, how it will benefit participants including how it will support individuals to become more economically self-sufficient.

Approach

Outline a plan of action which describes the scope and detail of how the proposed work will be accomplished. Account for all functions or activities identified in the application. Cite factors which might accelerate or decelerate the work and state your reason for taking the proposed approach rather than others. Describe any unusual features of the project such as design or technological innovations, reductions in cost or time, or extraordinary social and community involvement.

Provide quantitative monthly or quarterly projections of the accomplishments to be achieved for each function or activity in such terms as the number of people to be served and the number of activities accomplished. Account for all functions or activities identified in the application. Cite factors that might accelerate or decelerate the work and state your reasons for taking the proposed approach rather than others. Describe any unusual features of the project such as design or technical innovations, reductions in cost or time or extraordinary social and community involvement.

Provide quantitative monthly or quarterly projections of the accomplishments to be achieved for each function or activity in, for example such terms as the "number of people served." When accomplishments cannot be quantified by activity or function, list them in chronological order to show the schedule of accomplishments and their target dates.

If any data is to be collected, maintained, and/or disseminated, clearance may be required from the U.S. Office of Management and Budget (OMB). This clearance pertains to any "collection of information that is conducted or sponsored by ACF."

List organizations, cooperating entities, consultants, or other key individuals who will work on the project along with a short description of the nature of their effort or contribution.

Evaluation

Provide a narrative addressing how the results of the project and the conduct of the project will be evaluated. In addressing the evaluation of results, state how you will determine the extent to which the project has achieved its stated objectives and the extent to which the accomplishment of objectives can be attributed to the project. Discuss the criteria to be used to evaluate results, and explain the methodology that will be used to determine if the

needs identified and discussed are being met and if the project results and benefits are being achieved. With respect to the conduct of the project, define the procedures to be employed to determine whether the project is being conducted in a manner consistent with the work plan presented and discuss the impact of the project's various activities on the project's effectiveness.

Organizational Profiles

Provide information on the applicant organization(s) and cooperating partners such as organizational charts, financial statements, audit reports or statements from CPAs/Licensed Public Accountants, Employer Identification Numbers, names of bond carriers, contact persons and telephone numbers, child care licenses and other documentation of professional accreditation, information on compliance with Federal/State/local government standards, documentation of experience in the program area, and other pertinent information. Any non-profit organization submitting an application must submit proof of its non-profit status in its application at the time of submission.

The non-profit agency can accomplish this by providing a copy of the applicant's listing in the Internal Revenue Service's (IRS) most recent list of tax-exempt organizations described in Section 501(c)(3) of the IRS code, or by providing a copy of the currently valid IRS tax exemption certificate, or by providing a copy of the articles of incorporation bearing the seal of the State in which the corporation or association is domiciled.

Budget and Budget Justification

Provide line item detail and detailed calculations for each budget object class identified on the Budget Information form. Detailed calculations must include estimation methods, quantities, unit costs, and other similar quantitative detail sufficient for the calculation to be duplicated. The detailed budget must also include a breakout by the funding sources identified in Block 15 of the SF-424.

Provide a narrative budget justification that describes how the categorical costs are derived. Discuss the necessity, reasonableness, and allocability of the proposed costs.

Evaluation Criteria

Evaluation Criterion I: Approach (Maximum: 35 Points)

Factors:

(1) The work program is results-oriented, approximately related to the

legislative mandate and specifically related to the priority area under which funds are being requested. Application addresses the following: specific outcomes to be achieved; performance targets that the project is committed to achieving, including a discussion of and how the project will verify the achievement of these targets; critical milestones which must be achieved if results are to be gained; organizational support, the level of support from the applicant organization; past performance in similar work; and specific resources contributed to the project that are critical to success.

(2) The application defines the comprehensive nature of the project and methods that will be used to ensure that the results can be used to address a statewide or nationwide project as defined by the description of the particular priority area.

Evaluation Criterion II: Organizational Profiles (Maximum: 25 Points)

Factors:

(1) The application demonstrates that it has experience and a successful record of accomplishment relevant to the specific activities it proposes to accomplish.

(2) If the application proposes to provide training and technical assistance, it details its abilities to provide those services on a nationwide basis. If applicable, information provided by the applicant also addresses related achievements and competence of each cooperating or sponsoring organization.

(3) The application fully describes, for example in a resume, the experience and skills of the proposed project director and primary staff showing specific qualifications and professional experiences relevant to the successful implementation of the proposed project.

(4) The application describes how it will involve partners in the Community Services Network in its activities. Where appropriate, applicant describes how it will interface with other related organizations.

(5) If subcontracts are proposed, the application documents the willingness and capacity of the subcontracting organization(s) to participate as described.

Evaluation Criterion III: Objectives and Need for Assistance (Maximum: 20 Points)

Factors:

(1) The application documents that the proposed project addresses vital needs related to the program purposes and provides statistics and other data

and information in support of its contention.

(2) The application provides current supporting documentation or other testimonies regarding needs from State CSBG Directors, CAAs and local service providers and/or State and Regional organizations of CAAs and other local service providers.

Evaluation Criterion IV: Results or Benefits Expected (Maximum: 15 Points)

Factors:

(1) The application describes how the project will assure long-term program and management improvements for State CSBG offices, CAA State and/or regional associations, CAAs and/or other local providers of CSBG services and activities.

(2) The application indicates the types and amounts of public and/or private resources it will mobilize, how those resources will directly benefit the project, and how the project will ultimately benefit low-income individuals and families.

(3) If the application proposes a project with a training and technical assistance focus, it indicates the number of organizations and/or staff that will benefit from those services.

(4) If the application proposes a project with data collection focus, it describes the mechanism it will use to collect data, how it can assure collections from a significant number of States, and the number of States willing to submit data to the applicant.

(5) If the application proposes to develop a symposium series or other policy-related project(s), it identifies the number and types of beneficiaries.

(6) The application describes methods of securing participant feedback and evaluations of activities.

Criterion V: Budget and Budget Justification (Maximum: 5 Points)

Factors:

(1) The resources requested are reasonable and adequate to accomplish the project

(2) Total costs are reasonable and consistent with anticipated results.

2. Review and Selection Process

Initial OCS Screening

Each application submitted to OCS will be screened to determine whether it was received by the closing date and time.

Applications received by the closing date and time will be screened for completeness and conformity with the following requirements. Only complete applications that meet the requirements listed below will be reviewed and

evaluated competitively. Other applications will be returned to the applicants with a notation that they were unacceptable and will not be reviewed.

OCS Evaluation of Applications

Applications that pass the initial OCS screening will be reviewed and rated by a panel based on the program elements and review criteria presented in relevant sections of this program announcement. The review criteria are designed to enable the review panel to assess the quality of a proposed project and determine the likelihood of its success. The criteria are closely related to each other and are considered as a whole in judging the overall quality of an application. The review panel awards points only to applications that are responsive to the program elements and relevant review criteria within the context of this program announcement.

The OCS Director and program staff use the reviewer scores when considering competing applications. Reviewer scores will weigh heavily in funding decisions, but will not be the only factors considered.

Applications generally will be considered in order of the average scores assigned by the review panel. Because other important factors are taken into consideration, highly ranked applications are not guaranteed funding. These other considerations include, for example: the timely and proper completion by the applicant of projects funded with OCS funds granted in the last five (5) years; comments of reviewers and government officials; staff evaluation and input; amount and duration of the grant requested and the proposed project's consistency and harmony with OCS goals and policy; geographic distribution of applications; previous program performance of applicants; compliance with grant terms under previous HHS grants, including the actual dedication to program of mobilized resources as set forth in project applications; audit reports; investigative reports; and applicant's progress in resolving any final audit disallowance on previous OCS or other Federal agency grants.

VI. Award Administration Information

1. Award Notices

Following approval of the application selected for funding, successful applicants will be notified through the issuance of a Financial Assistance Award which specifies the amount of Federal funds approved for use in the project, the project and budget period for which support is provided and the

terms and conditions of the award. The Financial Assistance Award will be signed by a Grants Officer and transmitted via postal mail.

ACF will notify unsuccessful applicants after the award is issued to the successful applicant.

2. Administrative and National Policy Requirements

Grantees are subject to 45 CFR Part 74 (non-governmental) or 45 CFR Part 92 (governmental)

3. Reporting

All grantees are required to submit semi-annual program reports with a final report due 90 days after the project end date. Grantees are also required to submit semi-annual financial status reports using the SF-269 with a final report due 90 days after the project end date. A suggested format for the program report will be sent to the grantee after the award is made.

Special Reporting Requirements: None.

Food and Drug Administration

Establishment of Animal Drug User Fee Rates and Payment Procedures for Product, Establishment, and Sponsor Fees for Fiscal Year 2004

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is announcing the fee rates and payment procedures for product, establishment, and sponsor fees for fiscal year (FY) 2004. The Federal Food, Drug, and Cosmetic Act (the act), as amended by the Animal Drug User Fee Act of 2003 (ADUFA), Public Law 108-130, authorizes FDA to collect user fees for certain animal drug applications, on certain animal drug products, on certain establishments where such products are made, and on certain sponsors of such animal drug applications and/or investigational animal drug submissions. This notice establishes the product, establishment, and sponsor fee rates for FY 2004. A separate notice was published establishing fee rates and payment procedures for animal drug application fees for FY 2004. For FY 2004, the product fee rate is \$1,750, the establishment fee rate is \$23,950, and the sponsor fee rate is \$15,450. FDA will issue invoices for FY 2004 product, establishment, and sponsor fees on or about May 1, 2004. Those invoices will be due and payable within 30 days of the date of the invoice.

FOR FURTHER INFORMATION CONTACT: Visit the FDA Web site at <http://www.fda.gov/oc/adufa> or contact Robert Miller, Center for Veterinary Medicine (HFV-10), Food and Drug Administration, 7529 Standish Pl., Rockville, MD 20855, 301-827-5436. For general questions, you may also e-mail the Center for Veterinary Medicine at cvmadufa@fda.gov.

SUPPLEMENTARY INFORMATION:

I. Background

Section 740 of the act (21 U.S.C. 379j-12), establishes four different kinds of user fees: (1) Fees for certain types of animal drug applications and supplements, (2) annual fees for certain animal drug products, (3) annual fees for certain establishments where such products are made, and (4) annual fees for certain sponsors of animal drug applications and/or investigational animal drug submissions (see 21 U.S.C. 379j-12(a)). When certain conditions are

met, FDA will waive or reduce fees (21 U.S.C. 379j-12(d)).

For FYs 2004 through 2008, the act establishes aggregate yearly revenue amounts for each of these fee categories. Revenue amounts established for years after FY 2004 are subject to adjustment for inflation and workload. Fees for applications, establishments, products, and sponsors are to be established each year by FDA so that the revenue for each fee category will approximate the level established in the statute, after the level has been adjusted for inflation and workload.

This notice establishes rates for FY 2004 for product, establishment, and sponsor fees. These fees are effective in FY 2004. FDA will publish a separate notice on or about August 1, 2004, providing rates for FY 2005, which begins October 1, 2004. In the **Federal Register** of February 18, 2004, FDA published a separate notice establishing fee rates and payment procedures for animal drug application fees for FY 2004 (69 FR 7646).

II. Product Fee Calculations for FY 2004

A. Product Fee Revenues and Numbers of Fee-Paying Products

The animal drug product fee (also referred to as the product fee) must be paid annually by the person named as the applicant in an animal drug application or supplemental animal drug application for an animal drug product submitted for listing under section 510 of the act (21 U.S.C. 360), and who had an animal drug application or supplemental animal drug application pending at FDA after September 1, 2003 (see 21 U.S.C. 379j-12(a)(2)). The term "animal drug product" is defined in 21 U.S.C. 379j-11(3). The product fees are to be established so that they will generate the fee revenue amounts specified in the statute: \$1,250,000 for FY 2004; \$2,000,000 in FY 2005; and \$2,500,000 in FYs 2006, 2007, and 2008 (see 21 U.S.C. 379j-12(b)(2)), adjusted for inflation and workload. Since FY 2004 is the first year of the program, there are no adjustments for workload or inflation. However, these adjustments will be made to the statutory revenue amounts each year after FY 2004 (see 21 U.S.C. 379j-12(c)(1) and (c)(2)).

To set animal drug product fees to realize \$1,250,000, FDA must make some assumptions about the number of products for which these fees will be paid in FY 2004. FDA developed data on all animal drug products that have been submitted for listing under section 510 of the act, and matched this to the
