[A-588-068]

Prestressed Concrete Wire Strand From Japan; Final Results of Expedited Sunset Review of Antidumping Finding

AGENCY: Import Administration,
International Trade Administration,
Department of Commerce.

ACTION: Notice of final results of
expedited sunset review of antidumping
finding on prestressed concrete wire
strand from Japan.

SUMMARY: On January 2, 2004, the
Department of Commerce ("the
Department") published the notice of
initiation of sunset review on
Prestressed Concrete Wire Strand from
Japan. On the basis of the notice of
intent to participate, and the adequate
substantive comments filed on behalf of
a domestic interested party and
inadequate response (in this case, no
response) from respondent interested
party, we determined to conduct an
expedited 120-day, sunset review. As a
result of this review, we find that
revocation of the antidumping duty
finding would be likely to lead to
continuation or recurrence of dumping
at the levels listed below in the section
entitled "Final Results of Review."

DATES: Effective Date: May 7, 2004.

FOR FURTHER INFORMATION CONTACT:
Alessandra Cortez or Ozlem Koray,
Office of Policy for Import
Administration, International Trade
Administration, U.S. Department of
Commerce, 14th Street and Constitution
Avenue, NW., Washington, DC, 20230;
telephone: (202) 482-5925 or (202) 482-
3675.

SUPPLEMENTARY INFORMATION:

Background

On January 2, 2004, the Department
published the notice of initiation of a
sunset review of the antidumping
finding on Prestressed Concrete Wire
Strand from Japan pursuant to section
751(c) of the Tariff Act of 1930, as
amended (the "Act").¹ On January 16,

2004, the Department received the
Notice of Intent to Participate on behalf
of American Spring Wire Corporation,
Insteel Wire Products Company and
Sumiden Wire Products Corporation
(collectively, "the domestic interested
parties"), within the deadline specified
in section 351.218(d)(1)(i) of the
Department's regulations. The domestic
interested parties claimed interested
party status under section 771(9)(C) of
the Act, as U.S. producers of a domestic
like product. We received a complete
substantive response in the sunset
review from the domestic interested
parties within the 30-day deadline
specified in the Department's
regulations under section
351.218(d)(3)(i).

We did not receive a substantive
response from any respondent
interested party to this proceeding. As a
result, pursuant to section 751(c)(3)(B)
of the Act and section
351.218(e)(1)(ii)(C) of the Department's
regulations, the Department conducted
an expedited, 120-day review of this
finding.

Scope of Review

The products covered in this sunset
review are shipments of steel wire
strand, other than alloy steel, not
galvanized, which are stress-relieved
and suitable for use in prestressed
concrete. Such merchandise is currently
classifiable under Harmonized Tariff
Schedule (HTS) item number
7312.10.30.12. The HTS item number is
provided for convenience and Customs
purposes. The written description
remains dispositive.

Analysis of Comments Received

All issues raised in this case by the
domestic interested parties are
addressed in the "Issues and Decision
Memorandum" ("Decision Memo")
from Ronald K. Lorentzen, Acting
Director, Office of Policy, Import
Administration, to James J. Jochum,
Assistant Secretary for Import
Administration, dated May 3, 2004,
which is hereby adopted by this notice.
The issues discussed in the Decision
Memo include the likelihood of
continuation or recurrence of dumping
and the magnitude of the margin likely
to prevail if the finding was to be
revoked. Parties can find a complete
discussion of all issues raised in this
review and the corresponding
recommendations in this public

memorandum, which is on file in room
B-099, Central Records Unit of the
Department.

In addition, a complete version of the
Decision Memo can be accessed directly
on the Web at <http://ia.ita.doc.gov/frn>,
under the heading "May 2004." The
paper copy and electronic version of the
Decision Memorandum are identical in
content.

Final Results of Review

We determine that revocation of the
antidumping finding on Prestressed
Concrete Wire Strand from Japan would
be likely to lead to continuation or
recurrence of dumping at the following
percentage weighted-average margins:

Japan manufacturers/exporters	Weighted-average margin percent
Shinko Wire Co., Ltd	13.3.
Suzuki Metal Industry Co., Ltd ...	6.9.
Tokyo Rope Manufacturing Co., Ltd.	4.5.
Sumitomo	Revoked.
Kawasaki Steel Techno-Wire	Revoked.
All Others	9.76.

This notice also serves as the only
reminder to parties subject to
administrative protective orders
(APO) of their responsibility
concerning the return or destruction of
proprietary information disclosed under
APO in accordance with section 351.305
of the Department's regulations. Timely
notification of the return or destruction
of APO materials or conversion to
judicial protective order is hereby
requested. Failure to comply with the
regulations and terms of an APO is a
violation which is subject to sanction.

We are issuing and publishing the
results and notice in accordance with
sections 751(c), 752, and 777(i)(1) of the
Act.

Dated: May 3, 2004.

Joseph A. Speirini,
Acting Assistant Secretary for Import
Administration.

¹ *Initiation of Five-Year (Sunset) Reviews*, 69 FR 50 (January 2, 2004) ("Initiation Notice"). Although the initiation notice states that the sunset review is

"of antidumping duty orders," the Department
hereby corrects the inadvertent misstatement to
reference the original "finding" on steel wire strand
from Japan, as originally stated in the Treasury
Decision. See *Treasury Decision 78-478* (Finding of
Dumping), 43 FR 57599 (December 8, 1978).
