II. Background

The Bureau of Land Management (BLM) manages property in Umatilla County, Oregon known as Umatilla Butte. The legal description for the butte is: Township 5 North, Range 28 East, East ½ East ½ of Section 28, of the Willamette Meridian. This location is just west of the community of Charleston, which is north of Hermiston, Oregon. Scattered housing is found in close proximity to the butte on the west, east, and south sides. Paved and gravel roads circle the butte. Several unauthorized "roads" have evolved on the butte, usually leading to trash dumping or firearms shooting sites.

Illegal activities on the butte have resulted in numerous complaints to BLM from neighbors, officials from Umatilla County, and the Umatilla County Sheriff's Department. These activities have included: trash dumping (household, batteries, tires), methamphetamine lab dumping (seven sites alone were found in 2001), vehicle oil changing, abandoned vehicles, and fires. Firearms target shooting has resulted in bullets impacting around residences, on other private property, and near hikers in the area. Fires in the dump areas have the potential to burn hazardous materials and produce toxic fumes. The methamphetamine lab dump sites include discarded propane tanks which also pose a significant health and safety risk if engulfed in a fire.

The primary means for illegal dumping, including methamphetamine lab waste, is through the use of motorized vehicles. Vehicles are driven onto the butte using illegal roads and even by creating new roads and routes in order to access dumping sites. This activity also causes undue erosion of the butte, which in turn has the potential of creating additional hazards to those driving on these illegal roads, to the resource, others using the butte and to land owners nearby.

Because motorized vehicles facilitate the ability to accomplish most of the illegal dumping and start fires, this rule would close the butte to motorized vehicles. Foot and non-motorized access is still allowed and encouraged.

III. Discussion of Rule

Why Is This Rule Being Published as Interim Final?

Because of significant health and safety risks to the public caused by activities that this rule would prohibit, including risks both to visitors to Umatilla Butte and residents in the

immediate area of the butte, BLM needs to curtail certain dangerous activities. The Umatilla County Sheriff's Office and the adjacent land owners are requesting that the BLM take immediate and aggressive action to stop these behaviors.

Because of the immediate and ongoing hazards to the public's health and safety and because of the need to protect natural resources from continued hazardous materials dumping, erosion, and fires, we find good cause to publish these rules as interim final, effective May 14, 2004, and allowing 60 days for public comment.

IV. Procedural Matters

Executive Order 12630, Governmental Actions and Interference With Constitutionally Protected Property Rights (Takings)

The rule does not represent a government action capable of interfering with Constitutionally protected property rights. Therefore, the Department of the Interior has determined that the rule would not cause a taking of private property or require further discussion of takings implications under this Executive Order.

Executive Order 13132, Federalism [Replaces Executive Orders 12612 and 13083.]

The rule will not have a substantial direct effect on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. Therefore, in accordance with Executive Order 13132, BLM has determined that this rule does not have sufficient Federalism implications to warrant preparation of a Federalism Assessment.

Executive Order 12988, Civil Justice Reform

Under Executive Order 12988, the Office of the Solicitor has determined that this rule would not unduly burden the judicial system and that it meets the requirements of sections 3(a) and 3(b)(2) of the Order.

Executive Order 13175, Consultation and Coordination With Indian Tribal Governments [Replaces Executive Order 13084]

In accordance with Executive Order 13175, we have found that this final rule does not include policies that have tribal implications.

Paperwork Reduction Act

These supplementary rules do not contain information collection requirements that the Office of Management and Budget must approve under the Paperwork Reduction Act of 1995, 44 U.S.C. 3501 *et seq.*
