## DEPARTMENT OF ENERGY

### Western Area Power Administration

#### Amistad and Falcon Projects Rate Order No. WAPA-111

**AGENCY:** Western Area Power Administration, DOE.

**ACTION:** Notice of order concerning a power rate formula.

**SUMMARY:** The Deputy Secretary of the Department of Energy (DOE) confirmed and approved Rate Order No. WAPA-111 placing a power rate formula for the Amistad and Falcon Projects of the Western Area Power Administration (Western) into effect on an interim basis. The provisional power rate formula will remain in effect on an interim basis until the Federal Energy Regulatory Commission (Commission) confirms, approves, and places it into effect on a final basis, or until the power rate formula is replaced by another power rate formula.

**DATES:** The provisional rate formula extension will be placed into effect on an interim basis on June 8, 2004, and will be in effect until the Commission confirms, approves, and places the provisional rate formula extension into effect on a final basis for a 5-year period ending June 7, 2009, or until superseded.

**FOR FURTHER INFORMATION CONTACT:** Mr. Bradley S. Warren, CRSP Manager, Colorado River Storage Project Management Center, Western Area

Power Administration, P.O. Box 11606, Salt Lake City, UT 84147-0606, (801) 524-5493, e-mail [warren@wapa.gov](mailto:warren@wapa.gov), or Ms. Carol Loftin, Rates Manager, Colorado River Storage Project Management Center, Western Area Power Administration, P.O. Box 11606, Salt Lake City, UT 84147-0606, telephone (801) 524-6380, e-mail [loftinc@wapa.gov](mailto:loftinc@wapa.gov).

**SUPPLEMENTARY INFORMATION:** The Amistad and Falcon Dams are features of international water storage projects located on the Rio Grande River between Texas and Mexico. Western markets the power from these dams under the terms of Contract No. 7-07-50-P0890 (Contract) dated August 9, 1977, and amended on April 10, 1986. The rate formula of that Contract was approved by the Federal Power Commission (FPC), predecessor to the Commission, for a 5-year period beginning with the date of initial operation of Amistad Power Plant, in Docket No. E-9566 on August 12, 1977. A 5-year rate extension approving this same rate formula through June 7, 1993, was ordered by the Commission on July 20, 1988, in 44 FERC 62,058. Subsequent 5-year renewals of the rate formula have been approved by the Commission. The most recent approval was on January 21, 2000, in Docket No. EF-99-5101-000, which approved the same power rate formula through June 7, 2004.

According to article 9(a) of the Contract, Western calculates the annual installment to be paid by the South Texas Electric Cooperative, Inc. (STEC), and the Medina Electric Cooperative, Inc. (MEC), for the power generated at the Amistad and Falcon power plants on or before August 31 of the year preceding the fiscal year to which it pertains. Each annual installment pays the annual amortized portion of the United States' investment in the Amistad and Falcon hydroelectric facilities with interest, and the associated operation, maintenance, and administrative costs. This repayment schedule is not dependent upon the power and energy made available for sale or the rate of generation each year. Western will continue to provide STEC/MEC with a revised Exhibit A by August 31 of each year using the same methodology.

By Delegation Order No. 00-037.00, effective December 6, 2001, the Secretary of Energy delegated: (1) The authority to develop power and transmission rates to Western's Administrator; (2) the authority to confirm, approve, and place such rates into effect on an interim basis to the

Deputy Secretary; and (3) the authority to confirm, approve, and place into effect on a final basis, to remand, or to disapprove such rates to the Commission. Existing DOE procedures for public participation in power rate adjustments (10 CFR 903) were published on September 18, 1985 (50 FR 37835).

Pursuant to Delegation Order Nos. 00-037.00 and 00-001.00A, 10 CFR part 903, and 18 CFR part 300, I hereby confirm, approve, and place Rate Order No. WAPA-111 into effect on an interim basis. The extension of the rate formula will be promptly submitted to the Commission for confirmation and approval on a final basis.

Dated: April 20, 2004.

**Kyle E. McSlarrow,**  
*Deputy Secretary.*

#### Order Confirming, Approving, and Placing a Rate Formula Extension for Amistad and Falcon Projects Into Effect on an Interim Basis

The Western Area Power Administration (Western) developed this power rate formula under the Department of Energy Organization Act (42 U.S.C. 7152). This Act transferred the power marketing functions of the Secretary of the Interior and the Bureau of Reclamation under the Reclamation Act of 1902 (ch. 1093, 32 Stat.388), as amended and supplemented by subsequent enactments, particularly section 9(c) of the Reclamation Act of 1939, (43 U.S.C. 485h(c)), and other Acts specifically applicable to the Amistad Project and the Falcon Project, to the Secretary.

By Delegation Order No. 00-037.00, effective December 6, 2001, the Secretary of Energy delegated: (1) The authority to develop power and transmission rates to Western's Administrator; (2) the authority to confirm, approve, and place such rates into effect on an interim basis to the Deputy Secretary; and (3) the authority to confirm, approve, and place into effect on a final basis, to remand, or to disapprove such rates to the Commission. Existing DOE procedures for public participation in power rate adjustments (10 CFR 903) were published on September 18, 1985 (50 FR 37835).
