BILLING CODE 44140-01-M

DEPARTMENT OF HOMELAND SECURITY

Federal Emergency Management Agency

[FEMA-1511-DR]

Federated States of Micronesia; Amendment No. 3 to Notice of a Major Disaster Declaration

AGENCY: Federal Emergency Management Agency, Emergency Preparedness and Response Directorate, Department of Homeland Security.

ACTION: Notice.

SUMMARY: This notice amends the notice of a major disaster declaration for the Federated States of Micronesia (FEMA-1511-DR), dated April 10, 2004, and related determinations.

EFFECTIVE DATE: April 28, 2004.

FOR FURTHER INFORMATION CONTACT: Magda Ruiz, Recovery Division, Federal Emergency Management Agency, Washington, DC 20472, (202) 646-2705.

SUPPLEMENTARY INFORMATION: The notice of a major disaster declaration for the Federated States of Micronesia is hereby amended to include Categories C-G under the Public Assistance Program and Hazard Mitigation in the following area among those areas determined to have been adversely affected by the catastrophe declared a major disaster by the President in his declaration of April 10, 2004:

Yap State for Categories C-G under the Public Assistance Program and Hazard Mitigation (already designated for debris removal and emergency protective measures [Categories A and B under the Public Assistance program] including direct Federal Assistance and Individual Assistance to include the Emergency Food Assistance Program through USDA.)

(The following Catalog of Federal Domestic Assistance Numbers (CFDA) are to be used for reporting and drawing funds: 97.030, Community Disaster Loans; 97.031, Cora Brown Fund Program; 97.032, Crisis Counseling; 97.033, Disaster Legal Services Program; 97.034, Disaster Unemployment Assistance (DUA); 97.046, Fire Management Assistance; 97.048, Individual and Household Housing; 97.049, Individual and Household Disaster Housing Operations; 97.050, Individual and Household Program—Other Needs, 97.036, Public Assistance Grants; 97.039, Hazard Mitigation Grant Program.)

Michael D. Brown,

Under Secretary, Emergency Preparedness and Response, Department of Homeland Security.

BILLING CODE 9110-10-P

DEPARTMENT OF HOMELAND SECURITY

Federal Emergency Management Agency

[FEMA-1514-DR]

New Mexico; Major Disaster and Related Determinations

AGENCY: Federal Emergency Management Agency, Emergency Preparedness and Response Directorate, Department of Homeland Security.

ACTION: Notice.

SUMMARY: This is a notice of the Presidential declaration of a major disaster for the State of New Mexico (FEMA-1514-DR), dated April 29, 2004, and related determinations.

EFFECTIVE DATE: April 29, 2004.

FOR FURTHER INFORMATION CONTACT: Magda Ruiz, Recovery Division, Federal Emergency Management Agency, Washington, DC 20472, (202) 646-2705.

SUPPLEMENTARY INFORMATION: Notice is hereby given that, in a letter dated April 29, 2004, the President declared a major disaster under the authority of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. 5121-5206 (the Stafford Act), as follows:

I have determined that the damage in certain areas of the State of New Mexico, resulting from severe storms and flooding on April 2-11, 2004, is of sufficient severity and magnitude to warrant a major disaster declaration under the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. 5121-5206 (the Stafford Act). I, therefore, declare that such a major disaster exists in the State of New Mexico.

In order to provide Federal assistance, you are hereby authorized to allocate from funds available for these purposes, such amounts as you find necessary for Federal disaster assistance and administrative expenses.

You are authorized to provide Public Assistance in the designated areas and Hazard Mitigation throughout the State. Consistent with the requirement that Federal assistance be supplemental, any Federal funds provided under the Stafford Act for Public Assistance and Hazard Mitigation will be limited to 75 percent of the total eligible costs. If Other Needs Assistance under Section 408 of the Stafford Act is later warranted, Federal funds provided under that program will also be limited to 75 percent of the total eligible costs.

Further, you are authorized to make changes to this declaration to the extent allowable under the Stafford Act.

The Federal Emergency Management Agency (FEMA) hereby gives notice that pursuant to the authority vested in the Under Secretary for Emergency Preparedness and Response, Department of Homeland Security, under Executive Order 12148, as amended, Thomas Davies, of FEMA is appointed to act as the Federal Coordinating Officer for this declared disaster.

I do hereby determine the following areas of the State of New Mexico to have been affected adversely by this declared major disaster: Bernalillo, Eddy, Mora, and San Miguel Counties for Public Assistance.

All counties within the State of New Mexico are eligible to apply for assistance under the Hazard Mitigation Grant Program.

(The following Catalog of Federal Domestic Assistance Numbers (CFDA) are to be used for reporting and drawing funds: 97.030, Community Disaster Loans; 97.031, Cora Brown Fund Program; 97.032, Crisis Counseling; 97.033, Disaster Legal Services Program; 97.034, Disaster Unemployment Assistance (DUA); 97.046, Fire Management Assistance; 97.048, Individual and Household Housing; 97.049, Individual and Household Disaster Housing Operations; 97.050 Individual and Household Program—Other Needs, 97.036, Public Assistance Grants; 97.039, Hazard Mitigation Grant Program.)

Michael D. Brown,

Under Secretary, Emergency Preparedness and Response, Department of Homeland Security.

BILLING CODE 9110-10-P

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

[Docket No. FR-4912-N-06]

Notice of Intent To Prepare a Draft Environmental Impact Statement for the Development of the Stillwater Business Park, City of Redding, CA

AGENCY: Office of the Assistant Secretary for Community Planning and Development, HUD.

ACTION: Notice.

SUMMARY: The Department of Housing and Urban Development (HUD) gives notice to the public, agencies, and Indian tribes that the City of Redding, CA, intends to prepare an Environmental Impact Statement (EIS)/ Environmental Impact Report (EIR) (EIS/EIR) for the Stillwater Business Park Project located in Redding, CA. The City of Redding, CA, acting as the lead agency will prepare the EIS/EIR acting under its authority as the responsible entity for compliance with the National Environmental Policy Act (NEPA) in accordance with 42 U.S.C. 3547(c) and HUD regulations at 24 CFR 58.4, and under its authority as lead agency in accordance with the California Environmental Quality Act (CEQA). The EIS/EIR will be a joint NEPA and CEQA document. The EIR will satisfy requirements of the CEQA (Public Resources Code 21000 *et seq.*) and State CEQA Guidelines (14 California Code of Regulations 15000 *et seq.*), which require that all state and local government agencies consider the environmental consequences of projects over which they have discretionary authority before acting on those projects. Because federal Economic Development Initiative (EDI) special project funds would be used, the proposed action is also subject to NEPA. EPA State and Tribal Assistance Grants (STAG) will also fund water and wastewater related infrastructure. EPA is acting as a cooperating agency for this process. A permit under section 404 (b)(1) of the clean water act may be necessary. This notice is given in accordance with the Council on Environmental Quality regulations at 40 CFR parts 1500–1508. All interested federal, state, and local agencies, Indian tribes, groups, and the public are invited to comment on the scope of the EIS.

ADDRESSES: Comments relating to the scope of the EIS are requested and will be accepted by the contact persons listed below for up to 45 days following the publication of this notice to assure full consideration. At least one scoping meeting will be held no sooner than 15 days from the publication of this notice and will be noticed in the appropriate local media. Any person or agency interested in receiving a notice and making comment on the draft EIS should contact one of the persons listed below.

FOR FURTHER INFORMATION CONTACT: Randy Bachman, Administrative Services Director, City of Redding, P.O. Box 496071, Redding, CA 96049–6071; telephone (530) 225–4067, Fax (530)

225–4325 or Nathan Cherpeski, Management Assistant to the City Manager, City of Redding, P.O. Box 496071, Redding, CA 96049–6071; telephone (530) 225–4519, Fax (530) 225–4324.

SUPPLEMENTARY INFORMATION: This notice seeks public input on issues that should be addressed in the EIS/EIR and solicits input from potentially affected agencies and interested parties regarding the scope and content of the EIS/EIR.

The proposed action is the development of a large business park capable of attracting and accommodating primary industries to the Redding Area. The City of Redding is proposing the development of the area East and Northeast of the Municipal Airport in Redding, California. The proposed action site is located on the Enterprise and Cottonwood, California 7.5-minute USGS quadrangles, Township 31 North, Range 4 West, Sections 2, 3, 10, 14, 15, 22, 23, 26, 34, and 35. The proposed location is classified a portion as industrial and a portion as park under the Redding General Plan, adopted in 2000. The City's goal in developing this proposal is to increase the activity of contributory economic sectors by constructing a business park within the City of Redding sphere of influence capable of attracting and accommodating diverse business and industrial users.

Although additional alternatives may be identified during the scoping period, the following is a list of alternatives that the City of Redding has identified for consideration:

- **Alternative 1:** Develop large lot business park capable of accommodating a broad range of industries near the Redding Municipal Airport. This proposal would result in an approximate 687-acre business park consisting of 383 acres of developable land for a total of 4,410,400 sq. ft. of improvements for professional offices and industrial users. The proposal includes parcels ranging from 4 acres to more than 100 acres and is intended to be flexible in the configuration of those parcels to meet the needs of potential users. About 250 acres in the northern portion will be preserved as open space to protect the vernal pool and wetland features in the area and mitigation for impacts. An extensive trail system, for pedestrians and bikes, will wind throughout the project including through the open space preserve. Part of this trail will also serve as a utility access road for a proposed 115Kv transmission line that runs through the

northern open space area and then down the east side of the project area and will need to be constructed in a manner to support vehicles. This alternative involves two bridge crossings of Stillwater Creek and the construction of a backbone road, trunk sewer lines, water lines, electric transmission lines, electrical substations, and other on-site and off-site utilities. It also reserves a floating right-of-way easement for a road to the property north of the project and a fixed 110' right-of-way easement to the east. The environmental study area consists of 1055 acres with approximately 80 acres of wetlands or jurisdictional waters, most of which would not be impacted. Implementation of this alternative would result in direct discharge of fill material into waters of the U.S. totaling more than 3 acres but less than 7 acres.

- **Alternative 2:** (proposed action): An onsite variation of Alternative 1 intended to reduce the intensity of impacts. The overall project is 687 acres with approximately 383 acres of developable land. The proposal includes parcels ranging from 4 acres to more than 100 acres and is intended to be flexible in the configuration of those parcels to meet the needs of potential users. The major change for this alternative is that it relocates the 115Kv transmission lines away from the open space area to the west side of the property near the proposed backbone road. This alternative also removes both the floating easement to the north and the 110' right of way easement to the east. Traffic models show these roads are not necessary to achieve the project goals. About 250 acres in the northern portion will be preserved as open space to protect the vernal and wetland features in the area and as mitigation for impacts. The trail system, for pedestrian or bicycle use only, will remain in the open space area to provide public recreation and educational benefits. Implementation of this alternative would result in direct discharge of fill material into waters of the U.S. totaling less than 3 acres.

- **Alternative 3:** This offsite alternative includes the combination of separately owned parcels into a single large (approximately 395 developable acres) site Northwest of the Redding Municipal Airport. This alternative could also have direct and indirect impacts upon wetlands (including but not limited to vernal pool features) and waters of the U.S. It is anticipated that this site could provide parcels ranging from 1.5 acres to 100 acres to meet the need for flexible parcel configurations. Based on projections for professional

office and industrial users this site could provide up to 4,499,000 sq. ft. for development. The availability of this land is yet to be determined. This alternative could yield various on-site alternatives as well.

- **No Project—No Action.** No action would be taken. Significant portions of alternatives 1, 2, and 3 are zoned for development and these areas will likely develop over the next 20 years in some fashion absent this action.

The EIS/EIR will address the following environmental issues: Air quality, cultural resources, flood hazard, hydrology, noise, hazardous materials, biological resources, traffic, land use, erosion control, environmental justice, and secondary and cumulative impacts. Each of the action alternatives identified to date include areas designated as critical habitat for vernal pool species and some occurrences of listed vernal pool species are found within all action alternatives. Other issues or alternatives may be identified during the scoping process.

The following agencies have been or will be invited to serve as cooperating agencies: U.S. Army Corps of Engineers, U.S. Fish and Wildlife Service, National Marine Fisheries Service, and EPA.

Questions may be directed to the individuals named in this notice under the heading **FOR FURTHER INFORMATION CONTACT**.

Dated: May 3, 2004.

Roy A. Bernardi,

Assistant Secretary for Community Planning and Development.

BILLING CODE 4210-29-P

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

Notice of Availability, Draft Restoration Plan and Environmental Assessment

AGENCY: Fish and Wildlife Service, Department of the Interior.

ACTION: Notice of availability.

SUMMARY: The U.S. Fish and Wildlife Service (Service), on behalf of the Department of the Interior (DOI); the State of New Jersey; and the National Oceanic and Atmospheric Administration, on behalf of the Department of Commerce, announces the release for public review of the draft Restoration Plan and Environmental Assessment (RP/EA) for the *T/V Anitra* Oil Spill, of May 1996. The RP/EA describes the Trustees' proposal to restore natural resources injured as a result of the release of oil from the

T/V Anitra to the Delaware Bay and the Atlantic Coast shorelines of New Jersey.

DATES: Written comments must be submitted on or before June 10, 2004.

ADDRESSES: Requests for copies of the RP/EA may be made to the U.S. Fish and Wildlife Service, New Jersey Field Office, 927 North Main Street, Building D, Pleasantville, New Jersey 08232.

Written comments or materials regarding the RP/EA should be sent to the same address.

FOR FURTHER INFORMATION CONTACT:

Timothy J. Kubiak, Environmental Contaminants Program, U.S. Fish and Wildlife Service, New Jersey Field Office, 927 North Main Street, Building D, Pleasantville, New Jersey 08232.

Interested parties may also call 609-646-9310 for further information.

SUPPLEMENTARY INFORMATION: The *Anitra* Oil Spill occurred May 10, 1996. Over 50 miles of beaches were oiled over a 2-week period, including at least some oiling of several State Wildlife Management Areas, two State Parks, and Edwin B. Forsythe National Wildlife Refuge. The oil formed tarballs which proceeded northward up the Atlantic Coast shoreline from the spill site in Delaware Bay. Over 4,000 shorebirds were oiled to some degree, including at least 51 adult piping plovers and 2 chicks.

The Trustees are to receive \$1.25 million in compensation from the Responsible Party to restore resources injured as a result of the oil spill and \$250,000 to compensate the Trustees for past assessment costs. The settlement proceeds will be used to compensate for loss of natural resources under trusteeship of the Department of Interior, and the State of New Jersey. In the event that the exact dollar amounts available for restoration differ from the amount set forth in the draft RP/EA, the actual restoration project amounts will be adjusted by the Trustees given the factors and considerations described in the draft RP/EA. The draft RP/EA is being released in accordance with Oil Pollution Act of 1990 (OPA) (33 U.S.C. 2701 *et seq.*), the Natural Resource Damage Assessment Regulations found at 15 CFR part 990, and the National Environmental Policy Act. It is intended to describe the Trustees' proposals to restore natural resources injured from the *T/V Anitra* spill and evaluate the impacts of each.

The RP/EA describes a number of habitat restoration and protection alternatives and discusses the environmental consequences of each. Restoration efforts which have the greatest potential to restore migratory shorebird habitats and the services those

habitats provide to migratory shorebirds are preferred. Based on an evaluation of the various restoration alternatives, management and enhancement of piping plover and other migratory shorebird habitat in New Jersey and the development of a partnership to manage South American shorebird wintering grounds are being proposed.

Interested members of the public are invited to review and comment on the RP/EA. Copies of the RP/EA are available for review at the U.S. Fish and Wildlife Service's New Jersey Field Office in Pleasantville, New Jersey (927 North Main Street, Building D Pleasantville, New Jersey). Additionally, the RP/EA will be available for review at the Cape May County Library, 30 West Mechanic Street, Cape May Court House, New Jersey 08210. Written comments will be considered and addressed in the final RP/EA at the conclusion of the restoration planning process.

Comments, including names and home addresses of respondents, will be available for public review during regular business hours. Individual respondents may request confidentiality. If you wish us to withhold your name and or address from public review, or from disclosure under the Freedom of Information Act, you must state this prominently at the beginning of your written comment. Such requests will be honored to the extent allowed by law. We will not, however, consider anonymous comments. All submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, will be made available for public inspection in their entirety.

Author: The primary author of this notice is Timothy J. Kubiak, U.S. Fish and Wildlife Service, New Jersey Field Office, 927 North Main Street, Building D, Pleasantville, New Jersey 08232.

Authority: The authority for this action is the Oil Pollution Act of 1990 (33 U.S.C. 2701 *et seq.*), and implementing Natural Resource Damage Assessment Regulations found at 15 CFR part 990.

Dated: April 2, 2004.

Marvin E. Moriarty,

Regional Director, Region 5, U.S. Fish and Wildlife Service, DOI Designated Authorized Official.
